## I. INTRODUCTION

## A. RISK FACTORS

#### **Standard Risk Factors:**

- Investment in Mutual Fund units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- As the price / value / interest rate of the securities in which the Scheme invests fluctuates, the value of your investment in the Scheme may go up or down depending on various factors and forces affecting the capital market.
- Past performance of the Sponsor/AMC/Mutual Fund does not guarantee future performance of the Scheme.
- The name of the Scheme does not in any manner indicate either the quality of the Scheme or its future prospects and returns.
- The sponsor is not responsible or liable for any loss resulting from the operation of the Scheme beyond the initial contribution of Rs. 100,000 made by it towards setting up the Fund.
- The present Scheme is not a guaranteed or assured return Scheme.
- The NAV of the Scheme may be affected by change in the general market conditions, factors and forces affecting capital markets in particular, level of interest rates, various market related factors and trading volumes.
- Changes in Government policy in general and changes in tax benefits applicable to mutual funds may impact the returns to Investors in the Scheme.
- Investors in the Scheme are not being offered any guaranteed/indicated returns

## **Scheme Specific Risk Factors**

The Scheme is subject to the principal risks described below. Some or all of these risks may adversely affect Scheme's NAV, trading price, yield, return and/or its ability to meet its objectives.

## Market Risk

The Scheme's NAV will react to stock market movements. The Investor may lose money over short or long period due to fluctuation in Scheme's NAV in response to factors such as performance of companies whose stock comprises the underlying portfolio, economic and political developments, changes in interest rates, inflation and other monetary factors and movement in prices of underlining investments.

## • Market Trading Risks

- a. Absence of Prior Active Market: Although the scheme will be listed on stock exchange, there can be no assurance that an active secondary market will develop or be maintained.
- b. Lack of Market Liquidity: Trading in the units of the scheme on stock exchange may be halted because of market conditions or for reasons that in view of stock exchange or SEBI, trading in the units of the scheme are not advisable. In addition, trading of the units of the scheme are subject to trading halts caused by extraordinary market volatility and pursuant to stock exchange and SEBI 'circuit filter' rules. There can be no assurance that the requirements of stock exchange necessary to maintain the listing of the units of the scheme will continue to be met or will remain unchanged.
- c. Units of the scheme may trade at prices other than NAV: The units of the scheme may trade above or below their NAV. The NAV of the scheme will fluctuate with changes in the market value of scheme holdings. The trading prices of the units of the scheme will fluctuate in accordance with changes in their NAV as well as market supply and demand for the units of the scheme. However, given that units of the scheme can be created and redeemed in creation units directly with the fund, it is expected that

SID of Motilal Oswal Nasdaq Q 50 ETF

large discounts or premiums to the NAV of units of the scheme will not sustain due to arbitrage opportunity available.

- d. Regulatory Risk: Any changes in trading regulations by stock exchange or SEBI may affect the ability of market maker to arbitrage resulting into wider premium/discount to NAV.
- e. Right to Limit Redemptions: The Trustee, in the general interest of the unit holders of the scheme and keeping in view of the unforeseen circumstances/unusual market conditions, may limit the total number of units which can be redeemed on any business day depending on the total "Saleable Underlying Stock" available with the fund.
- f. Redemption Risk: Investors may note that even though the Scheme is open-ended Scheme, the Scheme would ordinarily repurchase units in creation unit size. Thus unit holdings less than the creation unit size can only be sold through the secondary market on the exchange.
- g. Asset Class Risk: The returns from the types of securities in which the scheme invest may underperform returns of general securities markets or different asset classes. Different types of securities tend to go through cycles of out-performance and under-performance in comparison of securities markets.
- h. Passive Investments: As the scheme proposes to invest not less than 95% of the net assets in the securities of the benchmark Index, the Scheme will not be actively managed. The Scheme may be affected by a general decline in the Indian markets relating to its Underlying Index. The Scheme invests in the securities included in its underlying index regardless of their investment merit.
- i. The units will be issued only in demat form through depositories. The records of the depository are final with respect to the number of units available to the credit of unit holder. Settlement of trades, repurchase of units by the mutual fund depends up on the confirmations to be received from depository (ies) on which the mutual fund has no control.
- j. Tracking Error Risk: The Fund Manager would not be able to invest the entire corpus exactly in the same proportion as in the underlying index due to certain factors such as the fees and expenses of the respective scheme, corporate actions, cash balance, changes to the underlying index and regulatory policies which may affect AMC's ability to achieve close correlation with the underlying index of the scheme. The scheme's returns may therefore deviate from those of its underlying index. "Tracking Error" is defined as the standard deviation of the difference between daily returns of the underlying index and the NAV of the respective scheme. Tracking Error may arise due to the following reasons: -
  - Expenditure incurred by the fund.
  - The holding of a cash position and accrued income prior to distribution of income and payment of accrued expenses. The fund may not be invested at all times as it may keep a portion of the funds in cash to meet redemptions or for corporate actions.
  - Corporate actions such as debenture or warrant conversion, rights, merger, change in constituents etc.
    - Rounding off of quantity of shares in underlying index.
    - Disinvestments to meet redemptions, recurring expenses, dividend payouts etc.
    - Execution of large buy / sell orders
    - Transaction cost (including taxes and insurance premium) and recurring expenses
    - Realisation of Unit holders' funds
  - Index provider undertakes a periodical review of the scripts that comprise the underlying index and may either drop or include new securities. In such an event, the fund will try to reallocate its portfolio but the available investment/reinvestment opportunity may not permit absolute mirroring immediately.

