INVESTMENT OBJECTIVE

The investment objective of the Scheme is to achieve long term capital appreciation by investing in a maximum of 30 quality mid-cap companies having long-term competitive advantages and potential for growth.

However, there can be no assurance or guarantee that the investment objective of the Scheme would be achieved.

ASSET ALLOCATION PATTERN

The asset allocation pattern of the Scheme would be as follows:

Instruments	Indicative Allocations (%of total assets)		Risk Profile
	Minimum	Maximum	High/Medium/Low
Equity and equity related instruments* selected between Top 101 st and 200 th listed companies by market capitalization	65	100	High
Equity and equity related instruments* beyond the Top 200 th listed company and with market capitalization not lower than INR 600 crs	0	25	High
Debt, Money Market Instruments, G-Sec, Bonds, Cash and cash equivalents, etc.	0	10	Low

*subject to overall limit of 30 companies

Money Market Instruments include CMBs, T-Bills, and Government securities with an unexpired maturity upto one year, CBLOs & Repo/ Reverse Repo.

Exposure by the Scheme in derivative instruments shall not exceed 50% of the total Net Assets of Scheme. The Scheme will not participate in securities lending more than 20% of total Net Assets of the Scheme and would limit its exposure with regard to securities lending for a single intermediary to the extent of 5% of the total net assets at the time of lending.

The cumulative gross exposure through equity, debt and derivative positions should not exceed 100% of the net assets of the scheme.

The scheme will not invest in Securitised debt, corporate debt repo and reverse repo and foreign securities. The scheme shall not undertake short selling.

The scheme shall invest in equity and equity related instruments as per the investment objective of the scheme. While it is the intention of the Scheme to maintain the maximum exposure guidelines provided in the table above, there may be instances when these percentages may be exceeded. Typically, this may occur while the Scheme is new and the corpus is small thereby causing diversification issues.

INVESTMENT STRATEGY

The primary investment objective of the Scheme is to generate returns by investing in a portfolio of midcap equity and equity related instruments, money market instruments, cash and cash equivalents.

The Fund may also enter into securities lending or such other transactions, in accordance with the Regulations, as may be allowed to Mutual Funds from time to time.

The portfolio will essentially follow MOAMC's QGLP philosophy – i.e. invest in Quality businesses with reasonable Growth potential and with sufficient Longevity of that growth potential at a fair Price. The scheme shall follow an active investment style and will seek to invest in midcap companies with a strong competitive position or economic moat, good business prospects, run by a competent management that will help them achieve good growth over the medium to long term and available at reasonable valuations. The fund shall practice a focused, high-conviction portfolio strategy with a low-churn, buy and hold approach to investing. It will typically select companies from beyond the Top 100 listed entities on the Indian stock exchanges and companies with market capitalizations not lower than INR 600crs.

The long-term India growth story provides an excellent platform for small and mid-size businesses to unleash their growth potential and to emerge as large cap companies of the future. India has a plethora of mid-size listed companies and their number has only risen in recent years. We believe the midcap universe in India even today presents similar such investment opportunities from a medium to long term perspective. Besides, midcaps are typically found to be under-owned and under-researched and hence provide a large universe of exciting investment prospects.

While making investment decisions, besides other factors, the impact of the prevailing economic environment over the medium to long term prospects of the companies will also be taken into consideration.

The AMC will endeavour to meet the investment objective of the Scheme while maintaining a balance between safety, liquidity and return on investments.

