

## KEY INFORMATION MEMORANDUM MOTILAL OSWAL ARBITRAGE FUND (An open-ended equity scheme investing in arbitrage opportunities) (Scheme Code: MOTO/O/H/ARB/24/07/0064)

\*Investors should consult their financial advisers if in doubt about whether the product is suitable for them.

The above product labelling assigned during the New Fund Offer (NFO) is based on internal assessment of the scheme characteristics or model portfolio and the same may vary post NFO when the actual investments are made

Offer for Units of face value Rs. 10 per unit during the New Fund Offer and Continuous offer for Units at NAV based price.

New Fund Offer Opens on: 16<sup>th</sup> December, 2024 New Fund Offer Closes on: 19<sup>th</sup> December, 2024 Scheme re-opens on: 27<sup>th</sup> December 2024

Name of Mutual Fund	Motilal Oswal Mutual Fund
Name of Asset Management Company (AMC)	Motilal Oswal Asset Management Company Limited (MOAMC)
Name of Trustee Company	Motilal Oswal Trustee Company Limited
Address	Registered Office: 10 <sup>th</sup> Floor, Motilal Oswal Tower, Rahimtullah Sayani Road, Opp. Parel ST Depot, Prabhadevi, Mumbai-400025
Website	www.motilaloswalmf.com

This Key Information Memorandum (KIM) sets forth the information, which a prospective investor ought to know before investing. For further details of the scheme/Mutual Fund, due diligence certificate by the AMC, Key Personnel, investors' rights & services, risk factors, penalties & pending litigations etc. investors should, before investment, refer to the Scheme Information Document and Statement of Additional Information available free of cost at any of the Investor Service Centers or distributors or from the website <u>www.motilaloswalmf.com</u>

The Scheme particulars have been prepared in accordance with Securities and Exchange Board of India (Mutual Funds) Regulations 1996, as amended till date, and filed with Securities and Exchange Board of India (SEBI). The units being offered for public subscription have not been approved or disapproved by SEBI, nor has SEBI certified the accuracy or adequacy of this KIM.

This Key Information Memorandum is dated December 5, 2024.

Investment Objective	The primary investment objective of the capital by predominantly investing in arb and derivate markets, as well as within investments in debt securities and money n	itrage opportunities p the derivative segr	present between the cash
	However, there can be no assurance that t realized.	he investment objecti	ve of the scheme will be
Asset Allocation Pattern of the	The asset allocation would be as follows:		
scheme	Indicative Allocations		
	Instruments	(% of total assets) Minimum	Maximum

Investment Strategy	between spot and futur opportunities available w Manager, suitable arbit	ate returns by strategically investing in e prices of exchange traded equiti ithin the derivative segment. If, in the trage opportunities are unavailable ort-term debt and money market securi	es and the arbitrage e opinion of the Fund e, the scheme may

Some of the arbitrage strategies that may be adopted by the fund manager from time to time include:
<b>Cash-Future Arbitrage</b> : Arbitrage captures the spread, between the price of a stock in the spot market and in the futures market on a market neutral basis. If the price of a stock in the futures market is higher than in the spot market, after adjusting for taxes and other costs the Scheme may buy the stock in the spot market and sell the same stock in equal quantity in the futures market simultaneously. This enables to the fund to earn the cost of carry between the stock and the futures of the stock.
If the futures are quoting at a discount to the price in the cash market before the expiry the trade may be reversed by buying the futures and selling the shares in the cash market which, will enhance the profit potential to the extent of discount between future as compared to cash market. Normally the price between cash and future segment tend to converge on the expiry day. The cash and future trade would be reversed on the expiry day to book the locked arbitrage profit.
Rolling over of the futures transaction:
Rolling over of the futures transaction means:
1) Unwinding the short position in the futures and simultaneously selling futures of a subsequent month; and
2) Holding onto the spot position. There could also be instances of unwinding both the spot and the future position before the expiry
of the current month future if it proves advantageous or to meet redemption
<b>Dividend Arbitrage</b> : Usually during the period prior to dividend declaration, the stock futures/options market can provide a profitable opportunity. Generally, the stock price declines by the dividend amount when the stock goes ex-dividend.
<b>Buy-back arbitrage</b> : When the company announces the buy-back of its own shares, there could be opportunities due to the price differential in buy-back price and traded price.
<b>Nifty Spot - Nifty Futures</b> : The pricing of Nifty Futures is derived from the Nifty. When the two go out of sync, there arises opportunities. The cost of carry binds the futures price to the price of the underlying asset.
For instance, the price of the Nifty futures at any given point in time should typically be more than the level of Nifty at that point of time. Cash and carry trades at times provide higher return than the prevailing interest rates. There is an opportunity to exploit by buying the index futures and selling the portfolio comprising of index stocks. The cash received upon the sale is reinvested at the risk-free rate of return till the expiration of the futures contract. The arbitrage profits come in at the expiration of the futures contract when the position is unwound by buying back the index stocks, or until expiry if the rates converge. The same strategy can be replicated with stock futures also
Buy Option: The options component would be actively managed in an attempt to take advantage of the volatility in the markets to enhance returns. The risk of investing in options is that the views of the portfolio manager may not materialize, and the entire

option premium paid could be lost. The scheme would also look at investment in the equities market including subscribing to IPOs. The provision for trading in derivatives is an enabling provision and it is not binding on the Scheme to undertake trading on a day-to-day basis. There are various possible combinations of strategies which may be adopted in a specific situation. The Fund Manager may apply such other arbitrage strategies as may be available/permissible under regulations from time to time.

## **Concepts and Examples**

## Futures

Futures (Index & Stocks) are forward contracts traded on the exchanges & have been introduced both by BSE and NSE. Currently futures of 1 month (near month), 2 months (next month) and 3 months (far month) are traded on these exchanges. These futures expire on the last working Thursday of the respective months.

## **Illustration with Index Futures**

In case the Nifty spot is trading at say, Rs. 11,700, and the fund manager has a view that it will depreciate going forward; the Scheme can initiate a sell transaction of Nifty futures at Rs. 11,736 without holding a portfolio of equity stocks or any other underlying long equity position. Once the price falls to Rs. 11,500 after say, 20 days, the Scheme can initiate a square-up transaction by buying the said futures and book a profit of Rs. 236.