It will be the endeavour of the fund manager to keep the tracking error as low as possible. Under normal circumstances, such tracking error is not expected to exceed 2% per annum. However, in case of certain corporate actions and market volatility during rebalancing of the portfolio following the rebalancing of the underlying index, etc. or in abnormal market circumstances, the tracking error may exceed the above limits. There can be no assurance or guarantee that the Scheme will achieve any particular level of tracking error relative to performance of the Index.

#### • Concentration Risk:

The scheme may have no diversification within its portfolio. This could have implications on the performance of the scheme. The scheme may be more sensitive to economic, business, political or other changes and this may lead to sizeable fluctuation in the Net Asset Value of the scheme.

Motilal Oswal NASDAQ Q 50 ETF will restricts its investments only in the Security of the underlying index (NASDAQ Q-50 TR Index) and will therefore be subject to the risks associated with such concentration.

## • Right to Limit Redemptions

The Trustee, in the general interest of the unit holders of the Scheme offered under this SID and keeping in view of the unforeseen circumstances/unusual market conditions, may limit the total number of Units which can be redeemed on any Business Day subject to the guidelines/circulars issued by the Regulatory Authorities from time to time.

#### • Asset Class Risk

The returns from the types of securities in which the Scheme invests may under perform from the various general securities markets or different asset classes. Different types of securities tend to go through cycles of out-performance and under-performance in comparison with the general securities markets.

## • Trading through mutual fund trading platforms of BSE and/ or NSE

In respect of transaction in Units of the Scheme through BSE and/ or NSE, allotment and redemption of Units on any Business Day will depend upon the order processing/settlement by BSE and/ or NSE and their respective clearing corporations on which the Mutual Fund has no control.

## • Risks associated with Segregated portfolio:

The AMC / Trustee shall decide on creation of segregated portfolio of the Scheme in case of a credit event/actual default at issuer level. Accordingly, Investor holding units of segregated portfolio may not able to liquidate their holding till the time recovery of money from the issuer. The Security comprised of segregated portfolio may not realise any value. Further, Listing of units of segregated portfolio in recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.

#### Risk associated with ETF

## 1. Market risk:

ETFs are typically designed to track the performance of certain indices, market sectors, or groups of assets such as stocks, bonds, or commodities. ETF managers may use different strategies to achieve this goal, but in general they do not have the discretion to take defensive positions in declining markets. Investors must be prepared to bear the risk of loss and volatility associated with the underlying index/assets.

## 2. Tracking errors:

Tracking errors refer to the disparity in performance between an ETF and its underlying index/assets. Tracking errors can arise due to factors such as the impact of transaction fees and expenses incurred to the ETF, changes in composition of the underlying index/assets, and the ETF manager's replication strategy.

## 3. Trading at discount or premium:

An ETF may be traded at a discount or premium to its Net Asset Value (NAV). This price discrepancy is caused by supply and demand factors, and may be particularly likely to emerge during periods of high market volatility and uncertainty.

## 4. Liquidity risk:

Authorized participants (APs) are Exchange Participants that provide liquidity to facilitate trading in ETFs. Although most ETFs are supported by one or more APs, there is no assurance that active trading will be maintained.

- 5. As the units of the Scheme are listed on the Stock Exchange, trading in the units of the Scheme may be halted due to market conditions or for reasons that in the view of the Exchange Authorities or SEBI. There could also be trading halts caused by extraordinary market volatility and pursuant to NSE/BSE and SEBI circuit filter rules and the Scheme would not be able to buy/sell securities in case of subscriptions/redemptions, which may impact the Scheme. Further, there can be no assurance that the requirements of the exchange necessary to maintain the listing of the Scheme will continue to be met or will remain unchanged.
- **6.** Listing and trading of the units are undertaken on the Stock Exchanges within the rules, regulation and policy of the Stock Exchange and SEBI. Any change in trading rules, regulation and policy by the regulatory authority would have a bearing on the trading of the units of the Scheme and its prices.
- 7. Though the Scheme is listed on the NSE and BSE, there is no assurance that an active secondary market will develop or be maintained. Hence, there would be times when trading in the units of the Scheme would be infrequent.
- **8.** The NAV of the Scheme reflect the valuation of its investment and any changes in market value of its investments would have a bearing on its NAV. When the units are traded on the Stock Exchange, the units of the Scheme may trade at prices which can be different from the NAV due to various factors like demand and supply for the units of the Scheme, perceived trends in the market outlook, etc.
- **9.** In certain cases, settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities as in certain cases, settlement periods may be extended significantly by unforeseen circumstances. Similarly, the inability to sell securities held in the Scheme portfolio may result, at times, in potential losses to the Scheme, and there can be a subsequent decline in the value of the securities held in the Scheme portfolio.
- 10.Investors should note that even though the Scheme is an open ended Scheme, subscription/redemptions directly with the Fund would be limited to such investors who have the ability to subscribe/redeem the units of the Scheme in specific lot sizes. Generally, these lot sizes are larger as compared to normal funds. Even though this Scheme is open ended due to large lot size, very few investors can directly subscribe and redeem the units of the Scheme. However, investors wishing to subscribe/redeem units in other than specific lot sizes can do so by buying/selling the same on the Stock Exchange unless no quotes are available on the exchange for 3 trading days consecutively.

