## Our Investment Philosophy

The recommended way to create Wealth from equity- 'Buy Right : Sit Tight'

At Motilal Oswal Asset Management Company (MOAMC), our investment philosophy and investing style is centered on 'Buy Right: Sit Tight' principle. 'Buy Right' means buying quality companies at a reasonable price and 'Sit Tight' means staying invested in them for a longer time to realise the full growth potential of the stocks.

### Buy Right Stock Characteristics

#### QGLP

- **'Q'uality** denotes quality of the business and management
- **'G'rowth** denotes growth in earnings and sustained RoE
- **'L'ongevity** denotes longevity of the competitive advantage or economic moat of the business
- **'P'rice** denotes our approach of buying a good business for a fair price rather than buying a fair business for a good price

### Sit Tight Approach

- **Buy and Hold:** We are strictly buy and hold investors and believe that picking the right business needs skill and holding onto these businesses to enable our investors to benefit from the entire growth cycle needs even more skill.
- **Focus:** Our portfolios are high conviction portfolios with 20 to 25 stocks being our ideal number. We believe in adequate diversification but over-diversification results in diluting returns for our investors and adding market risk

## Benefits of our Equity Mutual Fund Schemes

### Low Churn

- Higher portfolio churn can increase the fund expenses disproportionately affecting the returns of the fund directly
- Frequent churn may not let you reap the full growth potential of the stocks leading to poor returns
- Hence we research extensively before we buy any stock and hold onto them for years to reap the full growth potential

### High Conviction

- Too many stocks become unmanageable for the fund managers
- Over-diversified portfolio takes away the potential of quality stocks
- Risk comes from not knowing the stocks hence diversification beyond ones control can increase the risk
- Hence we believe in adequate diversification with less number of stocks in our portfolio

# Scheme details

Type of Scheme:	MOST Focused 25	MOST Focused Midcap 30	MOST Focused Multicap 35	MOST Focused Dynamic equity	MOST Focused Long Term
