The units being offered for public subscription have not been approved or disapproved by SEBI, nor has SEBI certified the accuracy or adequacy of this KIM.

This KIM is dated April 28, 2021.

TYPE AND CATEGORY OF SCHEME

Type of the Scheme	An open ended scheme replicating/ tracking NASDAQ-100 Index
Category of Scheme	ETF

INVESTMENT OBJECTIVE

The Scheme seeks investment return that corresponds (before fees and expenses) generally to the performance of the NASDAQ-100 Index, subject to tracking error.

However, there can be no assurance or guarantee that the investment objective of the Scheme would be achieved.

ASSET ALLOCATION

Instruments	Indicative allocations (% of total assets)		Risk Profile
	Minimum	Maximum	High/Medium/Low
Securities constituting NASDAQ-100 Index	95	100	Medium to High
Overseas Debt and Money market instruments and cash at call, mutual fund schemes or exchange traded funds based on NASDAQ-100 Index	0	5	Low to Medium

The above stated percentages are indicative and not absolute.

The Scheme may take an exposure to derivatives of the Underlying Index or constituents of the Underlying Index for short duration when the securities of the Underlying Index are unavailable, insufficient or for rebalancing at the time of change in Underlying Index or in case of corporate actions. The total exposure to derivatives would be restricted to 10% of the net assets of the Scheme. The aggregate asset allocation including exposure to derivatives will not exceed 100% of net assets of the Scheme. The margin paid for derivative instruments will form part of Debt and Money market Instruments. All overseas investments mentioned above would comply with the provisions of SEBI Circular dated September 26, 2007 and such circulars issued from time to time.

The cumulative gross exposure through equity, debt, derivative positions (including commodity and fixed income derivatives), repo transactions and credit default swaps in corporate debt securities, Real Estate Investment Trusts (REITs), Infrastructure Investment Trusts (InvITs), other permitted securities/assets and such other securities/assets as may be permitted by the Board from time to time will not exceed 100% of the net assets of the scheme.

INVESTMENT STRATEGY

The Scheme employs an investment approach designed to track the performance of NASDAQ-100 Index. The Scheme seeks to achieve this goal by investing in securities constituting NASDAQ-100 Index in same proportion as in the index. The Scheme will invest at least 95% of its total assets in the securities comprising the Underlying Index. The Scheme may also invest in overseas debt and money

market instruments to meet the liquidity and expense requirements. The Scheme may also take exposure in derivative instruments in order to minimize the tracking error.

Risk Control

Risk is an inherent part of the investment function. Effective Risk management is critical to fund management for achieving financial soundness. Investment by the Scheme would be made as per the investment objective of the Scheme and in accordance with SEBI Regulations. AMC has adequate safeguards to manage risk in the portfolio construction process. Risk control would involve managing risk in order to keep in line with the investment objective of the Scheme. The risk control process would include identifying the risk and taking proper measures for the same. Further, AMC has implemented Bloomberg Portfolio Order Management System as the Front Office System for managing risk. The system has incorporated all the investment restrictions as per the SEBI guidelines and enables identifying and measuring the risk through various risk management tools like various portfolio analytics, risk ratios, average duration and analyses the same and acts in a preventive manner. The AMC will appoint at least two Authorised Participants who would endeavour to provide liquidity of the units of the Scheme on the exchange at all times.

Portfolio Turnover

Portfolio Turnover is defined as the lower of sales or purchase divided by the average corpus during a specified period of time. Generally, Portfolio Turnover would depend upon the rebalancing of the portfolio due to change in composition of the Index or due to corporate actions of the securities constituting the Index.

Investment by AMC/Sponsor in the Scheme

In accordance with Regulation 28(4) of SEBI (Mutual Funds) (Amendment) Regulations, 2014 the Sponsor or AMC has invested a portion of its assets into the Scheme as seed capital to the extent mandated and such seed capital will not be redeemed or withdrawn by the AMC until the winding up of the Scheme.

In addition to investments as mandated under Regulation 28(4) of the Regulations as mentioned above, the AMC may invest in the Scheme during the continuous offer period subject to the SEBI (MF) Regulations. The AMC shall not charge investment management fees on investment by the AMC in the Scheme.

Securities Lending

Securities Lending is lending of securities through an approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the securities borrowed.