Correspondingly, if the fund manager has a positive view he can initiate a long position in the index / stock futures without an underlying cash/ cash equivalent subject to the extant regulations.

There are futures based on stock indices as mentioned above as also futures based on individual stocks. The profitability of index /stock future as compared to an individual security will inter-alia depend upon:

- •The carrying cost,
- The interest available on surplus funds, and
- The transaction cost.

## Example of a typical future trade and the associated costs:

particular	Index	Actual
	Future	Purchase of
		Stocks
Index at the beginning of the month	11,700	11,700
Price of 1 Month Future	11,736	
A. Execution Cost: Carry and other index future	36	14.04
costs		
B. Brokerage Costs:	5.868	
(0.05% of Index Future and 0.12% for spot		
stocks)		
C. Gains on Surplus Funds:	49.195	0
(Assumed 6.00% p.a. return on 85% of the		
money left after paying 15% margin)		
(6.00%*11700*85%*30days/365)		
Total Cost (A+B-C)	-7.33	14.04

## (a) Arbitrage

(1) Buying spot and selling future: Where the stock of a company "A" is trading in the spot market at Rs. 100 while it trades at Rs. 102 in the futures market, then the Scheme may buy the stock at spot and sell in the futures market thereby earning Rs. 2.

Buying the stock in cash market and selling the futures results into a hedge where the Scheme has locked in a spread and is not affected by the price movement of cash market and futures market. The arbitrage position can be continued till expiry of the future contracts when there is a convergence between the cash market and the futures market. This convergence enables the Scheme to generate the arbitrage return locked in earlier.

(2) Selling spot and buying future: In case the Scheme holds the stock of a company "A" at say Rs. 100 while in the futures market it trades at a discount to the spot price say at Rs. 98, then the Scheme may sell the stock and buy the future

On the date of expiry of the stock future, the Scheme may reverse the transactions (i.e. buying at spot & selling futures) and earn a risk-free Rs. 2 (2% absolute) on its holdings without any dilution of the view of the fund manager on the underlying stock. Further, the Scheme can still benefit from any movement of the price in the upward direction, i.e. if on the date of expiry of the futures, the stock trades at Rs. 110 which would be the price of the futures too, the Scheme will have a benefit of Rs. 10 whereby the Scheme gets the 10% upside movement together with the 2% benefit on the arbitrage and thus getting a total return of 12%. The corresponding return in case of holding the stock would have been 10%. Note: The same strategy can be replicated with a basket of Nifty-50 stocks (Synthetic NIFTY) and the Nifty future index

(b) Buying/ Selling Stock future: When the Scheme wants to initiate a long position in a stock whose spot price is at say, Rs.100 and futures is at 98, then the Scheme may just buy the futures contract instead of the spot thereby benefiting from a lower cost. In case the Scheme has a bearish view on a stock which is trading in the spot market at Rs.98 and the futures market at say Rs. 100, the Scheme may subject to regulations, initiate a short position in the futures contract. In case the prices align with the view and the price depreciates to say Rs. 90, the Scheme can square up the short position thereby earning a profit of Rs.10 visa a vie a fall in stock price of Rs. 8.

(c) Hedging: The Scheme may use exchange-traded derivatives to hedge the equity portfolio. Both index and stock futures and options may be used to hedge the stocks in the portfolio. (d) Alpha Strategy: The Scheme will seek to generate alpha by superior stock selection and removing market risks by selling appropriate index. For example, one can seek to generate positive alpha by buying a bank stock and selling Bank Nifty future

Risk associated with these strategies:

1. Lack of opportunities;

2. Inability of derivatives to correlate perfectly with the underlying security; and

3. Execution risk, whereby ultimate execution takes place at a different rates than those devised by the strategy.

Execution of these strategies depends upon the ability of the fund manager to identify and execute based on such opportunities. These involve significant uncertainties and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

## **Option Contracts (Stock and Index)**

An Option gives the buyer the right, but not the obligation, to buy (call) or sell (put) a stock at an agreed-upon price during a certain period of time or on a specific date. Options are used to manage risk or as an investment to generate income. The price at which underlying security is contracted to be purchased or sold is called the Strike Price. Options that can be exercised on or before the expiration date are called American Options while, Options that can be exercised only on the expiration date are called European Options

Options Risk / Return Pay-off Table

Stock/ Index	Buy Call	Sell Call	Buy Put	Sell Put
Options				
View on	Positive	Negative	Negative	Positive
Underlying		-	-	
Premium	Pay	Receive	Pay	Receive
<b>Risk Potential</b>	Limited to	Unlimited	Limited to	Unlimited
	premium paid		premium paid	
Return	Unlimited	Premium	Unlimited	Premium
Potential		Received		Received

Note: The above table is for the purpose of explaining concept of options contract. As per the current Regulations, the Scheme cannot write option or purchase instrument with embedded write option.

Option contracts are of two types - Call and Put Call Option:

A call option gives the buyer, the right to buy specified quantity of the underlying asset at the set strike price on or before expiration date and the seller (writer) of call option however, has the obligation to sell the underlying asset if the buyer of the call option decides to exercise the option to buy.

Put Option: A put option gives the buyer the right to sell specified quantity of the underlying asset at the set strike price on or before expiration date and the seller (writer) of put option however, has the obligation to buy the underlying asset if the buyer of the put option decides to exercise his option to sell.

## Index Options / Stock Options

Index options / Stock options are termed to be an efficient way of buying / selling an index/stock compared to buying / selling a portfolio of physical shares representing an index for ease of execution and settlement. The participation can be done by buying / selling either Index futures or by buying a call/put option. The risks are also different when index /stock futures are bought/sold vis- a- vis index/ stocks options as in case of an index future there is a mark to market variation and the risk is much higher as compared to buying an option, where the risk is limited to the extent of premium paid. In terms of provision of SEBI circular dated August 18, 2010, the Scheme shall not write options or purchase instruments with embedded written options. The illustration below explains how one can gain using Index call / put option. These same principals of profit / loss in an Index option apply in toto to that for a stock option.

## Call Option

Suppose an investor buys a Call option on 1 lot of Nifty 50 (Lot Size: 75 units)
Nifty index (European option).

