TYPE AND CATEGORY OF SCHEME

Name of the Scheme	Motilal Oswal Nifty Smallcap 250 ETF
Scheme Code	MOTO/O/O/EET/24/02/0047
Type of the Scheme	An open-ended scheme replicating/tracking the Nifty Smallcap 250 TR Index
Category of Scheme	Exchange Traded Fund

INVESTMENT OBJECTIVE

The investment objective of the scheme is to provide returns that, before expenses, closely correspond to the total returns of the securities as represented Nifty Smallcap 250 Index, subject to tracking error.

However, there is no guarantee or assurance that the investment objective of the scheme will be achieved.

ASSET ALLOCATION

Under normal circumstances, the asset allocation pattern of the Scheme is as follows:

Instruments	Indicative allocations (% of total assets)		Risk Profile
	Minimum	Maximum	High/Medium/Low
Constituents of Nifty Smallcap 250 Index	95%	100%	Very High
Units of Liquid Schemes and Money Market Instruments	0%	5%	Low

The scheme will not make any investment in Securitised Debt

The Scheme shall not invest in repo in corporate debt and corporate reverse repo.

The Scheme shall not engage in short selling

The Scheme shall not invest in unrated debt instrument.

The Scheme shall not invest in foreign securities.

The Scheme shall not invest in Credit Default Swaps (CDS).

The Scheme shall not invest in REITs and InvITs.

The Scheme will not invest in debt instruments having Structured Obligations / Credit Enhancements.

The scheme will not invest in securities covered under Clause 9.4 and 12.2 of SEBI Master Circular No. SEBI /HO/IMD/ IMD-PoD-1 / P/ CIR / 2023/74 dated May 19, 2023.

Money Market Instruments includes Commercial papers, Commercial bills, Treasury bills, TREPS, Government securities having an unexpired maturity up to one year, call or notice money, certificate of deposit, Bills Rediscounting, usance bills, and any other like instruments as specified by the Reserve Bank of India(RBI)/ Securities and Exchange Board of India (SEBI) from time to time.

Subject to clause 12.11 of SEBI Master Circular No. SEBI /HO/IMD/ IMD-PoD-1 / P/ CIR / 2023/74 dated May 19, 2023, as may be amended from time to time, the Scheme intends to engage in Stock Lending.

The Scheme shall adhere to the following limits should it engage in Stock Lending.

- Not more than 20% of the net assets of the Scheme can be deployed in Stock Lending.
- Not more than 5% of the net assets of the Scheme can be deployed in Stock Lending to any single approved intermediary (as may be applicable).

The cumulative gross exposure through equity, derivative positions, other permitted securities/assets and such other securities/assets as may be permitted by the Board from time to time will not exceed 100% of the net assets of the scheme, subject to approval if any.

The Scheme, will hold all the securities that comprise of underline Index in the same proportion as the index subject to tracking error. Expectation is that, over a period of time, the tracking error of the Scheme relative to the performance of the Underlying Index will be relatively low.

The Investment Manager would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. There can be no assurance or guarantee that the Scheme will achieve any particular level of tracking error relative to performance of the Underlying Index.

The Scheme may take exposure to equity derivatives of the index itself or its constituent stocks may be undertaken when equity shares are unavailable, insufficient or for rebalancing in case of corporate actions for a temporary period. Other than for above purposes, the Scheme will not invest in Equity Derivatives. These investments would be for a short period of time and the portfolio shall be rebalanced within 7 days.

Exposure towards Equity Derivatives instruments shall not exceed 10% of the net assets under the equity portfolio. If the exposure falls outside the above mentioned asset allocation pattern, the portfolio to be rebalanced by AMC within 7 days from the date of said deviation.

Pending deployment of funds as per investment objective may be parked in short term deposits of scheduled commercial banks, subject to guidelines and limits and timelines specified by SEBI.

Cash and cash equivalents as per SEBI letter no. SEBI/HO/IMD-II/DOF3/ OW/P/ 2021/ 31487 / 1 dated November 03, 2021 which includes T-bills, Government Securities and Repo on Government Securities having residual maturity of less than 91 Days, shall not be considered for the purpose of calculating gross exposure limit.

Rebalancing due to Active Breaches:

Subject to the Regulations, the asset allocation pattern indicated above for the Scheme may change from time to time, keeping in view applicable regulations and political and economic factors. In the event that the asset allocation of the Scheme should deviate from the ranges as noted in the asset allocation table above, then the portfolio of the Scheme will be rebalanced by the Fund Manager to the position indicated in the asset allocation table above. Such changes in the asset allocation will be for short term and defensive considerations. In case of deviation, if any, from the asset allocation pattern, the AMC shall rebalance the portfolio within a period of 7 calendar days.