RISK PROFILE OF THE SCHEME

Mutual Fund Units involve investment risks including the possible loss of principal. Please read the Scheme Information Document (SID) carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:

- **Risks associated with investing in Equities**

Equity and Equity related instruments on account of its volatile nature are subject to price fluctuations on daily basis. The volatility in the value of the equity and equity related instruments is due to various micro and macro economic factors affecting the securities markets. This may have adverse impact on individual securities/sector and consequently on the NAV of Scheme. The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities as in certain cases, settlement periods may be extended significantly by unforeseen circumstances. Similarly, the inability to sell securities held in the Scheme portfolio may result, at times, in potential losses to the Scheme, should there be a subsequently decline in the value of the securities held in the Schemes portfolio. The Scheme may find itself invested in unlisted securities either by choice or due to external events or corporate actions. This may increase the risk of the portfolio as these unlisted securities are inherently illiquid in nature and carry larger liquidity risk as compared to the listed securities or those that offer other exit options to the investors.

- **Market Risk**

The Scheme's NAV will react to stock market movements. The value of investments in the scheme may go down over a short or long period due to fluctuations in Scheme's NAV in response to factors such as performance of companies whose stock comprises the underlying

portfolio, economic and political developments, changes in interest rates, inflation and other monetary factors causing movement in prices of underlining investments.

- **Asset Class Risk**

The returns from the types of securities in which the Scheme invests may under perform from the various general securities markets or different asset classes. Different types of securities tend to go through cycles of out-performance and under-performance in comparison with the general securities markets.

- **Interest Rate Risk**

Changes in interest rates will affect the Scheme's Net Asset Value. The prices of securities usually increase as interest rates decline and usually decrease as interest rates rise. The extent of fall or rise in the prices is guided by duration, which is a function of the existing coupon, days to maturity and increase or decrease in the level of interest rate. The new level of interest rate is determined by the rate at which the government raises new money and/or the price levels at which the market is already dealing in existing securities. Prices of long-term securities generally fluctuate more in response to interest rate changes than short-term securities. The price risk is low in the case of the floating rate or inflation-linked bonds. The price risk does not exist if the investment is made under a repo agreement. Debt markets, especially in developing markets like India, can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby to possible movements in the NAV.

- **Credit Risk**

Credit Risk means that the issuer of a security may default on interest payments or even paying back the principal amount on maturity. (i.e. the issuer may be unable to make timely principal and interest payments on the security). Even where no default occurs, the prices of security may go down because the credit rating of an issuer goes down. It must be, however, noted that where the Scheme has invested in Government securities, there is no risk to that extent.

- **Liquidity or Marketability Risk**

This refers to the ease at which a security can be sold at or near its true value. The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is characteristic of the Indian fixed income market. Trading Volumes, settlement periods and transfer procedures may restrict the liquidity of the investments made by the Scheme. Different segments of the Indian financial markets have different settlement periods and such period may be extended significantly by unforeseen circumstances leading to delays in receipt of proceeds from sale of securities. As liquidity of the investments made by the Scheme could, at times, be restricted by trading volumes and settlement periods, the time taken by the Fund for redemption of units may be significant in the event of an inordinately large number of redemption requests or restructuring of the Scheme.

- **Right to Limit Redemptions**

The Trustee, in the general interest of the unit holders of the Scheme offered under this SID and keeping in view of the unforeseen circumstances/unusual market conditions, may limit the total number of Units which can be redeemed on any Business Day subject to the guidelines/circulars issued by the Regulatory Authorities from time to time.

- **Risks associated with Investing in Derivatives**

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to

be pursued by the fund manager involve uncertainty and decision of the fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

Derivative products are specialized instruments that require investment techniques and risk analysis different from those associated with stocks. The use of a derivative requires an understanding not only of the underlying instrument but of the derivative itself. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to forecast price or interest rate movements correctly. There is a possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the “counterparty”) to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mispricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices, illiquidity risk whereby the Scheme may not be able to sell or purchase derivative quickly enough at a fair price. The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

- **Risk associated with securities lending**

Securities Lending is a lending of securities through an approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the securities borrowed.