The Scheme may lend securities from its portfolio in accordance with the Regulations and the applicable SEBI guidelines. Securities' lending shall enable the Scheme to earn income that may partially offset its expenses and thereby reduce the effect these expenses have on the Scheme's ability to provide investment returns that correspond generally to the performance of its Index. The Scheme will pay reasonable administrative and custodial fees in connection with the lending of securities. The Scheme will be exposed to the risk of loss should a borrower default on its obligation to return the borrowed securities. The Scheme share of income from the lending collateral will be included in the Scheme's gross income. The Fund will comply with the conditions for securities lending specified by SEBI Regulations and circulars issued from time to time.

The maximum exposure of each Scheme to a single intermediary in the stock lending programme at any point of time would be limited to 50% of the market value of its equity portfolio or upto such limits as may be specified by SEBI. Each Scheme will not lend more than 75% of its corpus.

Tracking Error

Tracking error is defined as the standard deviation of the difference between the daily returns of the Index and the NAV of the Scheme. Theoretically, the corpus of the Scheme has to be fully invested in the securities comprising the Index in the same proportion of weightage as the securities have in the Index. However, it is not possible to invest as per the objective due to reason that the Scheme has to incur expenses, corporate actions pertaining to the securities constituting Index including changes to the constituents, regulatory policies, ability of the Fund Manager to closely replicate the Index, etc. The Scheme's returns may therefore deviate from those of its Index. Tracking Error may arise due to the following reasons: -

1. Fees and expenses of the Scheme.
2. Cash balance held by the Scheme due to dividend received, subscriptions, redemption, etc.
3. Halt in trading on the stock exchange due to circuit filter rules.
4. Corporate actions.
5. The Scheme has to invest in the securities in whole numbers and has to round off the quantity of securities shares.
6. IDCW payout.
7. Changes in the constituents of the underlying Index. Whenever there are any changes, the Scheme has to reallocate its investment as per the revised Index but market conditions may not offer an opportunity to rebalance its portfolio to match the Index and such delay may effect the NAV of the Scheme.

The AMC would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. During the first 12 months of the existence of the Fund, such tracking error is not expected to exceed 2%. Under normal market circumstances, such tracking error is not expected to exceed 2% p.a. However, in case of events like market volatility during rebalancing of the portfolio following the rebalancing of the Underlying Basket or in abnormal market circumstances, the tracking error may exceed the above limits. For the purpose of calculating this tracking error, the Underlying Index will be converted into Indian Rupees using RBI reference rate for the day. The tracking error would be disclosed in the monthly fact sheet of the Scheme.

There can be no assurance or guarantee that the Scheme will achieve any particular level of tracking error relative to performance of the Underlying Index.

RISK PROFILE OF THE SCHEME

Mutual Fund Units involve investment risks including the possible loss of principal. Please read the Scheme Information Document (SID) carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:

1. The volatility in the securities market have adverse impact on individual securities/sector and consequently on the NAV of Scheme.
2. The risk associated with the corresponding Underlying Index is applicable to the Scheme.
3. There is no assurance that an active secondary market will develop or be maintained. Trading in the units of the Scheme may be halted due to market conditions or for reasons that in the view of the Exchange Authorities or SEBI. Units of the Scheme may trade at prices which can be above or below its NAV.
4. Investors should note that even though the Scheme is an open ended Scheme, Subscription/redemptions directly with the Fund is limited to such investors who have the ability to subscribe/redeem the units of the Scheme in specific lot sizes.

5. Tracking error have an impact on the performance of the Scheme which may arise due to various reasons like fees and expenses charged to the Scheme, dividend received, corporate actions, change in the Underlying Index, etc.