Portfolio Rebalancing due to Passive Breach

In case of change in constituents of the index due to periodic review, the portfolio of ETF shall be rebalanced within 7 calendar days. Any transactions undertaken in the scheme portfolio of ETF in order to meet the redemption and subscription obligations shall be done while ensuring that post such transactions replication of the portfolio with the index is maintained at all points of time.

Additionally, in the event of involuntary corporate action, the scheme shall dispose the security not forming part of the underlying index within 7 days from the date of allotment/ listing.

INVESTMENT STRATEGY

The Scheme follows a passive investment strategy and seek to invest in the constituent of benchmark Index. The scheme aims to achieve returns equivalent to the benchmark subject to tracking error.

The investment strategy would involve offering investment returns that are similar to the total returns of Nifty Smallcap 250_TR Index before fees / expense and subject to tracking error.

The scheme aims to invest in the constituent of Nifty Smallcap 250 Index, in the range of 95% to 100%. The scheme would also invest in units of Liquid Schemes and money market instruments, in the range of 0% to 5%.

The scheme would also invest in units of Liquid/ debt schemes, debt and money market instruments as stated in the asset allocation table.

Risk Control

Risk is an inherent part of the investment function. Effective Risk management is critical to fund management for achieving financial soundness. Investment by the Scheme would be made as per the investment objective of the Scheme and in accordance with SEBI Regulations. AMC has adequate safeguards to manage risk in the portfolio construction process. Risk control would involve managing risk in order to keep in line with the investment objective of the Scheme. The risk control process would include identifying the risk and taking proper measures for the same. Further, AMC has implemented Bloomberg Portfolio Order Management System as the Front Office System for managing risk. The system has incorporated all the investment restrictions as per the SEBI guidelines and enables identifying and measuring the risk through various risk management tools like various portfolio analytics, risk ratios, average duration and analyses the same and acts in a preventive manner.

Portfolio Turnover

Portfolio Turnover is defined as the lower of sales or purchase divided by the average corpus during a specified period of time. Generally, Portfolio Turnover would depend upon the rebalancing of the portfolio due to change in composition of the Index or due to corporate actions of the securities constituting the Index.

Investment by AMC/Sponsor in the Scheme

The AMC may invest in the Scheme during the New Fund Offer (NFO) or continuous offer period subject to the SEBI (MF) Regulations. However, AMC shall not charge any fees on such investments.

Investment of Subscription Money

The Mutual Fund may deploy NFO proceeds in TREPS before closure of NFO period. However, AMCs shall not charge any investment management and advisory fees on funds deployed in TREPS during the NFO period. The appreciation received from investment in TREPS shall be passed on to investors. Further, in case the minimum subscription amount is not garnered by the Scheme during the NFO period, the interest earned upon investment of NFO proceeds in TREPS shall be returned to investors, in proportion of their investments, along-with the refund of the subscription amount.

Tracking Error

Tracking error is defined as the annualized standard deviation of the difference between the daily returns of the Underlying Index and the NAV of the Scheme based on past one year rolling data shall not exceed 2%. Theoretically, the corpus of the Scheme has to be fully invested in the securities comprising the Underlying Index in the same proportion of weightage as the securities have in the Underlying Index. However, it is not possible to invest as per the objective due to reason that the Scheme has to incur expenses, corporate actions pertaining to the Basket including changes to the

constituents, regulatory policies, ability of the Fund Manager to closely replicate the Underlying Index, etc. The Scheme's returns may therefore deviate from those of its Underlying Basket. Tracking Error may arise due to the following reasons: -

1. Fees and expenses of the Scheme.
2. Cash balance held by the Scheme due to dividend accumulated but not received, subscriptions, redemption, etc.
3. Corporate actions
4. The Scheme has to invest in the securities in whole numbers and has to round off the quantity of securities shares.
5. Changes in the constituents of the underlying Basket. Whenever there are any changes, the Scheme has to reallocate its investment as per the revised Basket but market conditions may not offer an opportunity to rebalance its portfolio to match the Basket and such delay may affect the NAV of the Scheme.
6. Lack of Liquidity

The AMC would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. Under normal market circumstances, such tracking error shall not exceed by 2%.

In case of unavoidable circumstances in the nature of force majeure, which are beyond the control of the AMC, the tracking error may exceed 2% and the same will be intimated to the Trustees with corrective actions taken by the AMC, if any.

