I. INTRODUCTION

A. RISK FACTORS

Standard Risk Factors:

- Investment in Mutual Fund units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- As the price/value/interest rates of the securities in which the Scheme invests fluctuates, the value of your investment in the Scheme may go up or down depending on various factors and forces affecting the capital market.
- Past performance of the Sponsor/AMC/Mutual Fund does not guarantee future performance of the Scheme.
- The name of the Scheme does not in any manner indicate either the quality of the Scheme or its future prospects and returns.
- The sponsor is not responsible or liable for any loss resulting from the operation of the Scheme beyond the initial contribution of Rs. 100,000 made by it towards setting up the Fund.
- The present Scheme is not a guaranteed or assured return Scheme.
- The NAV of the Scheme can go up or down depending on the factors and forces affecting the securities markets.
- Changes in Government policy in general and changes in tax benefits applicable to mutual funds may impact the returns to Investors in the Scheme.
- Investors in the Scheme are not being offered any guaranteed/indicated returns

Scheme Specific Risk Factors

The Scheme is subject to the principal risks described below. Some or all of these risks may adversely affect Scheme's NAV, trading price, yield, return and/or its ability to meet its objectives.

- **Risk associated with investing in Foreign Securities**

- a. The Scheme will invest in foreign securities. Such overseas investments will be made subject to any / all approvals, conditions thereof as may be stipulated by SEBI / RBI and provided such investments do not result in expenses to the Fund in excess of the ceiling on expenses prescribed by and consistent with costs and expenses attendant to international investing. The Fund may, where necessary, appoint other intermediaries of repute as advisors, custodian/sub-custodians etc. for administering such investments. The appointment of such intermediaries shall be in accordance with the applicable requirements of SEBI and within the permissible ceiling of expenses.
- b. As per the SEBI (MF) Regulation, the Fund is permitted to invest USD 1 billion. However, the overall limit for the Mutual Fund Industry is USD 7 billion. The Scheme therefore may or may not be able to utilise the limit of USD 1 billion due to the USD 7 billion limit being exhausted by other Mutual Funds. Further, the overall ceiling for investment in overseas Exchange Traded Funds (ETFs) that invests in securities is USD 1 billion subject to a maximum of USD 300 million per mutual fund. As and when the investment limits are breached, the subscriptions into the Scheme shall be suspended till further notice by the AMC.
- c. Mutual Funds can make investments in overseas Exchange Traded Fund (ETF(s)) subject to a maximum of USD 300 million per Mutual Fund, within the overall industry limit of USD 1 billion.
- d. As the Scheme will invest in securities which are denominated in foreign currencies, fluctuations in the exchange rates of these foreign currencies may have an impact on the income and value of the Fund. Thus, returns to investors are the result of a combination of returns from investments and from movements in exchange rates. Thus, the Indian rupee equivalent of the net assets, distribution and income may be adversely affected by changes in the exchange rates of respective foreign currencies relative to the Indian Rupee. Restrictions on currency trading that may be imposed by developing market countries will have an adverse effect on the value of the securities of companies that trade or operate in such countries. The repatriation of capital to India may also be hampered by changes in the regulations concerning exchange controls or political circumstances as well as the application to it of other restriction on investment.
- e. The risk of investing in foreign securities carries an exchange rate risks related to depreciation of foreign currency and country risks. The country risks would include events such as change in regulations or political circumstances like introduction of extraordinary exchange rate controls, restrictions on repatriation of capital due to exchange rate controls, bilateral political tensions leading to immobilisation of overseas financial assets and the prevalent tax laws of the respective jurisdiction for the execution of trades or otherwise.
- f. The Scheme shall invest in securities listed on the overseas stock exchange. Hence all the risk factors pertaining to overseas stock exchange like market trading risk, liquidity risk and volatility risk, as mentioned earlier, are also applicable to the Scheme. The Scheme will also be exposed to settlement risk, as different countries have different settlement periods.
- g. Some countries prohibit or impose substantial restrictions on investments by foreign entities. Certain countries may restrict investment opportunities in issuers or industries or securities deemed important to national interests. The manner, in which foreign investors may invest in companies/securities in certain countries, as well as limitations on such investments, may have an adverse impact on the operations of the Scheme. Certain risk arises from the inability of a country to meet its financial obligations. It is the risk encompassing economic, social and political conditions in a foreign country which might adversely affect the interests of the Scheme.