- **11.**Investors can directly approach the AMC for redemption of units of ETFs, for transaction of up to INR 25 Cr. without any exit load, in case of the following scenarios:
  - i. Traded price (closing price) of the ETF units is at discount of more than 1% to the day end NAV for 7 continuous trading days, or
  - ii. No quotes for such ETFs are available on stock exchange(s) for 3 consecutive trading days, or
  - iii. Total bid size on the exchange is less than half of creation unit size daily, averaged over a period of 7 consecutive trading days.
- 12. Tracking error may arise due to various reasons like fees and expenses charged to the Scheme, dividend received, corporate actions, change in the Underlying Index, etc. Tracking error has an impact on the performance of the Scheme. The Scheme's returns may therefore deviate from those of its Underlying Basket. However, the Fund would endeavor to keep the tracking error as low as possible.

#### • Risk associated with investing in Foreign Securities

- a. The Scheme will invest in foreign securities. Such overseas investments will be made subject to any / all approvals, conditions thereof as may be stipulated by SEBI / RBI and provided such investments do not result in expenses to the Fund in excess of the ceiling on expenses prescribed by and consistent with costs and expenses attendant to international investing. The Fund may, where necessary, appoint other intermediaries of repute as advisors, custodian/sub-custodians etc. for administering such investments. The appointment of such intermediaries shall be in accordance with the applicable requirements of SEBI and within the permissible ceiling of expenses.
- b. As per the SEBI (MF) Regulation, the Fund is permitted to invest USD 1 billion. However, the overall limit for the Mutual Fund Industry is USD 7 billion. The Scheme therefore may or may not be able to utilise the limit of USD 1 billion due to the USD 7 billion limit being exhausted by other Mutual Funds. Further, the overall ceiling for investment in overseas Exchange Traded Funds (ETFs) that invests in securities is USD 1 billion subject to a maximum of USD 300 million per mutual fund. As and when the investment limits are breached, the subscriptions into the Scheme shall be suspended till further notice by the AMC.
- c. Mutual Funds can make investments in overseas Exchange Traded Fund (ETF(s)) subject to a maximum of USD 300 million per Mutual Fund, within the overall industry limit of USD 1 billion.
- d. As the Scheme will invest in securities which are denominated in foreign currencies, fluctuations in the exchange rates of these foreign currencies may have an impact on the income and value of the Fund. Thus, returns to investors are the result of a combination of returns from investments and from movements in exchange rates. Thus, the Indian rupee equivalent of the net assets, distribution and income may be adversely affected by changes in the exchange rates of respective foreign currencies relative to the Indian Rupee. Restrictions on currency trading that may be imposed by developing market countries will have an adverse effect on the value of the securities of companies that trade or operate in such countries. The repatriation of capital to India may also be hampered by changes in the regulations concerning exchange controls or political circumstances as well as the application to it of other restriction on investment.
- e. The risk of investing in foreign securities carries an exchange rate risks related to depreciation of foreign currency and country risks. The country risks would include events such as change in regulations or political circumstances like introduction of extraordinary exchange rate controls, restrictions on repatriation of capital due to exchange rate controls, bilateral political tensions leading

to immobilisation of overseas financial assets and the prevalent tax laws of the respective jurisdiction for the execution of trades or otherwise.

- f. The Scheme shall invest in securities listed on the overseas stock exchange. Hence all the risk factors pertaining to overseas stock exchange like market trading risk, liquidity risk and volatility risk, as mentioned earlier, are also applicable to the Scheme. The Scheme will also be exposed to settlement risk, as different countries have different settlement periods.
- g. Some countries prohibit or impose substantial restrictions on investments by foreign entities. Certain countries may restrict investment opportunities in issuers or industries or securities deemed important to national interests. The manner, in which foreign investors may invest in companies/securities in certain countries, as well as limitations on such investments, may have an adverse impact on the operations of the Scheme. Certain risk arises from the inability of a country to meet its financial obligations. It is the risk encompassing economic, social and political conditions in a foreign country which might adversely affect the interests of the Scheme.
- h. The Scheme may invest in the units of overseas mutual fund schemes including exchange traded funds. Hence scheme specific risk factors of such underlying schemes will be applicable. All risks associated with such schemes, including performance of their underlying stocks, derivative instruments, stock-lending, off-shore investments, liquidity, etc., will therefore be applicable in this Scheme. Investors who intend to invest in the Scheme are required to and deemed to have understood the risk factors of the underlying schemes.

## • Risks associated with Investing in Derivatives

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of the fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

Derivative products are specialized instruments that require investment techniques and risk analysis different from those associated with stocks. The use of a derivative requires an understanding not only of the underlying instrument but of the derivative itself. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to forecast price or interest rate movements correctly. There is a possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the "counterparty") to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mispricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices, illiquidity risk whereby the Scheme may not be able to sell or purchase derivative quickly enough at a fair price. The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

## Risks Associated with Debt & Money Market Instruments

**Price-Risk or Interest-Rate Risk:** Fixed income securities such as bonds, debentures and money market instruments run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates.

**Credit Risk:** Credit Risk means that the issuer of a security may default on interest payments or even paying back the principal amount on maturity. (i.e. the issuer may be unable to make timely principal and interest payments on the security). Even where no default occurs, the prices of security may go down because the credit rating of an issuer goes down. It must be, however, noted that where the Scheme has invested in Government securities, there is no risk to that extent.

**Liquidity or Marketability Risk:** This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM). The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is today characteristic of the Indian fixed income market.

**Reinvestment Risk**: Investments in fixed income securities may carry reinvestment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the bond. Consequently, the proceeds may get invested at a lower rate.