Tracking Difference:

Tracking difference i.e. the annualized difference of daily returns between the index or goods and the NAV of the ETF will be disclosed on the website of the AMC and AMFI, on a monthly basis, for tenures 1 year, 3 years, 5 years, 10 years and since the date of allotment of units.

RISK PROFILE OF THE SCHEME

Standard Risk Factors:

- Investment in Mutual Fund units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- As the price / value / interest rate of the securities in which the Scheme invests fluctuates, the value of your investment in the Scheme may go up or down depending on various factors and forces affecting the capital market.
- Past performance of the Sponsor/AMC/Mutual Fund does not guarantee future performance of the Scheme.
- The name of the Scheme does not in any manner indicate either the quality of the Scheme or its future prospects and returns.
- The sponsor is not responsible or liable for any loss resulting from the operation of the Scheme beyond the initial contribution of Rs. 100,000 made by it towards setting up the Fund.
- The present Scheme is not a guaranteed or assured return Scheme.
- The NAV of the Scheme may be affected by change in the general market conditions, factors and forces affecting capital markets in particular, level of interest rates, various market related factors and trading volumes.
- Changes in Government policy in general and changes in tax benefits applicable to mutual funds may impact the returns to Investors in the Scheme.
- Investors in the Scheme are not being offered any guaranteed/indicated returns

Scheme Specific Risk Factors

- **Risks associated with investing in Smallcap stocks:**

The scheme would predominantly invest in Equity and Equity related instruments pertaining to Small cap companies in line with the Investment objective of the scheme. While investing in Small cap stocks give one an opportunity to go beyond the usual large blue chip stocks and present possible higher capital appreciation, it is important to note that Small caps can be riskier and more volatile on a relative basis. Therefore, the risk levels of investing in Small cap stocks are more than investing in stocks of large well-established companies. And it is important to note that generally, no one class consistently outperforms the others. Small cap stocks carry higher liquidity risk as they are less extensively researched compared to large cap stocks. This may lead to abnormal illiquidity and consequent higher impact cost.

- **Market Risk**

The Scheme's NAV will react to stock market movements. The Investor may lose money over short or long period due to fluctuation in Scheme's NAV in response to factors such as performance of companies whose stock comprises the underlying portfolio, economic and political developments, changes in interest rates, inflation and other monetary factors and movement in prices of underlining investments.

- **Market Trading Risks**

- a. **Absence of Prior Active Market:** Although the scheme will be listed on stock exchange, there can be no assurance that an active secondary market will develop or be maintained.
- b. **Lack of Market Liquidity:** Trading in the units of the scheme on stock exchange may be halted because of market conditions or for reasons that in view of stock exchange or SEBI, trading in the units of the scheme are not advisable. In addition, trading of the units of the scheme are subject to trading halts caused by extraordinary market volatility and pursuant to stock exchange and SEBI 'circuit filter' rules. There can be no assurance that the requirements of stock exchange necessary to maintain the listing of the units of the scheme will continue to be met or will remain unchanged.
- c. **Units of the scheme may trade at prices other than NAV:** The units of the scheme may trade above or below their NAV. The NAV of the scheme will fluctuate with changes in the market value of scheme holdings. The trading prices of the units of the scheme will fluctuate in accordance with changes in their NAV as well as market supply and demand for the units of the scheme. However, given that units of the scheme can be created and redeemed in creation units directly with the fund, it is expected that large discounts or premiums to the NAV of units of the scheme will not sustain due to arbitrage opportunity available.
- d. **Regulatory Risk:** Any changes in trading regulations by stock exchange or SEBI may affect the ability of market maker to arbitrage resulting into wider premium/discount to NAV.
- e. **Right to Limit Redemptions:** The Trustee, in the general interest of the unit holders of the scheme and keeping in view of the unforeseen circumstances/unusual market conditions, may limit the total number of units which can be redeemed on any business day depending on the total "Saleable Underlying Stock" available with the fund.
- f. **Redemption Risk:** Investors may note that even though the Scheme is open-ended Scheme, the Scheme would ordinarily repurchase units in creation unit size. Thus unit holdings less than the creation unit size can only be sold through the secondary market on the exchange.