- h. The Scheme may invest in the units of overseas mutual fund schemes including exchange traded funds. Hence scheme specific risk factors of such underlying schemes will be applicable. All risks associated with such schemes, including performance of their underlying stocks, derivative instruments, stock-lending, off-shore investments, liquidity, etc., will therefore be applicable in this Scheme. Investors who intend to invest in the Scheme are required to and deemed to have understood the risk factors of the underlying schemes.

- **Risk associated with ETF**

1. **Passive Investments**

As the scheme proposes to invest not less than 95% of the net assets in the securities of the benchmark Index, the Scheme will not be actively managed. The Scheme may be affected by a general decline in the Indian markets relating to its Underlying Index. The Scheme invests in the securities included in its underlying index regardless of their investment merit. The AMC does not attempt to individually select stocks or to take defensive positions in declining markets. The value of the Scheme's investments, may be affected generally by factors affecting equity markets, such as price and volume volatility in the capital markets, interest rates, currency exchange rates, changes in policies of the Government, taxation laws or any other appropriate authority policies and other political and economic developments which may have an adverse bearing on individual securities, a specific sector or all sectors. Consequently, the NAV of the Units of the Scheme may fluctuate and can go up or down.

2. **Market risk:**

ETFs are typically designed to track the performance of certain indices, market sectors, or groups of assets such as stocks, bonds, or commodities. ETF managers may use different strategies to achieve this goal, but in general they do not have the discretion to take defensive positions in declining markets. Investors must be prepared to bear the risk of loss and volatility associated with the underlying index/assets.

3. **Tracking errors:**

Tracking errors refer to the disparity in performance between an ETF and its underlying index/assets. Tracking errors can arise due to factors such as the impact of transaction fees and expenses incurred to the ETF, changes in composition of the underlying index/assets, and the ETF manager's replication strategy.

4. **Trading at discount or premium:**

An ETF may be traded at a discount or premium to its Net Asset Value (NAV). This price discrepancy is caused by supply and demand factors, and may be particularly likely to emerge during periods of high market volatility and uncertainty.

5. **Liquidity risk:**

Authorized participants (APs) are Exchange Participants that provide liquidity to facilitate trading in ETFs. Although most ETFs are supported by one or more APs, there is no assurance that active trading will be maintained.

6. **As the units of the Scheme are listed on the Stock Exchange, trading in the units of the Scheme may be halted due to market conditions or for reasons that in the view of the Exchange Authorities or SEBI. There could also be trading halts caused by extraordinary market volatility and pursuant to NSE/BSE and SEBI circuit filter rules and the Scheme would not be able to buy/sell securities in case of subscriptions/redemptions, which may impact the Scheme. Further, there can be no assurance that the requirements of the exchange necessary to maintain the listing of the Scheme will continue to be met or will remain unchanged.**

7. **Listing and trading of the units are undertaken on the Stock Exchanges within the rules, regulation and policy of the Stock Exchange and SEBI. Any change in trading rules, regulation and policy by the regulatory authority would have a bearing on the trading of the units of the Scheme and its prices.**