**Pre-payment Risk**: Certain fixed income securities give an issuer the right to call back its securities before their maturity date, in periods of declining interest rates. The possibility of such prepayment may force the fund to reinvest the proceeds of such investments in securities offering lower yields, resulting in lower interest income for the fund.

**Spread Risk**: In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. In the life of the security this spread may move adversely leading to loss in value of the portfolio. The yield of the underlying benchmark might not change, but the spread of the security over the underlying benchmark might increase leading to loss in value of the security.

**Liquidity Risk:** As the liquidity of the investments made by the Scheme(s) could, at times, be restricted by trading volumes and settlement periods, the time taken by the Mutual Fund for liquidating the investments in the scheme may be high in the event of immediate redemption requirement. Investment in such securities may lead to increase in the scheme portfolio.

## • Risk Factors relating to Portfolio Rebalancing

In the event that the asset allocation of the Scheme deviates from the ranges as provided in the asset allocation table in this SID, then the Fund Manager will rebalance the portfolio of the Scheme to the position indicated in the asset allocation table. However, if market conditions do not permit the Fund Manager to rebalance the portfolio of the Scheme then the AMC would notify the Board of the Trustee Company and the Investment Committee of the AMC with appropriate justifications.

Different types of securities in which the scheme would invest as given in the SID carry different levels and types of risk. Accordingly the scheme's risk may increase or decrease depending upon its investment pattern. E.g. corporate bonds carry a higher amount of risk than Government securities. Further even among corporate bonds, bonds, which are AA rated, are comparatively more risky than bonds, which are AAA rated.

## • Risks associated with investing in TREPS Segments

The mutual fund is a member of securities and TREPS segments of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in TREPS segments are settled centrally through the infrastructure and settlement systems provided by CCIL; thus reducing the settlement and counterparty risks considerably for transactions in the said segments. The members are required to contribute an amount as communicated by CCIL from time to time to the default fund maintained by CCIL as a part of the default waterfall (a loss mitigating measure of CCIL in case of default by any member in settling transactions routed through CCIL). The mutual fund is exposed to the extent of its contribution to the default fund of CCIL at any given point in time. In the event that the default waterfall is triggered and the contribution of the mutual fund is called upon to absorb

settlement/default losses of another member by CCIL, the scheme may lose an amount equivalent to its contribution to the default fund allocated to the scheme on a pro-rata basis.

#### Risk associated with Investment in Units of mutual fund

Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal. As the price / value / interest rate of the securities in which the Scheme(s) invests fluctuates, the value of your investment in the Scheme(s) may go up or down depending on the various factors and forces affecting the capital markets and money markets.

## Risk associated with potential change in Tax structure

This summary of tax implications given in the taxation section is based on the current provisions of the applicable tax laws. This information is provided for general purpose only. The current taxation laws may change due to change in the 'Income Tax Act 1961' or any subsequent changes/amendments in Finance Act/Rules/Regulations. Any change may entail a higher outgo to the scheme or to the investors by way of securities transaction taxes, fees, taxes etc. thus adversely impacting the scheme and its returns.

#### **Risk Control**

Risk is an inherent part of the investment function. Effective Risk management is critical to fund management for achieving financial soundness. Investment by the Scheme would be made as per the investment objective of the Scheme and in accordance with SEBI Regulations. AMC has adequate safeguards to manage risk in the portfolio construction process. Risk control would involve managing risk in order to keep in line with the investment objective of the Scheme. The risk control process would include identifying the risk and taking proper measures for the same. The system has incorporated all the investment restrictions as per the SEBI guidelines and enables identifying and measuring the risk through various risk management tools like various portfolio analytics, risk ratios, average duration and analyses the same and acts in a preventive manner.

## B. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME

As Motilal Oswal NASDAQ Q 50 ETF is an exchange traded fund, the provision of minimum number of investors and maximum holding by the investor is not applicable as per SEBI Circular having reference no. SEBI/IMD/CIR NO 10/22701/03 dated December 12, 2003.

## C. SPECIAL CONSIDERATIONS

- Prospective investors should study this SID and SAI carefully in its entirety and should not construe the
  contents hereof as advise relating to legal, taxation, financial, investment or any other matters and are
  advised to consult their legal, tax, financial and other professional advisors to determine possible legal,
  tax, financial or other considerations of subscribing to or redeeming units, before making a decision to

## **Creation of segregated portfolio:**

#### A. Introduction:

SEBI vide its circular dated 28 December, 2018 (SEBI/HO/IMD/DF2/CIR/P/2018/160) read with its circular dated 07 November, 2019 (SEBI/HO/IMD/DF2/CIR/P/2019/127), has advised that portfolios by mutual fund schemes investing in debt and money market instruments should have provision in the concerned SID for creating portfolio segregation.

**Segregated Portfolio:** The portfolio comprising of debt and money market instruments, which might be affected by a credit event and shall also include the unrated debt or money market instruments affected by actual default.

Main Portfolio: Scheme portfolio excluding segregated portfolio

Total Portfolio: Scheme portfolio including the securities affected by credit events

#### B. Need for segregated portfolio:

While very stringent internal credit evaluation norms are being followed by AMC/Mutual Fund, the risk of credit downgrade in portfolio companies due to various factors cannot be ruled out. In the event of credit downgrade the downgrade instrument generally become illiquid making it very difficult for the fund manager to dispose of such instrument/s. In such an event segregation of such an instrument from the main portfolio will prevent the distressed asset(s) damaging the returns generated from more liquid and better-performing assets of the portfolio. It also provides fair treatment to all existing, incoming and outgoing investors, as any recovery from the issuer in future would get distributed among those investors, who would have suffered a loss due to downgrade event.