- g. **Asset Class Risk:** The returns from the types of securities in which the scheme invest may underperform returns of general securities markets or different asset classes. Different types of securities tend to go through cycles of out-performance and under-performance in comparison of securities markets.
- h. **Passive Investments:** As the scheme proposes to invest not less than 95% of the net assets in the securities of the benchmark Index, the Scheme will not be actively managed. The Scheme may be affected by a general decline in the Indian markets relating to its Underlying Index. The Scheme invests in the securities included in its underlying index regardless of their investment merit.
- i. The units will be issued only in demat form through depositories. The records of the depository are final with respect to the number of units available to the credit of unit holder. Settlement of trades, repurchase of units by the mutual fund depends up on the confirmations to be received from depository (ies) on which the mutual fund has no control.
- j. **Tracking Error Risk:** The Fund Manager would not be able to invest the entire corpus exactly in the same proportion as in the underlying index due to certain factors such as the fees and expenses of the respective scheme, corporate actions, cash balance, changes to the underlying index and regulatory policies which may affect AMC's ability to achieve close correlation with the underlying index of the scheme. The scheme's returns may therefore deviate from those of its underlying index. "Tracking Error" is defined as the standard deviation of the difference between daily returns of the underlying index and the NAV of the respective scheme. Tracking Error may arise due to the following reasons: -
- Expenditure incurred by the fund.
 - The holding of a cash position and accrued income prior to distribution of income and payment of accrued expenses. The fund may not be invested at all times as it may keep a portion of the funds in cash to meet redemptions or for corporate actions.
 - Corporate actions such as debenture or warrant conversion, rights, merger, change in constituents etc.
 - Rounding off of quantity of shares in underlying index.
 - Disinvestments to meet redemptions, recurring expenses, dividend payouts etc.
 - Execution of large buy / sell orders
 - Transaction cost (including taxes and insurance premium) and recurring expenses
 - Realisation of Unit holders' funds
 - Index provider undertakes a periodical review of the scripts that comprise the underlying index and may either drop or include new securities. In such an event, the fund will try to reallocate its portfolio but the available investment/reinvestment opportunity may not permit absolute mirroring immediately.

It will be the endeavour of the fund manager to keep the tracking error as low as possible. Under normal circumstances, such tracking error is not expected to exceed 2% per annum. However, in case of certain corporate actions and market volatility during rebalancing of the portfolio following the rebalancing of the underlying index, etc. or in abnormal market circumstances, the tracking error may exceed the above limits. There can be no assurance or guarantee that the Scheme will achieve any particular level of tracking error relative to performance of the Index.

- **Concentration Risk:**

The scheme may have no diversification within its portfolio. This could have implications on the performance of the scheme. The scheme may be more sensitive to economic, business, political or other changes and this may lead to sizeable fluctuation in the Net Asset Value of the scheme.

Motilal Oswal Nifty Small cap 250 ETF will restricts its investments only in the Security of the underlying index (Nifty Small cap 250 TR Index) which replicates a single security and will therefore be subject to the risks associated with such concentration.

- **Right to Limit Redemptions**

The Trustee, in the general interest of the unit holders of the Scheme offered under this SID and keeping in view of the unforeseen circumstances/unusual market conditions, may limit the total number of Units which can be redeemed on any Business Day subject to the guidelines/circulars issued by the Regulatory Authorities from time to time.

- **Asset Class Risk**

The returns from the types of securities in which the Scheme invests may under perform from the various general securities markets or different asset classes. Different types of securities tend to go through cycles of out-performance and under-performance in comparison with the general securities markets.

- **Trading through mutual fund trading platforms of BSE and/ or NSE**

In respect of transaction in Units of the Scheme through BSE and/ or NSE, allotment and redemption of Units on any Business Day will depend upon the order processing/settlement by BSE and/ or NSE and their respective clearing corporations on which the Mutual Fund has no control.

- **Risks associated with Segregated portfolio:**

The AMC / Trustee shall decide on creation of segregated portfolio of the Scheme in case of a credit event/actual default at issuer level. Accordingly, Investor holding units of segregated portfolio may not able to liquidate their holding till the time recovery of money from the issuer. The Security comprised of segregated portfolio may not realise any value. Further, listing of units of segregated portfolio in recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.

- **Risk associated with ETF**

1. **Passive Investments:**

As the scheme proposes to invest not less than 95% of the net assets in the securities of the benchmark Index, the Scheme will not be actively managed. The Scheme may be affected by a general decline in the Indian markets relating to its Underlying Index. The Scheme invests in the securities included in its underlying index regardless of their investment merit. The AMC does not attempt to individually select stocks or to take defensive positions in declining markets. The value of the Scheme's investments, may be affected generally by factors affecting equity markets, such as price and volume volatility in the capital markets, interest rates, currency exchange rates, changes in policies of the Government, taxation laws or any other appropriate authority policies and other political and economic developments which may have an adverse bearing on individual securities, a specific sector or all sectors. Consequently, the NAV of the Units of the Scheme may fluctuate and can go up or down

2. **Market risk:**

ETFs are typically designed to track the performance of certain indices, market sectors, or groups of assets such as stocks, bonds, or commodities. ETF managers may use different strategies to achieve this goal, but in general they do not have the discretion to take defensive positions in declining markets. Investors must be prepared to bear the risk of loss and volatility associated with the underlying index/assets.