Risk associated with investing in Foreign Securities

1. The Scheme will invest in foreign securities. Such overseas investments will be made subject to any / all approvals, conditions thereof as may be stipulated by SEBI / RBI and provided such investments do not result in expenses to the Fund in excess of the ceiling on expenses prescribed by and consistent with costs and expenses attendant to international investing. The Fund may, where necessary, appoint other intermediaries of repute as advisors, custodian/sub-custodians etc. for administering such investments. The appointment of such intermediaries shall be in accordance with the applicable requirements of SEBI and within the permissible ceiling of expenses.
2. As per the SEBI (MF) Regulation, the Fund is permitted to invest USD 600 million. However, the overall limit for the Mutual Fund Industry is USD 7 billion. The Scheme therefore may or may not be able to utilise the limit of USD 600 million due to the USD 7 billion limit being exhausted by other Mutual Funds. Further, the overall ceiling for investment in overseas Exchange Traded Funds (ETFs) that invests in securities is USD 1 billion subject to a maximum of USD 200 million per mutual fund. As and when the investment limits are breached, the subscriptions into the Scheme shall be suspended till further notice by the AMC.
3. Mutual Funds can make investments in overseas Exchange Traded Fund (ETF(s)) subject to a maximum of USD 200 million per Mutual Fund, within the overall industry limit of USD 1 billion.
4. As the Scheme will invest in securities which are denominated in foreign currencies, fluctuations in the exchange rates of these foreign currencies may have an impact on the income and value of the Fund. Thus, returns to investors are the result of a combination of returns from investments and from movements in exchange rates. Thus, the Indian rupee equivalent of the net assets, distribution and income may be adversely affected by changes in the exchange rates of respective foreign currencies relative to the Indian Rupee. Restrictions on currency trading that may be imposed by developing market countries will have an adverse effect on the value of the securities of companies that trade or operate in such countries. The repatriation of capital to India may also be hampered by changes in the regulations concerning exchange controls or political circumstances as well as the application to it of other restriction on investment.
5. The risk of investing in foreign securities carries an exchange rate risks related to depreciation of foreign currency and country risks. The country risks would include events such as change in regulations or political circumstances like introduction of extraordinary exchange rate controls, restrictions on repatriation of capital due to exchange rate controls, bilateral political tensions leading to immobilisation of overseas financial assets and the prevalent tax laws of the respective jurisdiction for the execution of trades or otherwise.
6. The Scheme shall invest in securities listed on the overseas stock exchange. Hence all the risk factors pertaining to overseas stock exchange like market trading risk, liquidity risk and volatility risk, as mentioned earlier, are also applicable to the Scheme. The Scheme will also be exposed to settlement risk, as different countries have different settlement periods.
7. Some countries prohibit or impose substantial restrictions on investments by foreign entities. Certain countries may restrict investment opportunities in issuers or industries or securities deemed important to national interests. The manner, in which foreign investors may invest in companies/securities in certain countries, as well as limitations on such investments, may have an adverse impact on the operations of the Scheme. Certain risk arises from the inability of a country to meet its financial obligations. It is the risk encompassing economic, social and political conditions in a foreign country which might adversely affect the interests of the Scheme.

8. The Scheme may invest in the units of overseas mutual fund schemes including exchange traded funds. Hence scheme specific risk factors of such underlying schemes will be applicable. All risks associated with such schemes, including performance of their underlying stocks, derivative instruments, stock-lending, off-shore investments, liquidity, etc., will therefore be applicable in this Scheme. Investors who intend to invest in the Scheme are required to and deemed to have understood the risk factors of the underlying schemes.

9. Risks associated with Segregated portfolio

The AMC / Trustee shall decide on creation of segregated portfolio of the Scheme in case of a credit event/actual default at issuer level. Accordingly, Investor holding units of segregated portfolio may not be able to liquidate their holding till the time recovery of money from the issuer. The Security comprised of segregated portfolio may not realise any value. Further, Listing of units of segregated portfolio in recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.

• Risks associated with Investing in Derivatives

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of the fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

Derivative products are specialized instruments that require investment techniques and risk analysis different from those associated with stocks. The use of a derivative requires an understanding not only of the underlying instrument but of the derivative itself. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to forecast price or interest rate movements correctly. There is a possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the “counterparty”) to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mispricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices, illiquidity risk whereby the Scheme may not be able to sell or purchase derivative quickly enough at a fair price. The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

• Risks associated with Segregated portfolio

The AMC / Trustee shall decide on creation of segregated portfolio of the Scheme in case of a credit event/actual default at issuer level. Accordingly, Investor holding units of segregated portfolio may not be able to liquidate their holding till the time recovery of money from the issuer. The Security comprised of segregated portfolio may not realise any value. Further, Listing of units of segregated portfolio in recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.

• Risks associated with Stock Lending

Stock Lending is a lending of securities through an SEBI approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the securities borrowed.