## C. Credit Events

Segregated portfolio may be created, in case of a credit event at issuer level i.e. downgrade in credit rating by a SEBI registered Credit Rating Agency (CRA), as under:

- 1) Downgrade of a debt or money market instrument to 'below investment grade', or
- 2) Subsequent downgrades of the said instruments from 'below investment grade', or
- 3) Similar such downgrades of a loan rating.

The most conservative rating shall be considered, if there is difference in rating by multiple CRAs, Creation of segregated portfolio shall be based on issuer level credit events as detailed at "Credit Events" and implemented at the ISIN level.

Actual default (for unrated debt or money market instruments)

## D. Segregate portfolio creation process

Creation of segregated portfolio shall be optional and at the discretion of the AMC/ Trustees.

- a. The AMC may decide on creation of segregated portfolio on the day of credit event/ actual default (as applicable). Segregated portfolio has to be created at the issuer level i.e. the scheme having multiple segregated portfolios will have multiple segregated portfolios. Once decided, AMC shall –
- i. Seek Trustee prior approval,
- ii. Issue a press release immediately mentioning its intention to segregate such debt and money market instrument and its impact to investors. It should also disclose that the segregation shall be subject to trustee approval. Additionally, the said press release to be prominently disclosed on the website of the AMC.
- iii. The Trustee approval has to be secured in not more than one business day from the credit event/actual default date & meanwhile the subscription and redemption in the scheme shall be suspended for processing with respect to creation of units and payment on redemptions.
- b. On receipt of the Trustee approval –
- i. the segregated portfolio shall be created effective from credit event/actual default date
- ii. AMC shall issue press release immediately mentioning all details pertaining to the segregated portfolio. The said information shall also be submitted to SEBI.
- iii. An e-mail or SMS should be sent to all unit holders of the concerned scheme.
- iv. The NAV of both segregated and main portfolio shall be disclosed from the day of the credit event/ Actual Default.
- v. All existing investors in the scheme as on the day of the credit event/actual default date will be allotted equal number of units in the segregated portfolio as held in the main portfolio.
- vi. No redemption or subscription will be allowed in the segregated portfolio/s. However, AMC shall enable the listing of the units of the segregated portfolio on recognized stock exchange within 10 working days from the date of its creation and shall also enable transfer of units on receipt of transfer request.
- c. If the trustees do not approve the proposal to segregate portfolio, AMC shall issue a press release immediately informing investors of the same.

## **E.** Disclosure Requirements

Communication to the investors, NAV disclosure and other disclosure including scheme performance requirements for segregated portfolio shall be as per the norms specified in the above SEBI circular.

MOAMC will comply with all communication requirements /disclosure requirements prescribed by SEBI in an event of creation of segregated portfolio. This shall include disclosures of NAV, issue of account statement, press release announcing credit event and creation of segregated portfolio/s, Disclosure of segregated portfolio in (Monthly/Half Yearly) portfolio statement, etc.

The information regarding number of segregated portfolios created in a scheme shall appear prominently under the name of the scheme at all relevant places such as SID, KIM-cum-Application Form, advertisement, AMC and AMFI websites, etc.

If the Trustee rejects the segregated portfolio proposal then AMC to issue press release and inform the decision of the Trustee to investors, post which subscription and redemption applications will be processed based on the NAV of total portfolio.

## **F.** Valuation of security:

From the date of credit downgrade to non-investment grade, the Security shall be valued based on principal of fair valuation & hair cut prescribed by the AMFI till the time valuation agency(ies) start providing valuation for the security.

The valuation of the instruments/portfolio shall be done based on the quote/price obtained from the independent valuation agency(ies). In cases where quote/price is not available from an independent agency, the Valuation Committee will decide the methodology for valuation of such instruments/portfolio.

All subscription and redemption requests for which NAV of the day of credit event/ Actual Default or subsequent day is applicable will be processed as per the existing circular on applicability of NAV as under:

- i. Upon trustees' approval to create a segregated portfolio
  - Investors redeeming their units will get redemption proceeds based on the NAV of main portfolio and will continue to hold the units of segregated portfolio.

The legal charges related to recovery of the investments of the segregated portfolio may be charged to the segregated portfolio in proportion to the amount of recovery. The maximum TER limit shall be same as applicable to the main portfolio. TER in excess of limit shall be borne by AMC. However, the costs related to segregated portfolio shall in no case be charged to the main portfolio.

The TER so levied shall not exceed the simple average of such expenses (excluding the investment and advisory fees) charged on daily basis on the main portfolio (in % terms) during the period for which the segregated portfolio was in existence.

## H. Distribution of recovery:

Any recovery of investment of the segregated portfolio/s (including recovery after write-off) shall be distributed immediately to the investors in proportion to their holdings in the segregated portfolio/s.

## I. Monitoring of segregated portfolio:

Trustees shall monitor the compliance of the SEBI Circular in respect of creation of segregated portfolio and disclosure in this respect shall be made in Half-Yearly Trustee reports to be filed with SEBI.

- 3. Treasury Bills (T-Bills) are issued by the Government of India to meet their short term borrowing requirements. T-Bills are issued for maturities of 91 days, and 364 days. T-bills are issued at a discount to their face value and redeemed at par.