3. Tracking errors:
Tracking errors refer to the disparity in performance between an ETF and its underlying index/assets. Tracking errors can arise due to factors such as the impact of transaction fees and expenses incurred to the ETF, changes in composition of the underlying index/assets, and the ETF manager's replication strategy.
4. Trading at discount or premium:
An ETF may be traded at a discount or premium to its Net Asset Value (NAV). This price discrepancy is caused by supply and demand factors, and may be particularly likely to emerge during periods of high market volatility and uncertainty.
5. Liquidity risk:
Authorized participants (APs) are Exchange Participants that provide liquidity to facilitate trading in ETFs. Although most ETFs are supported by one or more APs, there is no assurance that active trading will be maintained.
6. As the units of the Scheme are listed on the Stock Exchange, trading in the units of the Scheme may be halted due to market conditions or for reasons that in the view of the Exchange Authorities or SEBI. There could also be trading halts caused by extraordinary market volatility and pursuant to NSE/BSE and SEBI circuit filter rules and the Scheme would not be able to buy/sell securities in case of subscriptions/redemptions, which may impact the Scheme. Further, there can be no assurance that the requirements of the exchange necessary to maintain the listing of the Scheme will continue to be met or will remain unchanged.
7. Listing and trading of the units are undertaken on the Stock Exchanges within the rules, regulation and policy of the Stock Exchange and SEBI. Any change in trading rules, regulation and policy by the regulatory authority would have a bearing on the trading of the units of the Scheme and its prices.
8. Though the Scheme is listed on the NSE and BSE, there is no assurance that an active secondary market will develop or be maintained. Hence, there would be times when trading in the units of the Scheme would be infrequent.
9. The NAV of the Scheme reflect the valuation of its investment and any changes in market value of its investments would have a bearing on its NAV. When the units are traded on the Stock Exchange, the units of the Scheme may trade at prices which can be different from the NAV due to various factors like demand and supply for the units of the Scheme, perceived trends in the market outlook, etc.
10. In certain cases, settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities as in certain cases, settlement periods may be extended significantly by unforeseen circumstances. Similarly, the inability to sell securities held in the Scheme portfolio may result, at times, in potential losses to the Scheme, and there can be a subsequent decline in the value of the securities held in the Scheme portfolio.
11. Investors can directly approach the AMC for redemption of units of ETFs, for transaction of up to INR 25 Cr. without any exit load, in case of the following scenarios:
 - i. Traded price (closing price) of the ETF units is at discount of more than 1% to the day end NAV for 7 continuous trading days, or
 - ii. No quotes for such ETFs are available on stock exchange(s) for 3 consecutive trading days, or

iii. Total bid size on the exchange is less than half of creation units size daily, averaged over a period of 7 consecutive trading days.

12. Tracking error may arise due to various reasons like fees and expenses charged to the Scheme, dividend, corporate actions, change in the Underlying Index, etc. Tracking error has an impact on the performance of the Scheme. The Scheme's returns may therefore deviate from those of its Underlying Basket. However, the Fund would endeavor to keep the tracking error as low as possible.

Risk associated with investing in fixed income securities and Money Market Instruments