In case the Scheme undertakes stock lending as prescribed in the Regulations, it may, at times be exposed to counter party risk and other risks associated with the securities lending. Unitholders of the Scheme should note that there are risks inherent to securities lending, including the risk of failure of the other party, in this case the approved intermediary, to comply with the terms of the agreement entered into between the lender of securities i.e. the Scheme and the approved intermediary. Such failure can result in the possible loss of rights to the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities lent. The Fund may not be able to sell such lent securities and this can lead to temporary illiquidity.

- **Trading through mutual fund trading platforms of BSE and/ or NSE**

In respect of transaction in Units of the Scheme through BSE and/ or NSE, allotment and redemption of Units on any Business Day will depend upon the order processing/settlement by BSE and/ or NSE and their respective clearing corporations on which the Mutual Fund has no control.

- **Risk associated with potential change in Tax structure**

This summary of tax implications given in the taxation section is based on the current provisions of the applicable tax laws. This information is provided for general purpose only. The current taxation laws may change due to change in the 'Income Tax Act 1961' or any subsequent changes/amendments in Finance Act/Rules/Regulations. Any change may entail a higher outgo to the scheme or to the investors by way of securities transaction taxes, fees, taxes etc. thus adversely impacting the scheme and its returns.

Risk Mitigation Measures

The Fund will make the Investment as per the investment objective of the Scheme and in accordance with SEBI Regulations. The Fund will endeavour to reduce the tracking error.

PLANS AND OPTIONS

KIM of Motilal Oswal Nasdaq 100 ETF (MOFN100)

The Scheme offers only Growth Option.

APPLICABLE NAV

The Fund creates/redeems units of the Scheme in creation unit size i.e. 25,000 units, by exchange of underlying securities i.e. Portfolio Deposit and Cash Component. The Fund declares the Portfolio Deposit and Cash Component separately for the Scheme on its website www.mostshares.com daily and the same is applicable for creating and redeeming units for that working day.

As per SEBI circular SEBI/HO/IMD/DF2/CIR/P/2020/175 dated September 17, 2020 read with SEBI circular SEBI/HO/IMD/DF2/CIR/P/2020/253 dated December 31, 2020 with effect from February 01, 2021, in respect of purchase of units of mutual fund schemes (except liquid and overnight schemes), closing NAV of the day shall be applicable on which the funds are available for utilization irrespective of the size and time of receipt of such application subject to cut-off timing provisions.

Considering the above, cut-off timings with respect to Subscriptions/Purchases including switch – ins shall be as follows:

- In respect of valid applications received by 3.00 p.m. on a Business Day and where the funds for the entire amount of subscription / purchase / switch-ins as per the application are credited to the bank account of the Scheme before the cut-off time i.e. available for utilization before the cut-off time- the closing NAV of the day shall be applicable.
- In respect of valid applications received after 3.00 p.m. on a Business Day and where the funds for the entire amount of subscription / purchase as per the application are credited to the bank account of the Scheme before the cut-off time of the next Business Day i.e. available for utilization before the cut-off time of the next Business Day - the closing NAV of the next Business Day shall be applicable.
- In respect of valid applications with an outstation cheques or demand drafts not payable at par at the Official Points of Acceptance where the application is received, the closing NAV of day on which the cheque or demand draft is credited shall be applicable.
- In respect of valid applications, the time of receipt of applications or the funds for the entire amount are available for utilization, whichever is later, will be used to determine the applicability of NAV.

In case of other facilities like Systematic Investment Plan (SIP), Systematic Transfer Plan (STP), etc., the NAV of the day on which the funds are available for utilization by the Target Scheme shall be considered irrespective of the instalment date.

Redemptions including switch – outs:

- In respect of valid applications received upto 3.00 p.m. by the Mutual Fund, closing NAV of the day of receipt of application, shall be applicable.
- In respect of valid applications received after 3.00 p.m. by the Mutual Fund, the closing NAV of the next business day shall be applicable.

The AMC reserves the right to change / modify the aforesaid requirements at a later date in line with SEBI directives from time to time.

LISTING

The units of the Scheme are listed on National Stock Exchange Limited (NSE) and BSE Limited (BSE).

