# About NASDAQ 100 Index

# Introduction

The **NASDAQ-100 Index**<sup>®</sup> includes 100 of the largest non-financial companies listed on The Nasdaq Stock Market<sup>®</sup>, based on market capitalization.

## Attributes –

- Includes **top 100 domestic and international** non-financial companies listed at NASDAQ Stock Market.
- Index reflects companies across **computer hardware, and software, telecommunications, retail/wholesale trade and biotechnology**.
- In order to avoid concentration, the maximum weight of any **index constituent is capped at 24%**; further total weight of stock with weight greater than 4.5% is capped at 48%.
- Index is **reviewed in December** each year
- Index has **very long track record**, first index values starts **since January 31, 1985** with **base value of 125**.
- While the Nasdaq-100 is home to some of the most well-known names in technology— including **Apple, Microsoft, Alphabet, Intel, and Facebook**—the index also includes category-defining companies on the forefront of innovation in other key industries such as **Amgen, Starbucks, and Tesla**.
- **Dollar hedge** for Indian investors
- **Very low correlation** with Indian equity market

# Why Nasdaq 100 Index?

# Low Correlation, offers diversification

Correlation Matrix	Nifty 50 TR Index	Nifty 500 TR Index	^S&P 500 TR Index (INR)	^NASDAQ 100 TR Index (INR)	Nifty 5 yr Benchmark G-Sec Index
Nifty 50 TR Index	100.0%	98.3%	25.2%	22.7%	11.9%
Nifty 500 TR Index		100.0%	23.9%	22.1%	12.4%
^S&P 500 TR Index (INR)			100.0%	35.8%	0.1%
^NASDAQ 100 TR Index (INR)				100.0%	6.6%
Nifty 5 yr Benchmark G-Sec Index					100.0%

**Lower the correlation number, better the diversification opportunity offered**

- No single strategy can provide consistent positive returns over all periods. Diversification is always considered a key investment strategy for long term investments.
- Diversification could be achieved by including assets that are not perfectly correlated to each other.

Source/Disclaimer : MOAMC, Data as of 31-Mar-24. # Only Debt schemes are managed by Rakesh Shetty. Past performance may or may not be sustained in the future. Performance is for Regular Plan Growth Option. Different plans have different expense structure.

# Key Takeaway

Key factors to be considered for ideal asset allocation:

1. NASDAQ 100 Index **includes top 100 non-financial companies** in the index. Historically, **majority of index weight was noted by global technology brands**. The index doesn't include financial companies.
2. **Motilal Oswal NASDAQ 100 ETF and FoF** offers investors an opportunity to invest in global technology companies that are part of NASDAQ 100 Index. It aims to earn index returns subject to tracking error. **Motilal Oswal NASDAQ 100 FoF** can be useful for investor with no demat account.
3. Historically, NASDAQ 100 Index had **relatively lower correlation** with Indian equity indices, thereby offering **diversification opportunity**.
4. Historically **NASDAQ 100 TR Index (in INR)** noted **better returns over NASDAQ 100 TR Index (in USD)**, due to INR depreciation
5. Due to recovery post recent crash due to Covid-19 Pandemic, the current **valuation multiple are above historical averages**.

This is not an index fund, it is ETF and Fund of Fund (FoF)

# Disclaimer

This presentation has been prepared and issued on the basis of internal data, publicly available information and other sources believed to be reliable. The information contained in this document is for general purposes only and not a complete disclosure of every material fact and terms and conditions. The information / data herein alone is not sufficient and shouldn't be used for the development or implementation of an investment strategy. It should not be construed as investment advice to any party.

All opinions, figures, charts/graphs, estimates and data included in this presentation are as on date and are subject to change without notice. The statements contained herein may include statements of future expectations and other forward-looking statements that are based on our current views and assumptions and involve known and unknown risks and uncertainties that could cause actual results, performance or events to differ materially from those expressed or implied in such statements. Readers shall be fully responsible / liable for any decision taken on the basis of this presentation. Investments in Securities are subject to market and other risks and there is no assurance or guarantee that the objectives of any of the Schemes will be achieved. The scheme may not be suited to all categories of investors.