- a. **Credit risk:** Credit risk or default risk refers to the risk which may arise due to default on the part of the issuer of the fixed income security (i.e. will be unable to make timely principal and interest payments on the security). Because of this risk debenture are sold at a yield spread above those offered on Treasury securities, which are sovereign obligations and generally considered to be free of credit risk. Normally, the value of a fixed income security will fluctuate depending upon the actual changes in the perceived level of credit risk as well as the actual event of default.
- b. **Counterparty risk:** Counterparty refers to the counterparty's inability to honor its commitments (payment, delivery, repayment, etc.) and to risk of default. This risk relates to the quality of the counterparty to which the scheme has exposures. Losses can occur in particular for the settlement/delivery of financial instruments.
- c. **Interest Rate risk:** This risk is associated with movements in interest rate depends on various factors such as government borrowing, inflation, economic performance etc. The value of investments will appreciate/depreciate if the interest rates fall/rise. However, if the investments are held on till maturity of the investments, the value of the investments will not be subjected to this risk.
- d. **Reinvestment risk:** This risk arises from uncertainty in the rate at which cash flows from the securities may be reinvested. This is because the bond will pay coupons, which will have to be reinvested. The rate at which the coupons will be reinvested will depend upon prevailing market rates at the time the coupons are received.
- e. **Liquidity or Marketability Risk:** This refers to the ease at which a security can be sold at or near its true value. The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is characteristic of the Indian fixed income market.
- f. Different types of fixed income securities in which the Scheme would invest carry different levels and types of risk. Accordingly, the Scheme risk may increase or decrease depending upon its investment pattern. e.g. corporate bonds carry a higher level of risk than Government securities. Further even among corporate bonds, bonds, which are AAA rated, are comparatively less risky than bonds, which are AA rated.
- g. The Net Asset Value (NAV) of the Scheme, to the extent invested in Debt and Money Market securities, will be affected by changes in the general level of interest rates. The NAV of the Scheme is expected to increase from a fall in interest rates while it would be adversely affected by an increase in the level of interest rates.

- **Risk associated with Investment in Units of mutual fund**

Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal. As the price / value /

interest rate of the securities in which the Scheme(s) invests fluctuates, the value of your investment in the Scheme(s) may go up or down depending on the various factors and forces affecting the capital markets and money markets.

- **Risks associated with investing in Equities**

a. Investments in the equity shares of the Companies constituting the Underlying Index are subject to price fluctuation on daily basis. The volatility in the value of equity is due to various micro and macro-economic factors like economic and political developments, changes in interest rates, etc. affecting the securities markets. This may have adverse impact on individual securities/sector and consequently on the NAV of Scheme.

b. The Scheme would invest in the securities comprising the Underlying Index in the same proportion as the securities have in the Index. Hence, the risk associated with the corresponding Underlying Index would be applicable to the Scheme. The Underlying Index has its own criteria and policy for inclusion/exclusion of securities from the Index, its maintenance thereof and effecting corporate actions. The Fund would invest in the securities of the Index regardless of investment merit, research, without taking a view of the market and without adopting any defensive measures. The Fund would not select securities in which it wants to invest but is guided by the Underlying Index. As such the Scheme is not actively managed but is passively managed.

c. Risks of Total Return

Dividends are assumed to be reinvested into the Nifty Small cap 250 TR Index after the ex-Dividend date of the constituents. However, in practice, the Dividend is received with a lag and after deducting applicable withholding tax, if applicable. This can lead to some tracking error.

- **Market Risk**

The Scheme's NAV will react to stock market movements. The value of investments in the scheme may go down over a short or long period due to fluctuations in Scheme's NAV in response to factors such as performance of companies whose stock comprises the underlying portfolio, economic and political developments, changes in government policies, changes in interest rates, inflation and other monetary factors causing movement in prices of underlining investments.

- **Concentration risk**

This is the risk arising from over exposure to few securities/issuers/sectors.

- **Passive Investments**

The Scheme is not actively managed. Since the Scheme is replicating the underlying index, it may be affected by a general decline in the respective markets relating to its underlying index. The Scheme as per its investment objective invests in Securities which are constituents of its underlying index regardless of their investment merit. The AMC does not attempt to individually select stocks or to take defensive positions in declining markets.

- **Right to Limit Redemptions**

The Trustee, in the general interest of the unit holders of the Scheme offered under this SID and keeping in view of the unforeseen circumstances/unusual market conditions, may limit the total number of Units which can be redeemed on any Business Day subject to the guidelines/circulars issued by the Regulatory Authorities from time to time.

- **ETF Fund**

The Scheme being an ETF fund follows a passive investment technique and shall only invest in Securities comprising one selected index as per investment objective of the Scheme. The Fund Manager would invest in the Securities comprising the underlying index irrespective of the

market conditions. If the Securities market declines, the value of the investment held by the Scheme shall decrease.

- **Risks associated with Investing in Derivatives**

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of the fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

Derivative products are specialized instruments that require investment techniques and risk analysis different from those associated with stocks. The use of a derivative requires an understanding not only of the underlying instrument but of the derivative itself. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to forecast price or interest rate movements correctly. There is a possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the “counterparty”) to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mispricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices, illiquidity risk whereby the Scheme may not be able to sell or purchase derivative quickly enough at a fair price. The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

- **Risks associated with investing in TREPS Segments**

The mutual fund is a member of securities and TREPS segments of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in TREPS segments are settled centrally through the infrastructure and settlement systems provided by CCIL; thus reducing the settlement and counterparty risks considerably for transactions in the said segments. The members are required to contribute an amount as communicated by CCIL from time to time to the default fund maintained by CCIL as a part of the default waterfall (a loss mitigating measure of CCIL in case of default by any member in settling transactions routed through CCIL). The mutual fund is exposed to the extent of its contribution to the default fund of CCIL at any given point in time. In the event that the default waterfall is triggered and the contribution of the mutual fund is called upon to absorb settlement/default losses of another member by CCIL, the scheme may lose an amount equivalent to its contribution to the default fund allocated to the scheme on a pro-rata basis.