METHODOLOGY AND ILLUSTRATION OF SALE AND REPURCHASE OF UNITS

KIM of Motilal Oswal Nasdaq 100 ETF (MOFN100)

a) Methodology of calculating sale price

The price or NAV, an investor is charged while investing in an open-ended scheme is called sale or subscription price. Pursuant to SEBI Circular dated June 30, 2009, no entry load will be charged by the scheme to the investors. Therefore, Sale or Subscription price = Applicable NAV (for respective plan and option of the scheme)

Pursuant to SEBI Circular No. SEBI/IMD/DF2/OW/P/2020/11099/1 dated June 29, 2020, Gazette notification dated March 30, 2020 for extending the effective date for applicability of new stamp duty rules and as per Notification No. S.O. 4419(E) dated December 10, 2019 issued by Department of Revenue, Ministry of Finance, Government of India, read with Part I of Chapter IV of Notification dated February 21, 2019 issued by Legislative Department, Ministry of Law and Justice, Government of India on the Finance Act, 2019, a stamp duty @ 0.005% of the transaction value would be levied on all mutual fund inflow transactions i.e. purchases (including Switch-ins), SIP / STP installments (including IDCW reinvestment) with effect from July 01, 2020. Accordingly, pursuant to levy of stamp duty, the number of units allotted to the unit holders would be lower to that extent. Kindly refer the example below for better understanding.

Example: An investor invests Rs.10,000/- and the current NAV is Rs. 10/- then the purchase price will be Rs.10/-. After deduction of stamp duty investor will receive 999.95 units

Investment amount	Rs.10,000/-	A
Less: Transaction charges (deducted and paid to distributor, if applicable)	NIL	B
Stamp duty applicable (@0.005%)	0.50	$C = (A - B) * 0.005 / 100.005$
Net Investment amount	9,999.50/-	$D = (A - B - C)$
NAV	Rs.10/-	E
Units allotted	999.95	$F = D / E$

b) Methodology of calculating repurchase price of Units

Repurchase or redemption price is the price or NAV at which an open-ended scheme purchases or redeems its units from the investors. It may include exit load, if applicable. The exit load, if any, shall be charged as a percentage of Net Assets Value (NAV) i.e. applicable load as a percentage of NAV will be deducted from the "Applicable NAV" to calculate the repurchase price. Therefore, Repurchase or Redemption Price = Applicable NAV *(1- Exit Load, if any)

Example: If the Applicable NAV is Rs. 10 and a 2% Exit Load is charged, the Redemption Price per Unit will be calculated as follows: = Rs. 10 * (1-0.02) = Rs. 10 * (0.98) = Rs. 9.80.

MINIMUM APPLICATION AMOUNT / NUMBER OF UNITS

KIM of Motilal Oswal Nasdaq 100 ETF (MOFN100)

On Exchange: 1 unit and in multiples thereof.

Directly with the Mutual Fund:

The minimum amount for purchase/redemption would be in creation unit size of 25,000 units and in multiples thereof.

SUBSCRIPTION / REDEMPTION

On the Exchange:

As the Scheme is listed on the exchanges, the investor can buy units on an ongoing basis on the National Stock Exchange of India Ltd (NSE) and Bombay Stock Exchange Ltd. (BSE) at the traded prices which may be close to the actual NAV of the Scheme. The units are purchased in round lots of 1 unit.

Directly with the Mutual Fund:

The authorized participant/large investor can subscribe the units of the Scheme directly with the Mutual Fund only in creation unit size at the applicable NAV of the Scheme. The number of units of the Scheme that authorized participant/large investor can subscribe is 25,000 units and in multiples thereafter.

DESPATCH PF REPURCHASE (REDEMPTION) REQUEST

Within 10 working days of the receipt of the redemption request at the authorised centre of Motilal Oswal Mutual Fund.

BENCHMARK INDEX

NASDAQ-100 TRI

Note: Total Return variant of the index (TRI) will be used for performance comparison.

DIVIDEND POLICY

The Trustees may declare dividend subject to the availability of distributable surplus calculated in accordance with SEBI (Mutual Fund) Regulations, 1996. The actual declaration of dividend and the frequency of distribution will be entirely at the discretion of the Trustees. The dividend would be paid to the Unitholders whose names appear in the Register of Unitholders as on the record date.

Pursuant to SEBI Circular dated October 05, 2020, Dividend distribution procedure has been modified stating that when units are sold, and sale price (NAV) is higher than face value of the unit, a portion of sale price that represents realized gains is credited to an Equalization Reserve Account and which can be used to pay dividend. Dividend can be distributed out of investor's capital (Equalization Reserve), which is part of sale price that represents realized gains.