8. Though the Scheme is listed on the NSE and BSE, there is no assurance that an active secondary market will develop or be maintained. Hence, there would be times when trading in the units of the Scheme would be infrequent.
9. The NAV of the Scheme reflect the valuation of its investment and any changes in market value of its investments would have a bearing on its NAV. When the units are traded on the Stock Exchange, the units of the Scheme may trade at prices which can be different from the NAV due to various factors like demand and supply for the units of the Scheme, perceived trends in the market outlook, etc.
10. In certain cases, settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities as in certain cases, settlement periods may be extended significantly by unforeseen circumstances. Similarly, the inability to sell securities held in the Scheme portfolio may result, at times, in potential losses to the Scheme, and there can be a subsequent decline in the value of the securities held in the Scheme portfolio.
11. Investors can directly approach the AMC for redemption of units of ETFs, for transaction of up to INR 25 Cr. without any exit load, in case of the following scenarios:
 - i. Traded price (closing price) of the ETF units is at discount of more than 1% to the day end NAV for 7 continuous trading days, or
 - ii. No quotes for such ETFs are available on stock exchange(s) for 3 consecutive trading days, or
 - iii. Total bid size on the exchange is less than half of creation unit size daily, averaged over a period of 7 consecutive trading days.
12. Investors should note that even though the Scheme is an open ended Scheme, subscription/redemptions directly with the Fund would be limited to such investors who have the ability to subscribe/redeem the units of the Scheme in specific lot sizes. Generally, these lot sizes are larger as compared to normal funds. Even though this Scheme is open ended due to large lot size, very few investors can directly subscribe and redeem the units of the Scheme. However, investors wishing to subscribe/redeem units in other than specific lot sizes can do so by buying/selling the same on the Stock Exchange unless no quotes are available on the exchange for 3 trading days consecutively.

Tracking error may arise due to various reasons like fees and expenses charged to the Scheme, dividend received, corporate actions, change in the Underlying Index, etc. Tracking error has an impact on the performance of the Scheme. The Scheme's returns may therefore deviate from those of its Underlying Basket. However, the Fund would endeavour to keep the tracking error as low as possible.

- **Risks associated with Investing in Derivatives**

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of the fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

Derivative products are specialized instruments that require investment techniques and risk analysis different from those associated with stocks. The use of a derivative requires an understanding not only of the underlying instrument but of the derivative itself. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to forecast price or interest rate movements correctly. There is a possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the “counterparty”) to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mispricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices, illiquidity risk whereby the Scheme may not be able to sell or purchase derivative quickly enough at a fair price. The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

- **Risks associated with Segregated portfolio**

The AMC / Trustee shall decide on creation of segregated portfolio of the Scheme in case of a credit event/actual default at issuer level. Accordingly, Investor holding units of segregated portfolio may not be able to liquidate their holding till the time recovery of money from the issuer. The Security comprised of segregated portfolio may not realise any value. Further, Listing of units of segregated portfolio in recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.

- **Risks associated with investing in TREPS Segments**

The mutual fund is a member of securities and TREPS segments of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in TREPS segments are settled centrally through the infrastructure and settlement systems provided by CCIL; thus reducing the settlement and counterparty risks considerably for transactions in the said segments. The members are required to contribute an amount as communicated by CCIL from time to time to the default fund maintained by CCIL as a part of the default waterfall (a loss mitigating measure of CCIL in case of default by any member in settling transactions routed through CCIL). The mutual fund is exposed to the extent of its contribution to the default fund of CCIL at any given point in time. In the event that the default waterfall is triggered and the contribution of the mutual fund is called upon to absorb settlement/default losses of another member by CCIL, the scheme may lose an amount equivalent to its contribution to the default fund allocated to the scheme on a pro-rata basis.

- **Risks associated with investing in Equities**

- a. Investments in the equity shares of the Companies constituting the Underlying Index are subject to price fluctuation on daily basis. The volatility in the value of equity is due to various micro and macro-economic factors like economic and political developments, changes in interest rates, etc. affecting the securities markets. This may have adverse impact on individual securities/sector and consequently on the NAV of Scheme.