• Nifty 1 Lot Size: 75 units
• Spot Price (S): 11700
• Strike Price (x): 11800 (Out-of-Money Call Option)
• Premium: 56
Total Amount paid by the investor as premium $[75*56] = 4200$
There are two possibilities i.e. either the index moves up over the strike price or remains
below the
strike price.
State Proof
Case 1- The index goes up
• An investor sells the Nifty Option described above before expiry:
Suppose the Nifty index moves up to 12000 in the spot market and the premium has
moved to Rs
250 and there are 15 days more left for the expiry. The investor decides to reverse his
position in
the market by selling his 1 Nifty call option as the option now is In the Money.
His gains are as follows:
• Nifty Spot: 12000
• Current Premium: Rs.250
• Premium paid: Rs.56
• Net Gain: $Rs.250$ - $Rs.56 = Rs.194$ per unit
• Total gain on 1 lot of Nifty (75 units) = Rs.14550 (75*194)
In this case the premium of Rs.250 has an intrinsic value of Rs. 200 per unit and the
remaining Rs.
50 is the time value of the option.
An investor exercises the Nifty Option at expiry
Suppose the Nifty index moves up to 11900 in the spot market on the expiry day and the
investor
decides to reverse his position in the market by exercising the Nifty call option as the
option now
is in the money.
His gains are as follows:
Nifty Spot: 11900
Premium paid: Rs.56
• Exercise Price: 11800
• Receivable on exercise: 11900-11800 = 100
• Total Gain: Rs. 3300 {(100-56)*75}
In this case the realised gain is only the intrinsic value, which is Rs.100, and there is no
time
value.
Case 2 - The Nifty index moves to any level below 11800
Then the investor does not gain anything but on the other hand his loss is limited to the
premium
paid:
Net Loss is Rs.4200 (Loss is capped to the extent of Premium Paid) (Rs 56 Premium
paid*Lot
Size: 75 units).
Put Option
Suppose an investor buys a Put option on 1 lot of Nifty 50.
• Nifty 1 Lot Size: 75 units
• Spot Price (S): 11700
• Strike Price (x): 11600 (Out-of-Money Put Option)
• Premium: 40

• Total Amount paid by the investor as premium [75*40] = 3000
There are two possibilities i.e. either the index moves over the strike price or moves
below the strike price.
Let us analyze these scenarios.
Case 1 - The index goes down
• An investor sells the Nifty Option before expiry:
Suppose the Nifty index moves down to 11500 in the spot market and the premium has
moved to
Rs. 140 and there are 15 days more left for the expiry. The investor decides to reverse
his position
in the market by selling his 1 Nifty Put Option as the option now is in the money. His
gains are as
follows:
• Nifty Spot: 11500
• Premium paid: Rs.40
*
• Total gain on 1 lot of Nifty (75 units) = $Rs.7500 (100*75)$
In this case the premium of Rs.140 has an intrinsic value of Rs. 100 per unit and the
remaining
Rs.40 is the time value of the option.
An investor exercises the Nifty Option at expiry (It is an European Option)
Suppose the Nifty index moves down to 11500 in the spot market on the expiry day and
the
investor decides to reverse his position in the market by exercising the Nifty Put Option
as the
option now is in the money.
His gains are as follows:
• Nifty Spot: 11500
• Premium paid: Rs.40
• Exercise Price: 11600
• Gain on exercise: 11600-11500 = 100
<ul> <li>Total Gain: Rs.4500 {(100-40)*75}</li> </ul>
• Total Galli. KS.4500 {(100-40) 75}
In this case the realised amount is only the intrinsic value, which is Rs.100, and there is
•
no time value in this case.
Case 2 - If the Nifty index stays over the strike price which is 11600, in the spot market
then the investor does not goin anything but on the other hand his loss is limited to the promium
investor does not gain anything but on the other hand his loss is limited to the premium
paid. Nifty Spott $> 11700$
Nifty Spot: >11700
Net Loss Rs.3000 (Loss is capped to the extent of Premium Paid) (Rs. 40 Premium paid*Lot
paid*Lot
Size: 75 units).
Risk Control
Risk is an inherent part of the investment function. Effective Risk management is
critical to fund management for achieving financial soundness. Investment by the
Scheme would be made as per the investment objective of the Scheme and in
accordance with SEBI Regulations. AMC has adequate safeguards to manage risk in the
portfolio construction process. Risk control would involve managing risk in order to
keep in line with the investment objective of the Scheme. The risk control process
would include identifying the risk and taking proper measures for the same. The system

has incorporated all the investment restrictions as per the SEBI guidelines and enables identifying and measuring the risk through various risk management tools like various portfolio analytics, risk ratios, average duration and analyses the same and acts in a preventive manner.

## Risks associated with Segregated portfolio

The AMC / Trustee shall decide on creation of segregated portfolio of the Scheme in case of a credit event/actual default at issuer level. Accordingly, Investor holding units of segregated portfolio may not able to liquidate their holding till the time recovery of money from the issuer. The Security comprised of segregated portfolio may not realise any value. Further, listing of units of segregated portfolio in recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.

## Stock Lending

Stock Lending is lending of securities through an approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the securities borrowed.

The Scheme may lend securities from its portfolio in accordance with the Regulations and clause 12.11 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, as may be amended from time to time, the Scheme intends to engage in Stock Lending. The Scheme shall adhere to the following limits should it engage in Stock Lending.

- Not more than 20% of the net assets of the Scheme can be deployed in Stock Lending.
- Not more than 5% of the net assets of the Scheme can be deployed in Stock Lending to any single approved intermediary.

## Investment by AMC/Sponsor in the Scheme

AMC will invest in the scheme, pursuant to clause 6.9.2 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024 on Alignment of interest of AMCs with the Unitholders of MF Schemes as per the amount determined by applying the Risk Value % on the Quarterly Average Assets under management (QAAuM).

In addition to investments as mandated above, the AMC may invest in the Scheme during the NFO period as well as continuous offer period subject to the SEBI (MF) Regulations. The AMC shall not charge investment management fees on investment by the AMC in the Scheme.

## **Portfolio Turnover**

Portfolio Turnover is defined as the lower of sales or purchase divided by the average corpus during a specified period of time. The Scheme, being an open ended Scheme, it is expected that there would be a number of subscriptions and redemptions on a daily basis. However, it is difficult to measure with reasonable accuracy the likely turnover in the portfolio of the Scheme.