There is no assurance or guarantee to the Unitholders as to the rate of dividend nor that the dividend would be paid regularly. If the Fund declares dividend, the NAV will stand reduced by the amount of dividend and dividend distribution tax (if applicable) paid. The Trustee reserves the right to change/modify the aforesaid requirements at a later date in line with SEBI directives from time to time.

NAME AND TENURE OF THE FUND MANAGER

KIM of Motilal Oswal Nasdaq 100 ETF (MOFN100)

Mr. Herin Visaria is managing this scheme from July 26, 2019.

C. Scheme's Portfolio Turnover Ratio

The Portfolio Turnover Ratio of the Scheme as on March 31, 2021 is **0.12**.

D. Illustration of Impact of expense ratio on the returns of the Scheme

Particulars	Amount (Rs.)
Invested amount	10,000
Annualised scheme performance	10%
Net Assets before expenses	11,000
Annualised expense ratio	1%
Net Assets after expenses	10,890
Returns on invested amount before expenses	1,000
Returns on invested amount after expenses	890
Returns on invested amount before expenses (%)	10.00%
Returns on invested amount after expenses (%)	8.90%

Please Note:

- The purpose of the above illustration is purely to explain the impact of expense ratio charged to the Scheme and should not be construed as providing any kind of investment advice or guarantee of returns on investments.
- It is assumed that the expenses charged are evenly distributed throughout the year. The expenses of the Direct Plan under the Scheme may vary with that of the Regular Plan under the Scheme.
- Calculations are based on assumed NAVs, and actual returns on your investment may be more, or less.
- Any tax impact has not been considered in the above example, in view of the individual nature of the tax implications. Each investor is advised to consult his or her own financial advisor.

E. Investment Disclosure

The aggregate investment in the Scheme by the following as on March 31, 2021 is as follows:

Categories	Amount (Rs.)
Directors of AMC	NIL
Fund Manager(s) of the Scheme	NIL
Key Managerial Personnel	208,652.78
Sponsor, Group and Associates	16,862,781.16

EXPENSES OF THE SCHEME

(i) Load Structure

Type of Load	Load Chargeable (as % of NAV)
Entry Load	Nil
Exit Load	Nil

Exit Load for Redemption in cash

In case of redemption of units of the Scheme for less than Creation Unit Size, directly with the Fund, where there have been no quotes on the exchange for 3 trading days consecutively, an investor can sell its units of the Scheme to the Fund with an exit load of 1% of NAV of the Scheme.

(ii) Recurring Expenses

These are the fees and expenses for operating the Scheme. These expenses include but are not limited to Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer agents' fees & expenses, marketing and selling costs etc.

The AMC has estimated that the following expenses will be charged to the Scheme, as permitted under Regulation 52 of SEBI (MF) Regulations. For the actual current expenses being charged, the investor should refer to the website of the Fund. For more details, please refer the notes below the table.

Particulars	(% per annum to daily Net Assets)
Investment Management & Advisory Fee	Upto 1.00%
Custodial Fees	
Registrar & Transfer Agent Fees including cost related to providing accounts statement, dividend/redemption cheques/warrants etc.	
License fees / listing fees and other such expenses	
Audit Fees / Fees and expenses of trustees	
Cost towards investor education & awareness (at least 2 bps)	
Brokerage & transaction cost over and above 12 bps and 5 bps for cash and derivative market trades respectively	
Audit Fees / Fees and expenses of trustees	
Marketing & Selling Expenses	
Other expenses*	
Maximum total expense ratio (TER) permissible under Regulation 52 (6)	Upto 1.00%
Additional expenses for gross new inflows from specified cities under Regulation 52 (6A)(b)#	Upto 0.30%

*Any other expenses which are directly attributable to the Scheme, may be charged with approval of the Trustee within the overall limits as specified in the Regulations except those expenses which are specifically prohibited.

#Additional TER will be charged based on inflows only from retail investors (other than Corporates and Institutions) from B 30 cities.

\$ As per SEBI Circular dated March 25, 2019, it has been decided that inflows of amount upto Rs. 2,00,000/- per transaction, by the individual investors shall be considered as inflows from retail investors.