#### 4. TREPS.

- 5. Securities created and issued by the Central Governments as may be permitted by RBI, securities guaranteed by the Central Governments (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills). Central Government Securities are sovereign debt obligations of the Government of India with zero-risk of default and issued on its behalf by RBI. ## E. INVESTMENT STRATEGY

The investment strategy would involve offering investment returns that are similar to NASDAQ Q-50 Index before fees / expense and subject to forex movement and tracking error.

The scheme aims to invest in the constituent of NASDAQ Q-50 Total Return Index, in the range of 95% to 100%. The scheme would also invest in units of Liquid/ debt schemes, debt and money market instruments, International Equity ETF (VictoryShares Nasdaq Next 50 ETF) In the range of 0% - 5%.

#### Portfolio Turnover

Portfolio Turnover is defined as the lower of sales or purchase divided by the average corpus during a specified period of time. Generally, Portfolio Turnover would depend upon the rebalancing of the portfolio due to change in composition of the Index or due to corporate actions of the securities constituting the Index.

## **Tracking Error**

Tracking error is defined as the annualized standard deviation of the difference between the daily returns of the Underlying Index and the NAV of the Scheme based on past one year rolling data shall not exceed 2%. Theoretically, the corpus of the Scheme has to be fully invested in the securities comprising the Underlying Index in the same proportion of weightage as the securities have in the Underlying Index. However, it is not possible to invest as per the objective due to reason that the Scheme has to incur expenses, corporate actions pertaining to the Basket including changes to the constituents, regulatory policies, ability of the Fund Manager to closely replicate the Underlying Index, etc. The Scheme's returns may therefore deviate from those of its Underlying Basket. Tracking Error may arise due to the following reasons:-

- 1. Fees and expenses of the Scheme.
- 2. Cash balance held by the Scheme due to subscriptions, redemption, etc.
- 3. Corporate actions
- 4. The Scheme has to invest in the securities in whole numbers and has to round off the quantity of securities shares.
- 5. Changes in the constituents of the underling Basket. Whenever there are any changes, the Scheme has to reallocate its investment as per the revised Basket but market conditions may not offer an opportunity to rebalance its portfolio to match the Basket and such delay may affect the NAV of the Scheme.
- 6. Lack of Liquidity

The AMC would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. Under normal market circumstances, such tracking error shall not exceed by 2%.

In case of unavoidable circumstances in the nature of force majeure, which are beyond the control of the AMC, the tracking error may exceed 2% and the same will be intimated to the Trustees with corrective actions taken by the AMC, if any.

## **Tracking Difference:**

Tracking difference i.e. the annualized difference of daily returns between the index or goods and the NAV of the ETF will be disclosed on the website of the AMC and AMFI, on a monthly basis, for tenures 1 year, 3 year, 5 year, 10 year and since the date of allotment of units.

## Investment by AMC/Sponsor in the Scheme

In accordance with Regulation 28(4) of SEBI (Mutual Funds) (Amendment) Regulations, 2014 the Sponsor or AMC has invested a portion of its assets into the Scheme as seed capital to the extent mandated and such seed capital will not be redeemed or withdrawn by the AMC until the winding up of the Scheme.

# Methodology and illustration of sale and repurchase price of Units

#### a) Methodology of calculating sale price

The price or NAV, an investor is charged while investing in an openended scheme is called sale or subscription price. Pursuant to SEBI Circular dated June 30, 2009, no entry load will be charged by the scheme to the investors. Therefore, Sale or Subscription price = Applicable NAV (for respective plan and option of the scheme)

Pursuant to SEBI Circular No. SEBI/IMD/DF2/OW/P/2020/11099/1 dated June 29, 2020, Gazette notification dated March 30, 2020 for extending the effective date for applicability of new stamp duty rules and as per Notification No. S.O. 4419(E) dated December 10, 2019 issued by Department of Revenue, Ministry of Finance, Government of India, read with Part I of Chapter IV of Notification dated February 21, 2019 issued by Legislative Department, Ministry of Law and Justice, Government of India on the Finance Act, 2019, a stamp duty @ 0.005% of the transaction value would be levied on all mutual fund inflow transactions i.e. purchases (including Switch-ins), SIP / STP installments (including dividend reinvestment) with effect from July 01, 2020. Accordingly, pursuant to levy of stamp duty, the number of units allotted to the unit holders would be lower to that extent. Kindly refer the example below for better understanding.

Example: An investor invests Rs.10,000/- and the current NAV is Rs. 10/-then the purchase price will be Rs.10/-. After deduction of stamp duty investor will receive 999.95 units

Investment amount (A)	Rs.10,000/-
Less: Transaction charges (deducted and paid to distributor, if applicable) (B)	NIL
Stamp duty applicable (@0.005%) C = (A- B)*0.005/100.005	0.50
Net Investment amount D = (A - B - C)	9,999.50/-
NAV (E)	Rs.10/-
Units allotted $F = D / E$	999.95

#### b) Methodology of calculating repurchase price of Units

Repurchase or redemption price is the price or NAV at which an openended scheme purchases or redeems its units from the investors. It may include exit load, if applicable. The exit load, if any, shall be charged as a percentage of Net Assets Value (NAV) i.e. applicable load as a percentage of NAV will be deducted from the "Applicable NAV" to calculate the repurchase price. Therefore, Repurchase or Redemption Price = Applicable NAV \*(1- Exit Load, if any)

Example: If the Applicable NAV is Rs. 10 and a 2% Exit Load is charged, the Redemption Price per Unit will be calculated as follows: = Rs. 10 \* (1-0.02) = Rs. 10 \* (0.98) = Rs. 9.80

# Procedure for subscribing / redeeming units directly with the fund

The Authorised Participant can subscribe/ redeem units of the Scheme directly with the Mutual Fund only in creation unit size as per the procedure given below.