Risk Profile of	Mutual Fund Units involve investment risks including the possible loss of principal.
the Scheme	Please read the SID carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:
	Scheme Specific Risk Factors: The Scheme is subject to the principal risks described below. Some or all of these risks may adversely affect Scheme's NAV, yield, return and/or its ability to meet its objectives.
	• Risks related to Arbitrage Strategy In case of a large redemption, the scheme may need to reverse the spot-futures transaction before the date of futures' settlement. This eventuality may lead to the basis risk. While reversing the spot-futures transaction on the Futures & Options settlement day on the Exchange, there could be a risk of volume- weighted-average-price of the market being different from the price at which the actual reversal is processed. This may result in basis risk.
	On the date of expiry, when the arbitrage is to be unwound, it is not necessary for the stock price and its future contract to coincide. There could be a discrepancy in their prices even a minute before the market closes. Thus, there is a possibility that the arbitrage strategy gets unwound at different prices.
	• Market Risk The Scheme's NAV will react to stock market movements. The Investor may lose money over short or long period due to fluctuation in Scheme's NAV in response to factors such as performance of companies whose stock comprises the underlying portfolio, economic and political developments, changes in interest rates, inflation and other monetary factors and movement in prices of underlining investments.
	• Risks associated with investing in Equities Equity and Equity related instruments on account of its volatile nature are subject to price fluctuations on daily basis. The volatility in the value of the equity and equity related instruments is due to various micro and macro- economic factors affecting the securities markets. This may have adverse impact on individual securities /sector and consequently on the NAV of Scheme. The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities as in certain cases, settlement periods may be extended significantly by unforeseen circumstances. Similarly, the inability to sell securities held in the schemes portfolio may result, at times, in potential losses to the scheme, should there be a subsequently decline in the value of the securities held in the schemes portfolio. Trading volumes, settlement periods and transfer procedures may restrict the liquidity of the investments. This may impact the ability of the unit holders to redeem their units. In view of this, the Trustee has the right, in its sole discretion to limit redemptions (including suspending redemptions) under certain circumstances. The Scheme may find itself invested in unlisted securities due to external events or corporate actions. This may increase the risk of the portfolio as these unlisted securities are inherently illiquid in nature and carry larger liquidity risk as compared to the listed securities or those that offer other exit

options to the investors. Investments in equity and equity related securities involve high degree of risks and investors should not invest in the Scheme unless they can afford to take the risk of losing their investment.

## • Right to Limit Redemptions

The Trustee, in the general interest of the unit holders of the Scheme offered under this SID and keeping in view of the unforeseen circumstances/unusual market conditions, may limit the total number of Units which can be redeemed on any Business Day subject to the guidelines/circulars issued by the Regulatory Authorities from time to time.

## • Asset Class Risk

The returns from the types of securities in which the Scheme invests may underperform from the various general securities markets or different asset classes. Different types of securities tend to go through cycles of outperformance and under-performance in comparison with the general securities markets.

## • Interest Rate Risk

Changes in interest rates will affect the Scheme's Net Asset Value. The prices of securities usually increase as interest rates decline and usually decrease as interest rates rise. The extent of fall or rise in the prices is guided by duration, which is a function of the existing coupon, days to maturity and increase or decrease in the level of interest rate. The new level of interest rate is determined by the rate at which the government raises new money and/or the price levels at which the market is already dealing in existing securities. Prices of long-term securities generally fluctuate more in response to interest rate changes than short-term securities. The price risk is low in the case of the floating rate or inflation-linked bonds. The price risk does not exist if the investment is made under a repo agreement. Debt markets, especially in developing markets like India, can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby to possible movements in the NAV.

## • Credit Risk

Credit Risk means that the issuer of a security may default on interest payments or even paying back the principal amount on maturity. (i.e. the issuer may be unable to make timely principal and interest payments on the security). Even where no default occurs, the prices of security may go down because the credit rating of an issuer goes down. It must be, however, noted that where the Scheme has invested in Government securities, there is no risk to that extent.

## • Liquidity or Marketability Risk

This refers to the ease at which a security can be sold at or near its true value. The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is characteristic of the Indian fixed income market. Trading Volumes, settlement periods and transfer procedures may restrict the liquidity of the investments made by the Scheme. Different segments of the Indian financial markets have different settlement periods and such period may be extended significantly by unforeseen circumstances leading to delays in receipt of proceeds from sale of securities. As liquidity of the investments made by the Scheme could, at times, be restricted by trading volumes and settlement periods, the time taken by the Fund for redemption of units may be significant in the event of an inordinately large number of redemption requests or restructuring of the Scheme.

## • Risks associated with Investing in Derivatives

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of the fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

Derivative products are specialized instruments that require investment techniques and risk analysis different from those associated with stocks. The use of a derivative requires an understanding not only of the underlying instrument but of the derivative itself. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to forecast price or interest rate movements correctly. There is a possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the "counterparty") to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mis-pricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices, illiquidity risk whereby the Scheme may not be able to sell or purchase derivative quickly enough at a fair price.

The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

The derivatives market in India is nascent and does not have the volumes that may be seen in other developed markets, which may result in volatility to the values.

The Scheme(s) may face execution risk, whereby the rates seen on the screen may not be the rate at which the ultimate execution of the derivative transaction takes place.

The Scheme(s) may find it difficult or impossible to execute derivative transactions in certain circumstances. For example, when there are insufficient bids or suspension of trading due to price limit or circuit breakers, the Scheme(s) may face a liquidity issue.

Investments in index futures face the same risk as the investments in a portfolio of shares representing an index. The extent of loss is the same as in the underlying stocks.