In case the Scheme undertakes securities lending as prescribed in the Regulations, it may, at times be exposed to counter party risk and other risks associated with the securities lending. Unitholders of the Scheme should note that there are risks inherent to securities lending, including the risk of failure of the other party, in this case the approved intermediary, to comply with the terms of the agreement entered into between the lender of securities i.e. the Scheme and the approved intermediary. Such failure can result in the possible loss of rights to the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the approved intermediary. The Fund may not be able to sell such lent securities and this can lead to temporary illiquidity.

Risk Control

Investment by the Scheme would be made as per the investment objective of the Scheme and in accordance with SEBI Regulations. AMC has adequate safeguards to manage risk in the portfolio construction process. Risk control would involve managing risk in order to keep in line with the 13 investment objective of the Scheme. The risk control process would include identifying the risk and taking proper measures for the same. The system has incorporated all the investment restrictions as per the SEBI guidelines and enables identifying and measuring the risk through various risk management tools like various portfolio analytics, risk ratios, average duration and analyses the same and acts in a preventive manner.

PLANS AND OPTIONS

The Scheme offers two Plans: Regular Plan and Direct Plan

Regular Plan is for Investors who purchase/subscribe units in a Scheme through any Distributor (AMFI Registered Distributor/ARN Holder).

Direct Plan is for investors who purchase/subscribe units in a Scheme directly with the Fund and is not routed through a Distributor (AMFI Registered Distributor/ARN Holder). Direct Plan will have a lower expense ratio excluding distribution expenses, commission for distribution of Units etc.

There will be no separate portfolio for Direct Plan and Regular Plan. Further, both the options i.e. Growth and Dividend will have common portfolio under the Scheme.

Each Plan offers the following Options:

- (a) Growth Option
- (b) Dividend Option (with Payout and Re-investment facility)

Each Plan offers the following Options:

- (a) Growth Option
- (b) Dividend Option (with Payout and Re-investment facility)

Under Dividend Option, the Fund will endeavor to declare dividends from time to time depending on the availability of distributable surplus.

Note: If dividend payable under the dividend payout option is equal to or less than Rs. 500/-, then it would be compulsorily re-invested in the option of the Scheme.

The AMC reserves the right to introduce further Plans / Options as and when deemed fit.

Default Plan/Option:

Investors subscribing Units under Direct Plan of a Scheme should indicate “Direct Plan” against the Scheme name in the application form. Investors should also mention “Direct” in the ARN column of the application form. However, in case Distributor code is mentioned in the application form but “Direct Plan” is mentioned against the Scheme name, then the Distributor code will be ignored and the application will be processed under Direct Plan. Further, where application is received without mentioning neither Distributor code nor “Direct” is mentioned in the ARN Column, then the application will be processed under Direct Plan.

If the investor does not clearly specify the choice of option at the time of investing, it will be deemed that the investor has opted for Growth option and in case he does not specify payout/re-investment under Dividend option, it will be deemed to be dividend re-investment.

V. Motilal Oswal Value Index (MOVI) Pack Plan:

Motilal Oswal Value Index (MOVI) Pack Plan is a Systematic Transfer Plan (STP) from select debt/liquid scheme into select equity scheme that enables allocation between debt and equity asset classes. It allows Unit holders holding units in non-demat form to take advantage of fluctuations in equity market valuations and not just market levels based on MOVI. Under this facility, Investors may opt to transfer amounts from Motilal Oswal MOST Ultra Short Term Bond Fund (referred to as

Transferor Scheme) to Motilal Oswal MOST Focused 25 Fund (MOST Focused 25), Motilal Oswal MOST Focused Midcap 30 Fund (MOST Focused Midcap 30) and Motilal Oswal MOST Focused Multicap 35 Fund (MOST Focused Multicap 35), (referred to as Transferee Scheme) with allocations based on MOVI levels. The transfers will be enabled in the reverse as well.

The Salient features of the Plan are as under:

1. Motilal Oswal Value Index (MOVI) helps gauge equity market. The Index is calculated taking into account Price to Earnings, Price to Book and Dividend Yield of the Nifty 50 Index.