- b. The Scheme would invest in the securities comprising the Underlying Index in the same proportion as the securities have in the Index. Hence, the risk associated with the corresponding Underlying Index would be applicable to the Scheme. The Underlying Index has its own criteria and policy for inclusion/exclusion of securities from the Index, its maintenance thereof and effecting corporate actions. The Fund would invest in the securities of the Index regardless of investment merit, research, without taking a view of the market and without adopting any defensive measures. The Fund would not select securities in which it wants to invest but is guided by the Underlying Index. As such the Scheme is not actively managed but is passively managed.

- c. Risks of Total Return

Dividends are assumed to be reinvested into the Nasdaq 100 Total Return Index after the ex-Dividend date of the constituents. However in practice, the Dividend is received with a lag and after deducting applicable withholding tax, if applicable. This can lead to some tracking error.

- **Market Risk**

The Scheme's NAV will react to stock market movements. The value of investments in the scheme may go down over a short or long period due to fluctuations in Scheme's NAV in response to factors such as performance of companies whose stock comprises the underlying portfolio, economic and political developments, changes in government policies, changes in interest rates, inflation and other monetary factors causing movement in prices of underlying investments.

- **Concentration risk**

This is the risk arising from over exposure to few securities/issuers/sectors.

- **Passive Investments**

The Scheme is not actively managed. Since the Scheme is replicating the underlying index, it may be affected by a general decline in the respective markets relating to its underlying index. The Scheme as per its investment objective invests in Securities which are constituents of its underlying index regardless of their investment merit. The AMC does not attempt to individually select stocks or to take defensive positions in declining markets.

- **Right to Limit Redemptions**

The Trustee, in the general interest of the unit holders of the Scheme offered under this SID and keeping in view of the unforeseen circumstances/unusual market conditions, may limit the total number of Units which can be redeemed on any Business Day subject to the guidelines/circulars issued by the Regulatory Authorities from time to time.

- **Risk Factors relating to Portfolio Rebalancing**

In the event that the asset allocation of the Scheme deviates from the ranges as provided in the asset allocation table in this SID, then the Fund Manager will rebalance the portfolio of the Scheme to the position indicated in the asset allocation table. However, if market conditions do not permit the Fund Manager to rebalance the portfolio of the Scheme then the AMC would notify the Board of the Trustee Company and the Investment Committee of the AMC with appropriate justifications.

- **ETF Fund**

The Scheme being an ETF fund follows a passive investment technique and shall only invest in Securities comprising one selected index as per investment objective of the Scheme. The Fund Manager would invest in the Securities comprising the underlying index irrespective of the market conditions. If the Securities market declines, the value of the investment held by the Scheme shall decrease.

- **Risks associated with Securities Lending**

Securities Lending is a lending of securities through an approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the securities borrowed.

In case the Scheme undertakes stock lending as prescribed in the Regulations, it may, at times be exposed to counter party risk and other risks associated with the securities lending. Unitholders of the Scheme should note that there are risks inherent to securities lending, including the risk of failure of the other party, in this case the approved intermediary, to comply with the terms of the agreement entered into between the lender of securities i.e. the Scheme and the approved intermediary. Such failure can result in the possible loss of rights to the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender

and the possible loss of any corporate benefits accruing to the lender from the securities lent. The Fund may not be able to sell such lent securities and this can lead to temporary illiquidity.

- **Trading through mutual fund trading platforms of BSE and/ or NSE**

In respect of transaction in Units of the Scheme through BSE and/ or NSE, allotment and redemption of Units on any Business Day will depend upon the order processing/settlement by BSE and/ or NSE and their respective clearing corporations on which the Mutual Fund has no control.