- **Risk Factors relating to Portfolio Rebalancing**

In the event that the asset allocation of the Scheme deviates from the ranges as provided in the asset allocation table in this SID, then the Fund Manager will rebalance the portfolio of the Scheme to the position indicated in the asset allocation table.

- **Risks associated with Securities Lending**

Securities Lending is a lending of securities through an approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the securities borrowed.

In case the Scheme undertakes stock lending as prescribed in the Regulations, it may, at times be exposed to counter party risk and other risks associated with the securities lending. Unitholders

of the Scheme should note that there are risks inherent to securities lending, including the risk of failure of the other party, in this case the approved intermediary, to comply with the terms of the agreement entered into between the lender of securities i.e. the Scheme and the approved intermediary. Such failure can result in the possible loss of rights to the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities lent. The Fund may not be able to sell such lent securities and this can lead to temporary illiquidity.

- **Tracking Error Risk and Tracking Difference Risk**

The Fund Manager would not be able to invest the entire corpus exactly in the same proportion as in the underlying index due to certain factors such as the fees and expenses of the Scheme, corporate actions, cash balance and changes to the underlying index and regulatory restrictions, lack of liquidity which may result in Tracking Error. Hence it may affect AMC's ability to achieve close correlation with the underlying index of the Scheme. The Scheme's returns may therefore deviate from its underlying index. "Tracking Error" is defined as the standard deviation of the difference between daily returns of the underlying index and the NAV of the Scheme. The Fund Manager would monitor the Tracking Error of the Scheme on an ongoing basis and would seek to minimize the Tracking Error to the maximum extent possible. There can be no assurance or guarantee that the Scheme will achieve any particular level of Tracking Error relative to performance of the underlying Index.

- **Risk associated with potential change in Tax structure**

This summary of tax implications given in the taxation section is based on the current provisions of the applicable tax laws. This information is provided for general purpose only. The current taxation laws may change due to change in the 'Income Tax Act 1961' or any subsequent changes/amendments in Finance Act/Rules/Regulations. Any change may entail a higher outgo to the scheme or to the investors by way of securities transaction taxes, fees, taxes etc. thus adversely impacting the scheme and its returns.

i. Risk Control

Risk is an inherent part of the investment function. Effective Risk management is critical to fund management for achieving financial soundness. Investment by the Scheme would be made as per the investment objective of the Scheme and in accordance with SEBI Regulations. AMC has adequate safeguards to manage risk in the portfolio construction process. Risk control would involve managing risk in order to keep in line with the investment objective of the Scheme. The risk control process would include identifying the risk and taking proper measures for the same. The system has incorporated all the investment restrictions as per the SEBI guidelines and enables identifying and measuring the risk through various risk management tools like various portfolio analytics, risk ratios, average duration and analyses the same and acts in a preventive manner.

PLANS AND OPTIONS

The Scheme does not offer any Plans/Options for investment.

APPLICABLE NAV

The cut-off time for accepting subscription / redemption of units of the Scheme directly with the Fund would be 3.00 p.m. on any business day. However, as the Scheme is an Exchange Traded Fund, the subscriptions and redemptions of units would be based on the Portfolio Deposit and Cash Component as defined by the Fund for that respective business day. However, the requirement of

cut-off timing for NAV applicability as prescribed by SEBI from time to time shall not be applicable for direct transaction with AMCs in ETFs by Market Makers and other eligible investors.

The Fund creates/redeems units of the Scheme in creation unit size i.e. 2,00,000 units, by exchange of underlying securities i.e. Portfolio Deposit and Cash Component. The Fund declares the Portfolio Deposit and Cash Component separately for the Scheme on its website daily and the same is applicable for creating and redeeming units for that working day.

Following are the principles of incentive structure:

- MOAMC may decide to pay compensation or remuneration to MMs depending upon various criteria such as volumes, bid-ask spread, inventory maintain by MMs / APs.
- Maintenance by MM of minimum unit creation size of ETF available on both bid and ask side of trades, as may be decided by AMC and MM from time to time.