#### Role of Authorised Participant/Market Makers

The role of Authorised Participants is to offer liquidity of the units of the Scheme on the Stock Exchange where the Units are listed. Authorised Participants may offer to buy and sell quotes (bid and ask quotes) on the Exchanges such that buy and sell orders get executed in the market subject to price compatibility. Authorised Participants may for the purpose of creating liquidity subscribe or redeem the units of the Scheme directly with the Mutual Fund.

# Purchase / Sale of the units of Scheme on the Exchange

Buying / Selling of units of the Scheme on the Exchange is just like buying / selling any other normal listed security. If an investor has bought units, an investor has to pay the purchase amount to the broker / subbroker such that the amount paid is realised before the funds pay-in day of the settlement cycle on the exchange. If an investor has sold units, an investor has to deliver the units to the broker / sub-broker before the securities pay-in day of the settlement cycle on the exchange. The units (in the case of units bought) and the funds (in the case of units sold) are paid out to the broker on the payout day of the settlement cycle on the exchange. The trading member would pay the money or units to the investor in accordance with the time prescribed by the stock exchange regulation.

If an investor has bought units, he/she should give standing instructions for 'Delivery-In' to his/her DP for accepting units in his/her beneficiary account. An investor should give the details of his/her beneficiary account and the DP-ID of his/her DP to his/her trading member. The trading member will transfer the units directly to his/her beneficiary account on receipt of the same from exchange clearing corporation.

An investor who has sold units should instruct his/her Depository Participant (DP) to give 'Delivery Out' instructions to transfer the units from his/her beneficiary account to the Pool Account of his/her trading member through whom he/she have sold the units. The details of the pool a/c of his/her trading member to which the units are to be transferred, unit quantity etc. should be mentioned in the Delivery Out instructions given by him/her to the DP. The instructions should be given well before the prescribed securities pay-in day. SEBI has advised that the Delivery Out instructions should be given at least 24 hours prior to the cut-off time for the prescribed securities pay-in to avoid any rejection of instructions due to data entry errors, network problems, etc.

If the average discount, of the bid price to the indicative NAV over a period of 30 trading days is greater than 3%, then an investor can sell its units of the Scheme directly to the Fund for a period of 3 consecutive trading days with an exit load of 1% of NAV of the Scheme. The notification of the same would be displayed on our website.

Further, restriction on redemption due to illiquidity of a specific security in the portfolio of a scheme due to a poor investment decision shall not be allowed.  ii. Market failures, exchange closures - when markets are affected by unexpected events which impact the functioning of exchanges or the regular course of transactions. Such unexpected events could also be related to political, economic, military, monetary or other emergencies.  iii. Such cases can only be considered if they are reasonably unpredictable and occur in spite of appropriate diligence of third parties, adequate and effective disaster recovery procedures and systems  b. #### D. COMPUTATION OF NAV

The Net Asset Value (NAV) per unit under the Scheme will be computed by dividing the net assets of the Scheme by the number of units outstanding on the valuation day. The Mutual Fund will value its investments according to the valuation norms, as specified in Schedule VIII of the SEBI (MF) Regulations, or such norms as may be specified by SEBI from time to time.

NAV of the units under the Scheme shall be calculated as follows:

NAV (Rs.) = Market or Fair Value of Scheme's investments + Receivables + Accrued Income + Other Assets - Accrued Expenses- Payables- Other Liabilities

No. of Units outstanding under Scheme on the Valuation Day

The NAV will be calculated up to four decimals.

The NAV Calculation shall as be in accordance with the SEBI Regulation and the Valuation Policy of MOMF. The NAV shall be calculated and disclosed on each business day. The computation of NAV shall be in conformity with SEBI Regulations and guidelines as prescribed from time to time.

The NAV shall be calculated and announced on each working day. The computation of NAV shall be in conformity with SEBI Regulations and guidelines as prescribed from time to time.

Due to difference in time zones of different markets, in case the closing prices of securities are not available within a given time frame to enable the AMC to upload the NAV for a Valuation Day, the AMC may use the last available traded price for the purpose of valuation. The use of the closing price / last available traded price for the purpose of valuation will also be based on the practice followed in a particular market. In case any particular security is not traded on the Valuation Day, the same shall be valued on a fair value basis by the valuation committee of the AMC.

Hence, for the purposes of valuation and calculating NAV of the Scheme for a particular day, the last available prices of securities on NASDAQ shall be considered (which would be the previous day's closing prices). This will enable the disclosure of the NAV of the Scheme before the deadline as provided by SEBI guidelines.

The example for consideration of prices of securities for calculating NAV of the Scheme is as follows:

For calculation and disclosure of NAV as on May 07, 2021, prices of securities at the close of trading on NASDAQ Stock Market on May 06, 2021 have been considered.

On the Valuation Day, all assets and liabilities denominated in foreign currency will be valued in Indian Rupees exchange rate made available by Reuters Rate (11:30:00 GMT) failing which exchange rates made available by Bloomberg / RBI or any other standard reference rate at the close of banking hours in India. The Trustees reserve the right to change the source for determining the exchange rate.