The Scheme(s) bears a risk that it may not be able to correctly forecast future

market trends or the value of assets, indices or other financial or economic factors in establishing derivative positions for the Scheme.
There is the possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the "counter party") to comply with the terms of the derivatives contract. The counter party may default on a transaction before settlement and therefore, the Scheme(s) are compelled to negotiate with another counterparty at the then prevailing (possibly unfavourable) market price.
The risk of loss in trading futures contracts can be substantial, because of the low margin deposits required, the extremely high degree of leverage involved in futures pricing and the potential high volatility of the futures markets. Where derivatives are used for hedging, such use may involve a basic risk where the instrument used as a hedge does not match the movement in the instrument/underlying asset being hedged. The risk may be inter-related also e.g. interest rate movements can affect equity prices, which could influence specific issuer/industry assets.
• <b>Risks associated with Segregated portfolio</b> The AMC / Trustee shall decide on creation of segregated portfolio of the Scheme in case of a credit event/actual default at issuer level. Accordingly, Investor holding units of segregated portfolio may not able to liquidate their holding till the time recovery of money from the issuer. The Security comprised of segregated portfolio may not realise any value. Further, Listing of units of segregated portfolio in recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.
• Trading through mutual fund trading platforms of BSE and/ or NSE In respect of transaction in Units of the Scheme through BSE and/ or NSE, allotment and redemption of Units on any Business Day will depend upon the order processing/settlement by BSE and/ or NSE and their respective clearing corporations on which the Mutual Fund has no control.
• <b>Risks associated with Stock Lending</b> Stock Lending is a lending of securities through an SEBI approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the securities borrowed. In case the Scheme undertakes stock lending as prescribed in the Regulations, it may, at times be exposed to counter party risk and other risks associated with the securities lending. Unitholders of the Scheme should note that there are risks
inherent to securities lending, including the risk of failure of the other party, in this case the approved intermediary, to comply with the terms of the agreement entered into between the lender of securities i.e. the Scheme and the approved intermediary. Such failure can result in the possible loss of rights to the collateral put up by the borrower of the securities, the inability of the approved

intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities lent. The Fund may not be able to sell such lent securities and this can lead to temporary illiquidity.

## • Risk associated with investing in fixed income securities and Money Market Instruments

**a. Credit risk:** Credit risk or default risk refers to the risk which may arise due to default on the part of the issuer of the fixed income security (i.e. will be unable to make timely principal and interest payments on the security). Because of this risk debenture are sold at a yield spread above those offered on Treasury securities, which are sovereign obligations and generally considered to be free of credit risk. Normally, the value of a fixed income security will fluctuate depending upon the actual changes in the perceived level of credit risk as well as the actual event of default.

**b.** Counterparty risk: Counterparty refers to the counterparty's inability to honor its commitments (payment, delivery, repayment, etc.) and to risk of default. This risk relates to the quality of the counterparty to which the scheme has exposures. Losses can occur in particular for the settlement/delivery of financial instruments.

**c. Interest Rate risk:** This risk is associated with movements in interest rate depends on various factors such as government borrowing, inflation, economic performance etc. The value of investments will appreciate/depreciate if the interest rates fall/rise. However, if the investments are held on till maturity of the investments, the value of the investments will not be subjected to this risk. d. Reinvestment risk: This risk arises from uncertainty in the rate at which cash flows from the securities may be reinvested. This is because the bond will pay coupons, which will have to be reinvested. The rate at which the coupons are received.

**d. Liquidity or Marketability Risk:** This refers to the ease at which a security can be sold at or near its true value. The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is characteristic of the Indian fixed income market.

e. Different types of fixed income securities in which the Scheme would invest carry different levels and types of risk. Accordingly, the Scheme risk may increase or decrease depending upon its investment pattern. e.g. corporate bonds carry a higher level of risk than Government securities. Further even among corporate bonds, bonds, which are AAA rated, are comparatively less risky than bonds, which are AA rated.

f. The Net Asset Value (NAV) of the Scheme, to the extent invested in Debt and Money Market securities, will be affected by changes in the general level of interest rates. The NAV of the Scheme is expected to increase from a fall in interest rates while it would be adversely affected by an increase in the level of interest rates. **g. Settlement Risk:** Different segments of Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances. Delays or other problems in settlement of transactions could result in temporary periods when the assets of the Scheme are un invested and no return is earned thereon. The inability of the Scheme to make intended securities purchases, due to settlement problems, could cause the Scheme to miss certain investment opportunities. Similarly, the inability to sell securities held in the Scheme's portfolio, due to the absence of a well-developed and liquid secondary market for debt securities, may result at times in potential losses.

**h**. **Reinvestment risk**: Interest rates may vary from time to time. The rate at which intermediate cash flows are reinvested may differ from the original interest rates on the security, which can affect the total earnings from the security.

## • Risks associated with investing in Government of India Securities

a. Market Liquidity risk with fixed rate Government of India Securities even though the Government of India Securities market is more liquid compared to other debt instruments, on certain occasions, there could be difficulties in transacting in the market due to extreme volatility leading to constriction in market volumes. Also, the liquidity of the Scheme may suffer in case the relevant guidelines issued by Reserve Bank of India undergo any adverse changes.

b. Interest Rate risk associated with Government of India Securities - while Government of India Securities generally carry relatively minimal credit risk since they are issued by the Government of India, they do carry price risk depending upon the general level of interest rates prevailing from time to time. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates decline, the prices of fixed income securities increase. The extent of fall or rise in the prices is a function of the coupon rate, days to maturity and the increase or decrease in the level of interest rates. The price-risk is not unique to Government of India Securities. It exists for all fixed income securities. Therefore, their prices tend to be influenced more by movement in interest rates in the financial system than by changes in the government's credit rating. By contrast, in the case of corporate or institutional fixed income Securities, such as bonds or debentures, prices are influenced by their respective credit standing as well as the general level of interest rates.

## • Risks associated with investing in TREPS Segments

The mutual fund is a member of securities and TREPS segments of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in TREPS segments are settled centrally through the infrastructure and settlement systems provided by CCIL; thus reducing the settlement and counterparty risks considerably for transactions in the said segments. The members are required to contribute an amount as communicated by CCIL from time to time to the default fund maintained by CCIL as a part of the default waterfall (a loss mitigating measure of CCIL in case of default by any member in settling transactions routed through CCIL). The mutual fund is exposed to the extent of its contribution to the default fund of CCIL at any given point in time.