- **Risk associated with potential change in Tax structure**

This summary of tax implications given in the taxation section (Units and Offer Section III) is based on the current provisions of the applicable tax laws. This information is provided for general purpose only. The current taxation laws may change due to change in the 'Income Tax Act 1961' or any subsequent changes/amendments in Finance Act/Rules/Regulations. Any change may entail a higher outgo to the scheme or to the investors by way of securities transaction taxes, fees, taxes etc. thus adversely impacting the scheme and its returns

Risk Control

Risk is an inherent part of the investment function. Effective Risk management is critical to fund management for achieving financial soundness. Investment by the Scheme would be made as per the investment objective of the Scheme and in accordance with SEBI Regulations. AMC has adequate safeguards to manage risk in the portfolio construction process. Risk control would involve managing risk in order to keep in line with the investment objective of the Scheme. The risk control process would include identifying the risk and taking proper measures for the same. The system has incorporated all the investment restrictions as per the SEBI guidelines and enables identifying and measuring the risk through various risk management tools like various portfolio analytics, risk ratios, average duration and analyses the same and acts in a preventive manner.

B. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME

As Motilal Oswal Nasdaq 100 ETF is an exchange traded fund, the provisions of minimum number of investors and maximum holding by the investor is not applicable as per clause 6.11 of SEBI Master Circular No. SEBI /HO/IMD/ IMD-PoD-1 / P/ CIR / 2023/74 dated May 19, 2023.

C. SPECIAL CONSIDERATIONS

- Prospective investors should study this SID and SAI carefully in its entirety and should not construe the contents hereof as advise relating to legal, taxation, financial, investment or any other matters and are advised to consult their legal, tax, financial and other professional advisors to determine possible legal, tax, financial or other considerations of subscribing to or redeeming units, before making a decision to invest/redeem/hold units.
- Neither this SID and SAI nor the units have been registered in any jurisdiction. The distribution of this SID or SAI in certain jurisdictions may be restricted or totally prohibited to registration requirements and accordingly, any person who comes into possession of this SID or SAI is required to inform themselves about and to observe any such restrictions and/or legal compliance requirements. It is the responsibility of any persons in possession of this SID or SAI and any persons wishing to apply for units pursuant to this SID to inform themselves of and to observe, all applicable laws and Regulations of such relevant jurisdiction. Any changes in SEBI/Stock Exchange/RBI regulations and other applicable laws/regulations could have an effect on such investments and valuation thereof.
- The AMC, Trustee or the Mutual Fund have not authorized any person to issue any advertisement or to give any information or to make any representations, either oral or written, other than that contained in this SID or SAI or as provided by the AMC in connection with this offering. Prospective Investors are advised not to rely upon any information or representation not incorporated in the SID or SAI or as provided by the AMC as having been authorized by the Mutual Fund, the AMC or the Trustee.

- The tax benefits described in this SID and SAI are as available under the present taxation laws and are available subject to relevant conditions. The information given is included only for general purpose and is based on advise received by the AMC regarding the law and practice currently in force in India as on the date of this SID and the Unitholders should be aware that the relevant fiscal rules or their interpretation may change. As is the case with any investment, there can be no guarantee that the tax position or the proposed tax position prevailing at the time of an investment in the Scheme will endure indefinitely. In view of the individual nature of tax consequences, each Unitholder is advised to consult his / her own professional tax advisor.
- Redemptions due to change in the fundamental attributes of the Scheme or due to any other reasons may entail tax consequences. The Trustee, AMC, Mutual Fund, their directors or their employees shall not be liable for any of the tax consequences that may arise.
- The Trustee, AMC, Mutual Fund, their directors or their employees shall not be liable for any of the tax consequences that may arise, in the event that the Scheme is wound up for the reasons and in the manner provided in SAI.
- IDCWs paid on the common or preferred stock of US companies in which the Scheme would invest are generally subject to US federal withholding tax at the applicable rate. The Scheme would receive IDCW after such withholding tax. The Scheme shall claim the reduced rate of withholding under the Double Tax Avoidance Agreement between India and US, to the extent permitted.
- The Mutual Fund may disclose details of the investor's account and transactions there under to those intermediaries whose stamp appears on the application form or who have been designated as such by the investor. In addition, the Mutual Fund may disclose such details to the bankers, as may be necessary for the purpose of effecting payments to the investor. The Fund may also disclose such details to regulatory and statutory authorities/bodies as may be required or necessary.
- MOAMC undertakes the following activities other than that of managing the Schemes of MOMF and has also obtained NOC from SEBI for the same:
 - a) MOAMC is a registered Portfolio Manager under SEBI (Portfolio Managers) Regulations, 1993 bearing registration number INP000000670 dated August 21, 2017.