A low MOVI level indicates that the market valuation appears to be cheap and one may allocate a higher percentage of their investments to Equity as an asset class. A high MOVI level indicates that the market valuation appears to be expensive and that one may reduce their equity allocation.

2. India Index Services & Products Ltd. (IISL) is the calculating agent of NIFTY MOVI. IISL shall calculate, compile, maintain and provide NIFTY MOVI values to Motilal Oswal Asset Management Company Ltd. NIFTY MOVI values will be published on the MOAMC website on a daily basis.
3. Transfer: This transfer is made from the Transferor Scheme to the Transferee Scheme, on the date of allocation based on NIFTY MOVI levels.

Reverse Transfer: This transfer is made from the Transferee Scheme to the Transferor Scheme, when appreciation in the market value of the Transferee Scheme results in a breach of the prescribed allocation level as determined by NIFTY MOVI.

4. This Plan presently offers two enrolment options:
 - a. One Time Investment
 - b. Systematic Transfer Plan (STP) with a minimum of 6 installments.
5. Minimum amount under this Plan is as follows:

Options	Minimum Amount of Transfer (Rs.)
One Time Investment	Rs. 5000/- and in multiples of Re. 1/- thereafter
STP	Rs. 1000/- and in multiples of Re. 1/- thereafter

6. The date of allocation will be the 15th of every month. In case the date of allocation falls on a Non-Business Day or falls during a book closure period, the immediate following Business Day will be considered as the date of allocation.

Note: Under ‘One Time Investment’ enrolment option, in addition to the 15th of every month, allocation will occur on the business day succeeding the date of enrolment into the MOVI Pack Plan.

Under ‘STP’ enrolment option, if the Unit holder has an existing Systematic Investment Plan (SIP) in the Transferor scheme where the date of SIP falls on a date later than or on 15th of every month, then allocation for that amount will occur on 15th of the subsequent month.

7. On the date of allocation, the prescribed percentage of the amount will be transferred in the Transferee Scheme at the closing NAV of the same day i.e. date of allocation.

8. The AMC will require upto 7 calendar days from the date of submission of valid enrolment forms to register the Investor under this Plan. Therefore, in the intervening period i.e. date of submission of enrolment form and date of registration, if the date of allocation is crossed, then the same will be considered at the next date of allocation.
9. The amount transferred under this Plan from the Transferor Scheme to Transferee Scheme shall be effective by redeeming units of Transferor Scheme at applicable NAV, (subject to the applicable exit load, if any) and subscribing to the units of the Transferee Scheme at applicable NAV on the date of allocation.
10. Unit holders can discontinue the Plan at any time by providing a written request which shall be made effective within 7 calendar days of the date of receipt of the said request.
11. This Plan will be automatically terminated if all units are liquidated or withdrawn or pledged or upon receipt of intimation of death of the unit holder.
12. Unit holders should note that investor details and mode of holding (single, joint, anyone or survivor) in the Transferee Scheme will be as per the existing folio number of the Transferor Scheme. Units will be allotted under the same folio number.
13. Any change in methodology of MOVI would only be carried out by obtaining prior consent of the Board of Trustees of Motilal Oswal Trustee Company Limited, the Trustees to Motilal Oswal Mutual Fund.
14. Given the two way movement of investments between funds, liquidity at times may be restricted by trading volumes, settlement periods, and inordinately large number of redemption requests or restructuring of the Scheme. This may impact the performance of the underlying scheme.
15. Investors may approach/consult their tax consultants in regard to the treatment of the transfer of units from the tax point of view.
16. Investors are required to refer to the terms and conditions mentioned in the enrolment form.
17. The Trustee/AMC reserves the right to change/modify the terms and conditions of the MOVI Pack Plan or withdraw this facility.

This facility will also be available for transfer into any other equity scheme of Motilal Oswal Mutual Fund that may be launched in future.