	In the event that the default waterfall is triggered and the contribution of the mutual fund is called upon to absorb settlement/default losses of another member by CCIL, the scheme may lose an amount equivalent to its contribution to the default fund allocated to the scheme on a pro-rata basis. • <b>Risk associated with potential change in Tax structure</b> This summary of tax implications given in the taxation section (Units and Offer Section III) is based on the current provisions of the applicable tax laws. This information is provided for general purpose only. The current taxation laws may change due to change in the 'Income Tax Act 1961' or any subsequent changes/amendments in Finance Act/Rules/Regulations. Any change may entail a higher outgo to the scheme or to the investors by way of securities transaction taxes, fees, taxes etc. thus adversely impacting the scheme and its returns.
	<b>Risk Control</b> Risk is an inherent part of the investment function. Effective Risk management is critical to fund management for achieving financial soundness. Investment by the Scheme would be made as per the investment objective of the Scheme and in accordance with SEBI Regulations. AMC has adequate safeguards to manage risk in the portfolio construction process. Risk control would involve managing risk in order to keep in line with the investment objective of the Scheme. The risk control process would include identifying the risk and taking proper measures for the same. The system has incorporated all the investment restrictions as per the SEBI guidelines and enables identifying and measuring the risk through various risk management tools like various portfolio analytics, risk ratios, average duration and analyses the same and acts in a preventive manner.
Plans/Options	The Scheme has two Plans:
	Regular Plan and Direct Plan
	Regular Plan is for Investors who purchase/subscribe units in a Scheme through any Distributor (AMFI Registered Distributor/ARN Holder).
	Direct Plan is for investors who purchase/subscribe units in a Scheme directly with the Fund and is not routed through a Distributor (AMFI Registered Distributor/ARN Holder).
	IDCW* (IDCW Payout and IDCW Reinvestment) and Growth.
	<b>IDCW Option: -</b> Under this Option, the Trustee reserves the right to declare IDCW under the Scheme depending on the net distributable surplus available under the Option. It should, however, be noted that actual declaration of IDCWs and the frequency of distribution will depend, inter-alia, on the availability of distributable surplus and will be entirely at the discretion of the Trustees or any Committee authorised by them.
	If IDCW payable under the IDCW payout option is equal to or less than Rs. 500/-, then it would be compulsorily re-invested in the Option of the Scheme. Pursuant to clause 11.2 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-

The investor shall from time to time intimate the Mutual Fund / its Registrar and Transfer Agents about any changes in the email address.
Monthly & Annual Disclosure of Risk-o-meter
The fund shall communicate any change in risk-o-meter by way of Notice cum Addendum and by way of an e-mail or SMS to unitholder. Further Risk-o-meter of scheme shall be evaluated on a monthly basis and Risk-o-meter along with portfolio shall be disclosed on website https://www.motilaloswalmf.com/download/regulatory- updates and on AMFI website within 10 days from the close of each month.
Additionally, MOMF shall disclose the risk level of all schemes as on March 31 of every year, along with number of times the risk level has changed over the year, on its website and AMFI website.
<b>Disclosure of Benchmark Risk-o-meter</b> Pursuant to clause 5.16.1 of SEBI Master Circular No SEBI/HO/IMD/IMD-PoD- 1/P/CIR/2024/90 dated June 27, 2024, the AMC shall disclose risk-o-meter of the scheme and benchmark in all disclosures including promotional material or that stipulated by SEBI wherever the performance of the scheme vis-à-vis that of the benchmark is disclosed to the investors in which the unit holders are invested as on the date of such disclosure. <u>https://www.motilaloswalmf.com/download/month-endportfolio</u>
Scheme Summary Document
Scheme Summary DocumentTheAMChasprovidedonitswebsite(https://www.motilaloswalmf.com/download/scheme-summarydocuments)Schemesummary document which is a standalone scheme document for all the Schemes whichcontains all the details of the Scheme.
<b>Monthly &amp; Half yearly Disclosures: Portfolio</b> The Mutual Fund / AMC shall disclose portfolio (along with ISIN) in a user friendly & downloadable spreadsheet format, as on the last day of the month/half year for the scheme(s) on its website ( <u>www.motilaloswalmf.com</u> ) and on the website of AMFI ( <u>www.amfiindia.com</u> ) within 10 days from the close of each month/half year.
In case of investors whose email addresses are registered with MOMF, the AMC shall send via email both the monthly and half yearly statement of scheme portfolio within 10 days from the close of each month/half year respectively.
The AMC shall publish an advertisement every half-year, in the all India edition of at least two daily newspapers, one each in English and Hindi, disclosing the hosting of the half yearly statement of the schemes portfolio on the AMC's website (www.motilaloswalmf.com) and on the website of AMFI (www.amfiindia.com). The

AMC shall provide physical copy of the statement of scheme portfolio on specific request received from investors.
Half yearly Disclosures: Financial Results
The Mutual Fund shall within one month from the close of each half year, that is on 31st March and on 30th September, host a soft copy of its unaudited financial results on its website. The mutual fund shall publish an advertisement disclosing the hosting of such financial results on their website <u>https://www.motilaloswalmf.com/download/financials</u> , in atleast one English daily newspaper having nationwide circulation and in a newspaper having wide circulation published in the language of the region where the Head Office of the Mutual Fund is situated.
Annual Report The Mutual Fund / AMC will host the Annual Report of the Schemes on its website ( <u>https://www.motilaloswalmf.com/download/financials</u> ) and on the website of AMFI (www.amfiindia.com) not later than four months (or such other period as may be specified by SEBI from time to time) from the date of closure of the relevant accounting year (i.e. 31st March each year).
The Mutual Fund / AMC shall mail the scheme annual reports or abridged summary thereof to those investors whose e-mail addresses are registered with MOMF. The full annual report or abridged summary shall be available for inspection at the Head Office of the Mutual Fund and a copy shall be made available to the investors on request at free of cost.
Investors who have not registered their e-mail id will have to specifically opt-in to receive a physical copy of the Annual Report or Abridged Summary thereof.
MOMF will publish an advertisement every year in the all India edition of at least two daily newspapers, one each in English and Hindi, disclosing the hosting of scheme wise Annual Report on the AMC website ( <u>www.motilaloswalmf.com</u> ) and on the website of AMFI ( <u>www.amfiindia.com</u> ).
<b>Product Dashboard</b> In accordance with clause 5.8.4 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD- 1/P/CIR/2024/90 dated June 27, 2024, the AMC has designed and developed the dashboard on their website wherein the investor can access information with regard to scheme's AUM, investment objective, expense ratios, portfolio details and past performance of all the schemes. <u>https://www.motilaloswalmf.com/mutual-funds</u> .