** As per clause 10.1.16 of SEBI Master Circular No. SEBI /HO/IMD/ IMD-PoD-1 / P/ CIR / 2023/74 dated May 19, 2023, it has been decided that with effect from July 1, 2022, the charges applicable for investor education and awareness initiatives from ETFs shall be 1bps of daily net assets of the scheme.

The expenses towards Investment Management and Advisory Fees under Regulation 52 (2) and the various sub-heads of recurring expenses mentioned under Regulation 52 (4) of SEBI (MF) Regulations are fungible in nature. Thus, there shall be no internal sub-limits within the expense ratio for expense heads mentioned under Regulation 52 (2) and (4) respectively.

The purpose of the above table is to assist the investor in understanding the various costs & expenses that the investor in the Scheme will bear directly or indirectly. These estimates have been made in good faith as per the information available to the AMC and the above expenses (including investment management and advisory fees) are subject to inter-se change and may increase/decrease as per actual and/or any change in the Regulations, as amended from time to time.

In addition to expenses under Regulation 52(6) and (6A), AMC may charge GST on investment and advisory fees, expenses other than investment and advisory fees and brokerage and transaction cost as below:

1. GST on investment and advisory fees charged to the scheme will be in addition to the maximum limit of TER as prescribed in regulation 52 (6) of the SEBI Regulations.
2. GST on expenses other than investment and advisory fees, if any, shall be borne by the scheme within the maximum limit of TER as per regulation 52 of the SEBI Regulations.

In accordance with Regulation 52(6A), the following expenses can be charged in addition to the existing total recurring expenses charged under Regulation 52(6):

In accordance with Regulation 52(6A), the following expenses can be charged in addition to the existing total recurring expenses charged under Regulation 52(6):

c. Investments through distributors

As per directions of Securities and Exchange Board of India (SEBI), the distributors, agents or any persons employed or engaged or to be employed or engaged in the sale and/or distribution of mutual fund products are required to have a valid certification from the National Institute of Securities Markets (NISM) by passing the certification examination. Further, no agents / distributors are entitled to sell units of mutual funds unless the intermediary is registered with Association of Mutual Funds in India (AMFI).

- Applications on behalf of minors should be made by natural guardian (i.e. father or mother) or legal guardian (court appointed) and signed by them. The name of the Guardian should be filled in the relevant space provided in the Application Form. No joint applicant/ joint holder is permitted with the minor beneficiary

e. Employee Unique Identification Number (EUIIN)

Further, SEBI has made it compulsory for every employee/ relationship manager/ sales person of the distributor of mutual fund products to quote in the Application Form the EUIIN obtained by him/her from AMFI. EUIIN would assist in addressing any instance of mis-selling even if the employee/ relationship manager/sales person later leaves the employment of the distributor. Hence, if your investments are routed through a distributor please ensure that the EUIIN is correctly filled in the Application Form. However, if your distributor has not given you any advice pertaining to the investment, the EUIIN box may be left blank. In this case, you are required to provide a duly signed declaration to this effect, as given in the Form.

f. Direct Investments

Investors applying under Direct Plan must mention "Direct" in ARN No. column. In case Distributor code is mentioned in the Application Form, but "Direct Plan" is indicated against the Scheme/ Series name, the Distributor code will be ignored and the application will be processed under Direct Plan. In case of valid application received without indicating "Direct Plan" against the Scheme/ Series name and without any Distributor Code mentioned on the form, the application will be processed under "Direct Plan".

- All Applicants are subject to detailed scrutiny and verification. Application Form incomplete in any respect or not accompanied by a Cheque / Demand Draft are liable to be rejected either at the collection centre itself or subsequently after detailed verification at the back office of the Registrars.

- If the Scheme name on the application form and on the payment instrument are different, the application will be processed and units will be allotted at applicable NAV of the scheme mentioned in the application / transaction slip duly signed by investor(s).

i. E-mail Communication

If the investor has provided an email address, the same will be registered in our records for communication and will be treated as your consent to receive , Allotment confirmations, consolidated account statement/account statement, annual report/abridged summary and any statutory / other information as permitted via electronic mode /email . These documents shall be sent physically in case the Unit holder opts/request for the same. Should the Unit holder experience any difficulty in accessing the electronically delivered documents, the Unit holder shall promptly intimate the Fund about the same to enable the Fund to make the delivery through alternate means. It is deemed that the Unit holder is aware of all security risks including possible third party interception of the documents and contents of the documents becoming known to third parties.

The AMC / Trustee reserve the right to send any communication in physical mode.