The material is based upon information that we consider reliable, but we do not represent that it is accurate or complete, and it should not be relied upon as such. Opinions, if any, expressed are our opinions as of the date of appearing on this material only. While we endeavor to update on a reasonable basis the information discussed in this material, there may be regulatory, compliance, or other reasons that prevent us from doing so. Recipient shall understand that the aforementioned statements cannot disclose all the risks and characteristics. The recipient is requested to take into consideration all the risk factors including their financial condition, suitability to risk return, etc. and take professional advice before investing.

**Passive Investments** - The Scheme is not actively managed. Since the Scheme is linked to index, it may be affected by a general decline in the Indian markets relating to its underlying index. The Scheme as per its investment objective invests in Securities which are constituents of its underlying index regardless of their investment merit. The AMC does not attempt to individually select stocks or to take defensive positions in declining markets.

**Index Fund** - The Scheme being an index scheme follows a passive investment technique and shall only invest in Securities comprising one selected index as per investment objective of the Scheme. The Fund Manager would invest in the Securities comprising the underlying index irrespective of the market conditions. If the Securities market declines, the value of the investment held by the Scheme shall decrease.

## **Risks associated with overseas investment**

To the extent the assets of the scheme are invested in overseas financial assets, there may be risks associated with currency movements, restrictions on repatriation and transaction procedures in overseas market. Further, the repatriation of capital to India may also be hampered by changes in regulations or political circumstances as well as the application to it of other restrictions on investment. In addition, country risks would include events such as introduction of extraordinary exchange controls, economic deterioration, and bi-lateral conflict leading to immobilisation of the overseas financial assets and the prevalent tax laws of the respective jurisdiction for execution of trades or otherwise.

## **Currency Risk:**

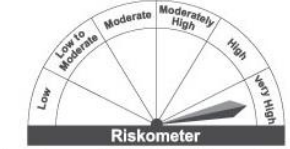

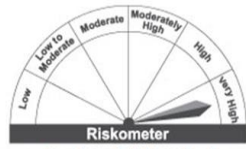

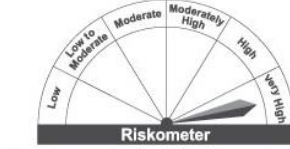

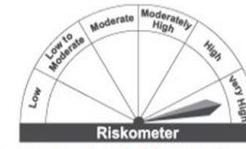

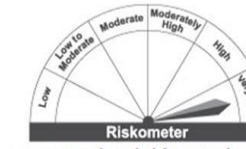

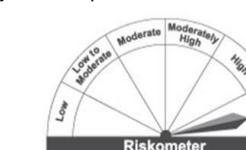

The fund may invest in overseas mutual fund / foreign securities as permitted by the concerned regulatory authorities in India. Since the assets will be invested in securities denominated in foreign currencies, the Indian Rupee equivalent of the net assets, distributions and income may be adversely affected by changes/fluctuations in the value of the foreign currencies relative to the Indian Rupee.

## **Country Risk:**

The Country risk arises from the inability of a country, to meet its financial obligations. It is the risk encompassing economic, social and political conditions in a foreign country, which might adversely affect foreign investors' financial interests.

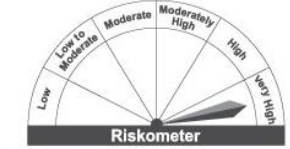

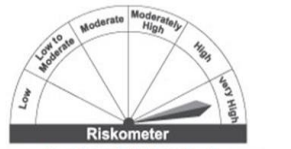

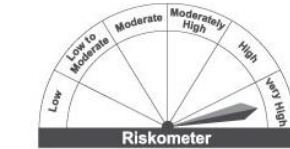

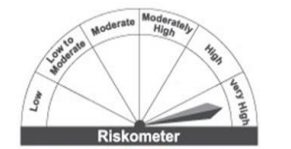

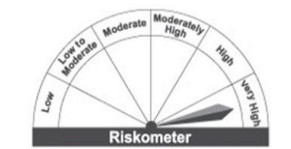

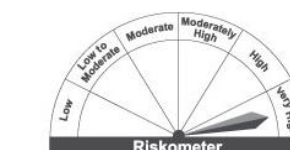

**Mutual Fund Investments are subject to market risks, read all scheme related documents carefully**