## TERMS AND CONDITIONS

#### Systematic Investment Plan (SIP)

Daily : Minimum ₹100 & in multiples of ₹1/- & minimum tenure shall be 1 month (30 Days)

- Daily SIP Frequency would not be available in case of Daily IDCW Plans of the Schemes & even SIP Pause facility not available for Daily SIP Frequency.
- Monthly, Weekly, Fortnightly : Minimum ₹ 500 & in multiples of ₹1/- & 12 installments

Incase SIP Amount ₹1000/- and above Minimum installments 6 Systematic Investment Plan (SIP)

Minimum installment amount - ₹500/- and in multiples of ₹500/- thereafter (weekly/fortnightly/monthly frequency)Minimum 12 installments.

Incase SIP Amount ₹1000/- and above Minimum installments 6

Quarterly : Minimum ₹1,500 & in multiples of ₹1/- & 4 installments

Investors can choose any date, as applicable, of his / her preference as Quarterly SIP Debit Date for the year. In case, the date fixed happens to be a holiday / non-business day, the same shall be affected on the next business day. Incase if no date is selected, 7th would be the default SIP Date. No Post Dated cheques would be accepted for SIP. The default cycle date would be 7th of SIP & STP for Monthly/Quarterly frequency. Annual SIP : Minimum ₹6,000 & in multiples of ₹1/- & 1 installments

Investors can choose any date, as applicable, of his / her preference as Annual SIP Debit Date for the year. In case the chosen date falls on a Non-Business Day, then the SIP will be processed on the immediate next Business Day. In case the SIP date is not specified or in case of ambiguity, the SIP transaction will be processed on 7th of the subsequent month in which application for SIP registration was received. In case the end date is not specified, SIP will continue till it receives termination notice from the investor

## Micro Systematic Investment Plan (SIP)

SEBI vide its circular dated 24th July 2012, conveyed that the investments aggregating ₹50,000 in a rolling 12 month period or in a financial year i.e. April to March, in all the schemes of Mutual Funds are exempt from the PAN requirement.

Where the aggregate of the Lumpsum Investment (Fresh Purchase & Additional Purchase) and Micro SIP installments by an investor based on the rolling 12 month period/ in a financial year i.e. April to March does not exceed ₹50,000/-, it shall be exempt from the requirement of PAN, (hereafter referred to as "Micro Investments").

PAN requirement exemption will be available only to Micro Investments made by the individuals being Indian Citizens (Including NRIs, Joint Holders\*, Minor acting through Guardian and Sole proprietory firms not having PAN). Person of Indian Origin, Hindu Undivided Family. (HUF), Qualified Foreign Investor (QFI) and other categories of investors will not be eligible for this exemption. However the eligible investors are required to submit PAN exempt KYC issued by SEBI registered KRA (KYC Registration Authority). In case of joint holders, first holder must possess a PAN.

## (Application not complying with any of the above instruction/guidelines would be rejected.) Any day / date SIP: SIP Frequency Choice of Day/Date\*

a. Daily SIP-Any date of the month except 29th, 30th and 31st b. Fortnightly SIP dates available – 1st – 14th, \*7th – 21st, 14th – 28th c. Weekly SIP-Any day of transfer from Monday to Friday.

d. Monthly SIP-Any date of the month except 29th, 30th and 31st

G. Working out Schwarz (all of the monitor except 201, but has 0 rates of the monitor except 20th, 30th and 31st
 f. the SIP will be processed on the immediate next Business Day. In case the SIP date is not specified or in case of ambiguity, the SIP transaction will be processed on 7th of the subsequent month in which application for SIP registration was received. In case the end date is not specified, SIP will continue till it receives termination notice. All other terms and conditions of SIP facility will remain unchanged.

#### SIP Booster" facility (SIP Booster)

- a) SIP Booster Physical facility offers frequency at i, quarterly, half-yearly and yearly intervals. In case the SIP Booster frequency is not specified, it will be considered as yearly frequency.
- b) The minimum SIP Booster amount would be Rs. 100/- and in multiples of Re. 1/- thereafter for all the schemes of the Fund that offer SIP facility
- In case the investor does not specify SIP Booster amount, Rs. 100/- will be considered as the SIP Booster amount and the request will be processed accordingly
- SIP Booster facility would be available to all Existing and new SIP enrollments. Existing investors who have enrolled for SIP with the maximum amount for debit are also eligible to avail SIP Booster facility and will be required to submit OTM Mandate' at least 20 calendar days before the SIP Booster start month. In case SIP Installment after SIP Booster exceeds the maximum amount for debit, then the request for SIP Booster will be processed up to the maximum amount for debit. Further, if the investor revises the maximum amount for debit, then such an increase in amount will be effective from the next SIP Booster cycle. However, the maximum amount registered for the debit. d) mandate cannot be reduced.

Existing investors registered for SIP through ECS / Direct Debit facility and intending to avail SIP Booster facility will be required to register for new OTM mandate and on activation of the OTM, the same would be applied on their active SIP to perform uninterrupted SIP debit instructions with SIP Booster details.

Maximum Limit will allow investors to set a highest SIP amount. Once the SIP reaches this set maximum limit it would stop any further additions and the SIP would thereafter continue with the last boosted amount, until the f) investor upgrades the limit.

An Illustration: The SIP Booster facility will work as follows:

Details of SIP registered	SIP Booster facility
<ul> <li>Fixed SIP Instalment amount: ₹ 5,000/-</li> <li>SIP Period: April 1, 2019 till March 31, 2022 (3 years)</li> <li>SIP date: 1st of every month (36 Instalments)</li> </ul>	By providing / choosing the following additional details, an investor can avail SIP Booster facility. Example: • SIP Booster Amount: ₹ 1,000/- • SIP Booster Frequency: Every 6 months • Max Sip limit:10,000

## INSTRUCTIONS FOR COMPLETING THE APPLICATION FORM

#### 1 General Information

- ease read the terms of the Key Information Memorandum (KIM) and the Scheme Information Document (SID) and Statement of Additional Information carefully before filling the Application Form. Investors are deemed to have accepted the terms subject to which this offer is being made and bind themselves to the terms upon signing the Application Form and tendering payment. The Application Form should be completed in ENGLISH and in BLOCK LETTERS only. Please tick in the appropriate box for
- relevant options wherever applicable. Please do not overwrite. For any correction / changes (if any) made on the Application Form, the sole/all applicants are requested to authenticate the same by canceling and re-writing the correct details and counter-signing the same. Applications completed in all respects, must be submitted at the Investor Service Centres (ISCs) /

Official Points of Acceptance. Investors can also subscribe to the Units of all scheme of Motilal Oswal Mutual Fund through the mutual fund trading platforms viz. BSE StAR MF of Bombay Stock Exchange Limited and Mutual Fund Service System (MFSS) of National Stock Exchange of India Limited. For further details, investors are advised to contact ISCs of Karvy or visit our website www.mostshares.com and www.motilaloswalmf.com. Please write the Serial Number of the Application Form / Folio Number on the reverse of the cheque / demand draft. Applications incomplete in any respect are liable to be rejected. The AMC / Trustee retains the sole and absolute discretion to reject any application.