Creation of segregated portfolio:

A. Introduction:

SEBI vide clause 4.4.4 of SEBI Master Circular No. SEBI /HO/IMD/ IMD-PoD-1 / P/ CIR / 2023/74 dated May 19, 2023, has advised that portfolios by mutual fund schemes investing in debt and money market instruments should have provision in the concerned SID for creating portfolio segregation with a view to,

- 1) Reducing Sharp fall in NAV of Schemes.
- 2) Reducing Redemption pressure & liquidity risk,
- 3) Safeguarding good quality papers & creating confidence in market, and
- 4) Mitigating reputational risk.
- 5) Accordingly, this policy is being laid down to comply with the SEBI instructions

Segregated Portfolio: The portfolio comprising of debt and money market instruments, which might be affected by a credit event and shall also include the unrated debt or money market instruments affected by actual default.

Main Portfolio: Scheme portfolio excluding segregated portfolio

Total Portfolio: Scheme portfolio including the securities affected by credit events

B. Need for segregated portfolio:

While very stringent internal credit evaluation norms are being followed by AMC/Mutual Fund, the risk of credit downgrade in portfolio companies due to various factors cannot be ruled out. In the event of credit downgrade the downgrade instrument generally become illiquid making it very difficult for the fund manager to dispose of such instrument/s. In such an event segregation of such an instrument from the main portfolio will prevent the distressed asset(s) damaging the returns generated from more liquid and better-performing assets of the portfolio. It also provides fair treatment to all existing, incoming and outgoing investors, as any recovery from the issuer in future would get distributed among those investors, who would have suffered a loss due to downgrade event.

C. Credit Events

Segregated portfolio may be created, in case of a credit event at issuer level i.e. downgrade in credit rating by a SEBI registered Credit Rating Agency (CRA), as under:

- 1) Downgrade of a debt or money market instrument to ‘below investment grade’, or
- 2) Subsequent downgrades of the said instruments from ‘below investment grade’, or
- 3) Similar such downgrades of a loan rating.

The most conservative rating shall be considered, if there is difference in rating by multiple CRAs, Creation of segregated portfolio shall be based on issuer level credit events as detailed at “Credit Events” and implemented at the ISIN level.

Actual default (for unrated debt or money market instruments)

In case of unrated debt or money market instruments, the actual default of either the interest or principal amount by the issuer.

On occurrence of any default, the AMC shall inform AMFI immediately about the actual default by the issuer. Subsequent to dissemination of information by AMFI about actual default by the issuer, the AMC might segregate the portfolio of debt or money market instruments of the said issuer.

D. Segregate portfolio creation process

Creation of segregated portfolio shall be optional and at the discretion of the AMC/ Trustees.

- a. The AMC may decide on creation of segregated portfolio on the day of credit event/ actual default (as applicable). Segregated portfolio has to be created at the issuer level i.e. the scheme having multiple segregated portfolios will have multiple segregated portfolios. Once decided, AMC shall –
 - i. Seek Trustee prior approval,
 - ii. Issue a press release immediately mentioning its intention to segregate such debt and money market instrument and its impact to investors. It should also disclose that the segregation shall be subject to trustee approval. Additionally, the said press release to be prominently disclosed on the website of the AMC.
 - iii. The Trustee approval has to be secured in not more than one business day from the credit event/actual default date & meanwhile the subscription and redemption in the scheme shall be suspended for processing with respect to creation of units and payment on redemptions.
- b. On receipt of the Trustee approval –
 - i. the segregated portfolio shall be created effective from credit event/actual default date
 - ii. AMC shall issue press release immediately mentioning all details pertaining to the segregated portfolio. The said information shall also be submitted to SEBI.