All scheme related expenses including commission paid to distributors, by whatever name it may be called and in whatever manner it may be paid, shall necessarily be paid from the scheme only within the regulatory limits and not from the books of the Asset Management Companies (AMC), its associate, sponsor, trustee or any other entity through any route. Provided that the expenses that are very small in value but high in volume may be paid out of AMC's books. Such expenses can be paid out of AMC's books at actuals or not exceeding 2 bps of respective scheme AUM, whichever is lower

The expenses towards Investment Management and Advisory Fees under Regulation 52 (2) and the various sub-heads of recurring expenses mentioned under Regulation 52 (4) of SEBI (MF) Regulations are fungible in nature. Thus, there shall be no internal sub-limits within the expense ratio for expense heads mentioned under Regulation 52 (2) and (4) respectively. Further, the additional expenses under Regulation 52(6A)(c) shall also be incurred towards any of these expense heads.

In addition to expenses under Regulation 52(6) and (6A), AMC may charge GST on investment and advisory fees, expenses other than investment and advisory fees and brokerage and transaction cost as below:

1. GST on investment and advisory fees charged to the scheme will be in addition to the maximum limit of TER as prescribed in regulation 52 (6) of the SEBI Regulations.
2. GST on expenses other than investment and advisory fees, if any, shall be borne by the scheme within the maximum limit of TER as per regulation 52 of the SEBI Regulations.
3. GST on brokerage and transaction cost paid for execution of trade, if any, shall be within the limit prescribed under regulation 52 of the SEBI Regulations.

In accordance with Regulation 52(6A), the following expenses can be charged in addition to the existing total recurring expenses charged under Regulation 52(6):

Brokerage and transaction costs which are incurred for the purpose of execution of trade and is included in the cost of investment, not exceeding 0.12 % in case of cash market transactions and 0.05 % in case of derivatives transactions;

Any payment towards brokerage and transaction costs, over and above the said 12 bps and 5 bps for cash market and derivatives transactions respectively, shall be charged to the Scheme within the total recurring expenses limit specified under Regulation 52 of SEBI Regulations. Any expenditure in excess of the said limit will be borne by the AMC/Trustees/Sponsors.

In addition to the limits as specified in Regulation 52(6) of SEBI (Mutual Funds) Regulations 1996 or the Total Recurring Expenses (Total Expense Limit) as specified above, the following costs or expenses may be charged to the scheme:

Additional TER can be charged up to 30 basis points on daily net assets of the scheme as per regulation 52 of SEBI (Mutual Funds) Regulations, 1996 (hereinafter referred to as Regulations), if the new inflows from beyond top 30 cities are at least (a) 30% of gross new inflows in the scheme or (b) 15% of the average assets under management (year to date) of the scheme, whichever is higher. Provided that expenses charged under this clause shall be utilised for distribution expenses incurred for bringing inflows from such cities

In case inflows from beyond top 30 cities is less than the higher of (a) or (b) above, additional TER on daily net assets of the scheme shall be charged as follows:

$$\frac{\text{Daily net assets} \times 30 \text{ basis points} \times \text{New inflows from beyond top 30 cities}}{365 \times \text{Higher of (a) or (b) above}}$$

* 366, wherever applicable.

The top 30 cities shall mean top 30 cities based on Association of Mutual Funds in India (AMFI) data on 'AUM by Geography – Consolidated Data for Mutual Fund Industry' as at the end of the previous financial year.

The additional TER on account of inflows from beyond top 30 cities so charged shall be clawed back in case the same is redeemed within a period of 1 year from the date of investment.

Mutual funds/AMCs shall make complete disclosures in the half yearly report of Trustees to SEBI regarding the efforts undertaken by them to increase geographical penetration of mutual funds and the details of opening of new branches, especially at locations beyond top 30 cities. .

KIM of Motilal Oswal Nasdaq 100 ETF (MOFN100)

The Mutual Fund would update the current expense ratios on the website (www.motilaloswalmf.com) atleast three working days prior to the effective date of the change. Investors can refer to “Total Expense Ratio” section on <https://www.motilaloswalmf.com/downloads/mutual-fund/totalexpensratio> for Total Expense Ratio (TER) details.

The AMC shall charge the investment management and advisory fees and the total recurring expenses of the Scheme in accordance with the limits prescribed from time to time under the SEBI Regulations.

The actual expenses for the year 2019-2020 is 0.59%