TERMS AND CONDITIONS

Motilal Oswal Value Indicator (MOVI) Pack Plan is a Systematic Transfer Plan (STP) from select debt/liquid scheme into select equity scheme that enables allocation between debt and equity asset classes. It allows Unitholders holding units in non-demat form to take advantage of fluctuations in equity market valuations and not just market levels based on MOVI. Under this facility, Investors may opt to transfer amounts from Motilal Oswal MOST Ultra Short Term Bond Fund (referred to as Transferor Scheme) to Motilal Oswal MOST Focused 25 Fund/ Motilal Oswal MOST Focused Midcap 30 Fund and Motilal Oswal MOST Focused Multicap 35 Fund (referred to as Transferee Scheme) with allocations based on MOVI levels. The transfers will be enabled in the reverse as well.

- The Enrolment Form should be completed in ENGLISH and in BLOCK LETTERS only. Please tick in the appropriate box and do not overwrite. The Enrolment Form complete in all respects should be submitted at any of the Official Points of Acceptance of Motilal Oswal Mutual Fund.
- Enrolment forms incomplete in any respect are liable to be rejected. The AMC / Trustee retain the sole and absolute discretion to reject any enrolment form.
- Investors are advised to read the Scheme Information Document of the Schemes and Statement of Additional Information carefully before investing. The Scheme Information Document(s) / Key Information Memorandum(s) of the Scheme(s) and Statement of Additional Information are available with the ISCs of Motilal Oswal Mutual Fund, brokers/distributors and also displayed at the Motilal Oswal Mutual Fund website i.e. www.motilaloswal.com/Assetmanagement
- Motilal Oswal Value Indicator (MOVI) helps gauge equity market. The Indicator is calculated taking into account Price to Earnings, Price to Book and Dividend Yield of the CNX Nifty Index. A low MOVI level indicates that the market valuation appears to be cheap and one may allocate a higher percentage of their investments to Equity as an asset class. A high MOVI level indicates that the market valuation appears to be expensive and that one may reduce their equity allocation. India Index Services & Products Ltd. (IISL) is the calculating agent of MOVI. IISL shall calculate, compile, maintain and provide MOVI values to Motilal Oswal Asset Management Company Ltd.
- Transfer: This transfer is made from the Transferor Scheme to the Transferee Scheme, on the date of allocation based on MOVI levels.
Reverse Transfer: This transfer is made from the Transferee Scheme to the Transferor Scheme, when appreciation in the market value of the Transferee Scheme results in a breach of the prescribed allocation level as determined by MOVI.

How does the MOVI Pack Plan work? – Motilal Oswal MOVI Pack Plan consists of two parts as explained below; transfer & reverse transfer. The following example illustrates how MOVI Pack Plan with a Monthly Interval will work.

Transfer

Case 1 (STP):

Date	Installment Amount	MOVI	As per Allocation Matrix		Market Movements		Allocation on Monthly Balance (Not Ideal)		Allocation on Cumulative Balance (Ideal)	
			Equity	Debt	Equity	Debt	Equity	Debt	Equity	Debt
15th Jan	1,000	85	80%	20%	-	-	800	200	800	200
15th Feb	1,000	95	70%	30%	10%	10%	700	300	1442	618
15th Mar	1,000	105	55%	45%	0%	0%	550	450	1683	1377
Total Investments							2050	950	1683	1377
% Spilt							68.33%	31.67%	55.00%	45.00%

Let's assume, an Investor opts for a Systematic Transfer Plan under the MOVI Pack Plan for an amount of ₹ 1,000 (Column B) on a monthly basis. Starting the plan from January (Column A), we observe the MOVI value to be 85 (Column C) on 15th January. As per the allocation matrix, (Columns D and E) the Equity and Debt allocation is 80% in Equity and 20% in Debt. Out of the first installment of ₹ 1,000, ₹ 800 will be invested in Motilal Oswal MOST Focused 25 Fund/ Motilal Oswal MOST Focused Midcap 30 Fund / Motilal Oswal MOST Focused Multicap 35 Fund (Equity) and ₹ 200 will be invested in Motilal Oswal Ultra Short Term Bond Fund (Debt).