#### **Illustration of NAV:**

If the net assets of the Scheme, after considering applicable expenses, are Rs.10,45,34345.34 and units outstanding are 10,00,0000, then the NAV per unit will be computed as follows:

10,45,34,345.34 / 10,00,000 =Rs. 10.4534 per unit (rounded off to four decimals)

The expenses towards Investment Management and Advisory Fees under Regulation 52 (2) and the various sub-heads of recurring expenses mentioned under Regulation 52 (4) of SEBI (MF) Regulations are fungible in nature. Thus, there shall be no internal sub-limits within the expense ratio for expense heads mentioned under Regulation 52 (2) and (4) respectively. Further, the additional expenses under Regulation 52(6A)(c) shall also be incurred towards any of these expense heads.

The purpose of the above table is to assist the investor in understanding the various costs & expenses that the investor in the Scheme will bear directly or indirectly. - 3. Details of all enforcement actions taken by SEBI in the last five years and/ or pending with SEBI for the violation of SEBI Act, 1992 and Rules and Regulations framed there under including debarment and/ or suspension and/ or cancellation and/ or imposition of monetary penalty/adjudication/enquiry proceedings, if any, to which the Sponsor(s) and/ or the AMC and/ or the Board of Trustees /Trustee Company and/ or any of the directors and/ or key personnel (especially the fund managers) of the AMC and Trustee Company were/ are a party. The details of the violation shall also be disclosed.
  - 1.SEBI vide Notice dated May 09, 2019, under Rule 4 (1) of SEBI (Procedure for holding Inquiry and Imposing penalties by Adjudicating Officer) rules, 2005 inquired into alleged violation of the provisions of SEBI circular no. SMD/SED/CIR/93/23321 dated November 18, 1993.

SEBI conducted Inspection of MOFSL to examine whether MOFSL has complied with requirements of SEBI circular dated November 18, 1993. Inspection team observed the MOFSL has mis-utilised the funds of client's credit balance lying with the broker for the settlement obligation of the debit balance clients. MOFSL in its reply submitted that Inspection team has not included margin requirements of clients while calculating total creditor balance and hence the same is on higher side and that there would be considerable decrease in the figures if the margin dues are deducted from creditor balance. SEBI did not accept argument of the MOFSL since the margins collected from clients are in the form of funds and/or securities. The fund portion of the margin collected from the client has already been considered while calculating client deposits with the broker.

In view of the above SEBI called upon to show cause as to why an inquiry should not be held against MOFSL in terms of Rule 4 of the Adjudication Rules read with Section 23 of the SCRA 1956 and why penalty should not be imposed on terms of the provisions of Section 23D of the SCRA 1956. MOFSL has filed its reply dated October 03, 2019.

SEBI has passed adjudication order dated 28th February, 2020 against MOFSL and imposed a monetary penalty of Rs. 17,00,000/- to be paid within 45 days of order issued. We have paid penalty to SEBI and the matter is closed.

- 2.SEBI has initiated Adjudication vide letter dated December 11, 2019, for transactions of a customer in the scrip of Zylog Systems Limited. MOFSL has accepted the order for trading in ZSL from person other than client without any authority i.e. the trade order was issued by Mr. P Srikanth, husband of Client, Mrs. Srikanth Sripriya instead of client herself. With regard to aforesaid, MOFSL sent the reply to SEBI on December 30, 2019 thereby denying the said allegations and to understand the reasons for issuance of said notice without any factual background. MOFSL sent reply to SEBI on May 20, 2020. Further our officials attended the video hearing with SEBI officials on 26th May, 2020. SEBI issued an Order dated 28th May, 2020 whereby they disposed-of the SCN without any penalty or action. The matter is disposed off.
- 3. SEBI has initiated adjudication notice against MOFSL vide notice no. SEBI/HO/EAD/EAD4/P/OW/2021/27159/3 dated 05th October, 2021 under rule 4(1) of SEBI (Procedure for holding inquiry and Imposing penalties) rules, 1995 in the matter of Resurgere SID of Motilal Oswal Nasdaq Q 50 ETF

Mines and Minerals India Limited (RMMIL) Personal Hearing scheduled by SEBI held on 4th April 2022. SEBI issued Adjudication order GR/PU/2022-23/17202-17225 dated 21<sup>st</sup> June, 2022 wherein SEBI have taken no action against MOSL (i.e. MOFSL after merger)

4. SEBI has sent show cause notice vide letter no: SEBI/EAD-3/BM/LD/31186/2021 against MOFSL dated November 01, 2021 based on Rule 4(1) of SEBI (Procedure of Holding inquiry and Imposing Penalties) Rules 1995 and Rule 4 (1) of Securities Contract Regulation (Procedure of Holding inquiry and Imposing Penalties) Rules 2005 where non-compliances observed during inspection viz: Mis-utilisation of client funds, Incorrect Reporting/Short collection of Margin, Client funding beyond stipulated time, Discrepancies in CKYC process, Non maintenance of evidence of client order placement, incorrect reporting of Weekly Enhanced Supervision data, are highlighted and have asked to revert with clarifications and supporting within 21 days from date of notice. MOFSL had asked for extension to file the revert which was considered by SEBI. Later, MOFSL had filed its reply to SEBI on 28th December, 2021. Personal hearing was conducted on 14th Feb 2022. Basis direction of Adjudicating officer we have filed additional data w.r.t Margin reporting wherein funds were transferred from one segment to another. SEBI vide adjudication order NO. ORDER/BM/LD/2022-23/16301 dated 29th April, 2022 have imposed the penalty of Rs. 25 lakhs which we have paid to SEBI on 23rd May, 2022.