#### C. Investments through distributors

As per directions of Securities and Exchange Board of India (SEBI), the distributors, agents or any persons employed or engaged or to be employed or engaged in the sale and/or distribution of mutual fund products are required to have a valid certification from the National Institute of Securities Markets (NISM) by passing the certification examination.

## Further, no agents / distributors are entitled to sell units of mutual funds unless the intermediary is registered with Association of Mutual Funds in India (AMFI). Applications on behalf of minors should be made by natural guardian (i.e. father or mother) or legal guardian (court appointed) d and signed by them. The name of the Guardian should be filled in the relevant space provided in the Application Form. No joint applicant/joint holder is permitted with the minor beneficiary

Employee Unique Identification Number (EUIN) Further, SEBI has made it compulsory for every employee/ relationship manager/ sales person of the distributor of mutual fund products to quote in the Application Form the EUIN obtained by him/her from AMFI. EUIN would assist in addressing any instance of mis-selling even if the employee/ relationship manager/sales person later leaves the employment of the distributor. Hence, if your investments are routed through a distributor please ensure that the EUIN is correctly filled in the Application Form. However, if your distributor has not given you any advice pertaining to the investment, the EUIN box may be left blank. In this case, you are required to provide a duly signed declaration to this effect, as given in the Form. Direct Investments

Investors applying under Direct Plan must mention "Direct" in ARN No. column. In case Distributor code is mentioned in the Application Form, but "Direct Plan" is indicated against the Scheme/ Series name, the Distributor code will be ignored and the application will be processed under Direct Plan. In case of valid application received without indicating "Direct Plan" against the Scheme/ Series name and without any Distributor Code mentioned on the form, the application will be processed under "Direct

- All Applicants are subject to detailed scrutiny and verification. Application Form incomplete in any respect or not accompanied q. by a Cheque /Demand Draft are liable to be rejected either at the collection centre itself or subsequently after detailed verification at the back office of the Registrars.
- h. If the Scheme name on the application form and on the payment instrument are different, the application will be processed and units will be allotted at applicable NAV of the scheme mentioned in the application / transaction slip duly signed by investor(s).

#### E-mail Communication

If the investor has provided an email address, the same will be registered in our records for communication and will be treated as your consent to receive, Allotment confirmations, consolidated account statement/account statement, annual report/abridged summary and any statutory / other information as permitted via electronic mode /email. These documents shall be sent physically in case the Unit holder opts/request for the same. Should the Unit holder experience any difficulty in accessing the electronically delivered documents, the Unit holder shall promptly intimate the Fund about the same to enable the Fund to make the delivery through alternate means. It is deemed that the Unit holder is aware of all security risks including

the Fund to make the delivery through alternate means. It is deemed that the Unit holder is aware of all security risks including possible third partly interception of the documents and contents of the documents becoming known to third parties. The AMC / Trustee reserve the right to send any communication in physical mode. **2 Compliance and Prevention of Anti Money Laundering** Your attention is particularly drawn to the section on "Prevention of Money Laundering and Know Your Customer". All the applications with incomplete/incorrect information/not accompanied with the necessary documents, shall be treated as invalid and shall be liable to be rejected. Prevention of Money Laundering Act, the SEBI Circulars on Anti Money Laundering (AML) and the Client Identification implementation procedures prescribed by AMFI inter alia require the AMC to verify the records of identity and address(es) of investors. It is mandatory for all applicants to submit necessary documents for compliance with Anti Money Laundering (auroria) to acco of prived. The AMC records the interview in the observed of approximation of the observed in the presence of approximation of the presence of approximation or and address(es) of investors. It is mandatory for all applicants to submit necessary documents for compliance with Anti Money Laundering (auroria) to acco of prived. Laundering (guardian in case of minor). The AMC reserves the right to reject subscription requests in the absence of appropriate compliance with the AMLLaws.

#### Applicant's Personal Information

- Please furnish your name and complete postal address with the Pin Code (P.O. Box No. Not enough) and your Contact Nos. This would help us reach you faster.
- Please furnish the name of Contact Person in case of investments by Company/ Body Corporate / Trust / Society / FIIs / b.
- Association of Person / Body of Individual: A relision in case of investments by Company body Corporate 7 rules / Society 7 rules / KYC Compliance : KYC is mandatory for all investors (including joint holders, guardians of minors and NRIs) to enclose a copy of KYC compliance to the application for investing in mutual fund schemes. If you have not indicated your Tax Status in the Application Form, the same would be assumed to be others.

#### 8 Demat Account

Investors have an option to hold the Units in dematerialized form. Investors desiring to get allotment of units in demat mode must have a beneficiary account with a Depository Participant (DP) of the Depositories i.e. National Securities Depositories Limited (NSDL) / Central Depository Services Limited (CDSL). If PAN is not mentioned by applicants, the application is liable to be rejected. Investors may attach a copy of the Client Master

From / DP statement showing active demat account details for verification. Names, mode of holding, PAN details, etc. of the Investor will be verified against the Depository data. The units will be credited to the beneficiary (demat) account only after successful verification with the depository records and realization of payment. In

case the demat details mentioned in the application are incomplete/incorrect or do not match with the depository data, the application shall be treated as invalid for processing under demat mode and therefore may be considered for processing in non-demat form i.e. in physical mode if the application is otherwise valid.

non-dematform i.e. in physical mode if the application is otherwise valid. All details such as address, bank details, nomination etc. will be applicable as available in the depositories' records. For effecting any subsequent changes to such information, Investors should approach their DP. Redemption requests for units held in demat mode must be submitted to DP or through Stock Exchange Platform, as applicable. Holding / transacting of units held in demat mode shall be in accordance with the procedures /requirements laid down by the Depositories, viz. NSDL/ CDSL in accordance with the provisions under the Depositories Act, 1996 and the regulations thereunder

#### 9 NRIs