Now let's assume in the next month, on 15th February, MOVI is at 95. As per the allocation matrix, the allocation is 70% in Equity and 30% in Debt. Before we go ahead and allocate the second installment of ₹ 1,000, we need to account for the change in value of the previous investment (Columns F and G). This is the most critical part of the allocation. Assuming the initial ₹ 800 in Equity has risen by 10% to ₹ 880 and ₹ 200 in Debt has fallen by 10% to ₹ 180, then a mechanical allocation of ₹ 700 in Equity and ₹ 300 in Debt (Columns H and I) would not be ideal as it eliminates the impact of market movements on previous investments.

Therefore, we need to ensure that allocation of the 2nd installment of ₹ 1,000 is made in such a way that allocation for investments at the cumulative level is aligned to the allocation matrix. Hence, we will invest ₹ 562 in Equity and ₹ 438 in Debt (Columns J and K) which will take the total value of investments under Equity to ₹ 1,442 and under Debt to ₹ 648 thus translating into an allocation of 70% in Equity and 30% in Debt. The same applies to the third installment made in the month of March assuming no change in market value.

Reverse Transfer:

This transfer is made from the transferee scheme to the transferor scheme for any excess value in the transferee scheme that cannot be adjusted by deployment of fresh capital to ensure that overall allocation is aligned to the allocation matrix. Reverse transfer, if required, will occur on the date of allocation.

Case 2 (One Time Investment):

Date	Installment Amount	MOVI	As per Allocation Matrix		Market Movements		Allocation on Monthly Balance (Not Ideal)		Allocation on Cumulative Balance (Ideal)	
			Equity	Debt	Equity	Debt	Equity	Debt	Equity	Debt
15th Jan	10,000	85	80%	20%	-	-	8,000	2,000	8,000	2,000
15th Feb	-	95	70%	30%	10%	10%	8,800	1,800	7,420	3,180
1st Mar	10,000	98	70%	30%	-5%	5%	15,360	4,890	14,272	6,116
15th Mar	-	105	55%	45%	0%	0%	15,360	4,890	11,213	9,175
Total Investments							15,360	4,890	11,213	9,175
% Spilt							75.85%	24.15%	55.00%	45.00%

TERMS AND CONDITIONS (CONTD.)

Assuming an Investor opts for a One Time investment option under the MOVI Pack Plan for an amount of ₹ 10,000 (Column B), let's say on 15th of January (Column A). Starting the plan from January, we observe the MOVI value to be 85 (Column C) on 15th January. As per the allocation matrix, the Equity and Debt allocation is 80% in Equity and 20% in Debt (Columns D and E). Out of the first installment of ₹ 10,000, ₹ 8,000 will be invested in Motilal Oswal Focused 25 Fund/ Motilal Oswal MOST Focused Midcap 30 Fund/ Motilal Oswal MOST Focused Multicap 35 Fund (Equity) and ₹ 2,000 will be invested in Motilal Oswal Ultra Short Term Bond Fund (Debt).

Now let's assume in the next month, on 15th February, MOVI is at 95. As per the allocation matrix the Equity and Debt allocation is 70% in Equity and 30% in Debt. Since there is no fresh incoming capital, unlike in the STP enrolment option, we need to take into consideration the change in value of the initial investment and re-allocate.

Assuming the initial ₹ 8,000 in Equity has risen by 10% to ₹ 8,800 and ₹ 2,000 in Debt has fallen by 10% to ₹ 1,800, (Columns F and G) we need to re-allocate the investments so as to align them to the allocation matrix. This is done by redeeming units (Reverse Transfer) in Motilal Oswal Focused 25 Fund, Motilal Oswal MOST Focused Midcap 30 Fund and Motilal Oswal MOST Focused Multicap 35 Fund to bring down its value to ₹ 7,420 (Column J) which means that the Equity allocation is now 70%, and transferring to Motilal Oswal Ultra Short Term Bond Fund to raise its value to ₹ 3,180 (Column K) which takes the Debt allocation to 30%, in-line with the Allocation Matrix as of 15th February.

Any additional investment, under One Time Investment enrolment option, will be allocated in a way similar to the systematic enrolment option to ensure allocation at the cumulative level is aligned to the allocation matrix.

For example, on 1st March there is an additional investment of ₹ 10,000. The Equity and Debt funds have returned -5% and 5% respectively as of 1st March, from the last date of allocation i.e. 15th of February. The Equity and Debt allocation as per the allocation matrix is unchanged at 70% and 30% respectively, since MOVI is at 98. Therefore, this investment of ₹ 10,000 will be allocated in a way which ensures investments at the cumulative level are aligned to the allocation matrix.

Under the 'One Time Investment' enrolment option, in addition to the 15th, reverse transfer may occur on any other date when an additional investment is made into the MOVI Pack Plan.

Disclaimer: The above are only illustrations explaining the concept of MOVI Pack Plan using assumed figures. The illustrations are merely indicative in nature and should not be construed as investment advice. They do not in any manner imply or suggest performance of any Motilal Oswal Mutual Fund Schemes(s). MOVI Pack Plan neither assures a profit nor guarantees protection against a loss in declining market.

6. This Plan presently offers two enrolment options:

- a. One Time Investment
- b. Systematic Transfer Plan (STP) with a minimum of 6 installments.

7. Minimum amount under this Plan is as follows:

Options	Minimum Amount of Transfer (₹)
One Time Investment	₹ 5000/- and in multiples of ₹ 1/- thereafter
STP	₹ 1000/- and in multiples of ₹ 1/- thereafter

8. The date of allocation will be the 15th of every month. In case the date of allocation falls on a Non-Business Day or falls during a book closure period, the immediate following Business Day will be considered as the date of allocation.

Note: Under 'One Time Investment' enrolment option, in addition to the 15th of every month, allocation will occur on the business day succeeding the date of enrolment into the MOVI Pack Plan.

Under the 'STP' enrolment option, if the Unitholder has an existing Systematic Investment Plan (SIP) in the Transferor scheme where the date of SIP falls on a date later than or on 15th of every month, then allocation for that amount will occur on 15th of the subsequent month.

9. On the date of allocation, the prescribed percentage of the amount will be transferred in the Transferee Scheme at the closing NAV of the same day i.e. date of allocation.
10. The AMC will require 7 calendar days from the date of submission of valid enrolment forms to register the Investor under this Plan. Therefore, in the intervening period i.e. date of submission of enrolment form and date of registration, if the date of allocation is crossed, then the same will be considered at the next date of allocation.
11. The amount transferred under this Plan from the Transferor Scheme to Transferee Scheme shall be effective by redeeming units of Transferor Scheme at applicable NAV, (subject to the applicable exit load, if any) and subscribing to the units of the Transferee Scheme at applicable NAV on the date of allocation. The units will be subscribed to the growth option in the Transferee Scheme and processed accordingly.
12. Unitholders can discontinue the Plan at any time by providing a written request which shall be made effective within 7 calendar days of the date of receipt of the said request.
13. This Plan will be automatically terminated if all units are liquidated or withdrawn or pledged or upon receipt of intimation of death of the unit holder.
14. Unitholders should note that investor details and mode of holding (single, joint, anyone or survivor) in the Transferee Scheme will be as per the existing folio number of the Transferor Scheme. Units will be allotted under the same folio number.
15. The redemption of units under this Plan by way of transfer/ Reverse transfer would be subject to applicable taxes, if any.