- iii. An e-mail or SMS should be sent to all unit holders of the concerned scheme.
- iv. The NAV of both segregated and main portfolio shall be disclosed from the day of the credit event/ Actual Default.
- v. All existing investors in the scheme as on the day of the credit event/actual default date will be allotted equal number of units in the segregated portfolio as held in the main portfolio.
- vi. No redemption or subscription will be allowed in the segregated portfolio/s. However, AMC shall enable the listing of the units of the segregated portfolio on recognized stock exchange within 10 working days from the date of its creation and shall also enable transfer of units on receipt of transfer request.
- c. If the trustees do not approve the proposal to segregate portfolio, AMC shall issue a press release immediately informing investors of the same.

E. Disclosure Requirements

Communication to the investors, NAV disclosure and other disclosure including scheme performance requirements for segregated portfolio shall be as per the norms specified in the above SEBI circular.

MOAMC will comply with all communication requirements /disclosure requirements prescribed by SEBI in an event of creation of segregated portfolio. This shall include disclosures of NAV, issue of account statement, press release announcing credit event and creation of segregated portfolio/s, Disclosure of segregated portfolio in (Monthly/Half Yearly) portfolio statement, etc.

The information regarding number of segregated portfolios created in a scheme shall appear prominently under the name of the scheme at all relevant places such as SID, KIM-cum-Application Form, advertisement, AMC and AMFI websites, etc.

If the Trustee rejects the segregated portfolio proposal then AMC to issue press release and inform the decision of the Trustee to investors, post which subscription and redemption applications will be processed based on the NAV of total portfolio.

F. Valuation of security:

From the date of credit downgrade to non-investment grade, the Security shall be valued based on principal of fair valuation & hair cut prescribed by the AMFI till the time valuation agency(ies) start providing valuation for the security.

The valuation of the instruments/portfolio shall be done based on the quote/price obtained from the independent valuation agency(ies). In cases where quote/price is not available from an independent agency, the Valuation Committee will decide the methodology for valuation of such instruments/portfolio.

All subscription and redemption requests for which NAV of the day of credit event/ Actual Default or subsequent day is applicable will be processed as per the existing circular on applicability of NAV as under:

- i. Upon trustees' approval to create a segregated portfolio –
 - Investors redeeming their units will get redemption proceeds based on the NAV of main portfolio and will continue to hold the units of segregated portfolio.
 - Investors subscribing to the scheme will be allotted units only in the main portfolio based on its NAV.
- ii. In case trustees do not approve the proposal of segregated portfolio, subscription and redemption applications will be processed based on the NAV of total portfolio.

G. Total Expense Ratio (TER) for segregated portfolio:

AMC shall not charge investment and advisory fees on the segregated portfolio.

TER (including legal charges and excluding the investment and advisory fees) shall be charged pro-rata basis only on upon recovery of investment in the segregated portfolio. The legal charges related to recovery of the investments of the segregated portfolio may be charged to the segregated portfolio in proportion to the amount of recovery. The maximum TER limit shall be same as applicable to the main portfolio. TER in excess of limit shall be borne by AMC. However, the costs related to segregated portfolio shall in no case be charged to the main portfolio.

The TER so levied shall not exceed the simple average of such expenses (excluding the investment and advisory fees) charged on daily basis on the main portfolio (in % terms) during the period for which the segregated portfolio was in existence.

H. Distribution of recovery:

Any recovery of investment of the segregated portfolio/s (including recovery after write-off) shall be distributed immediately to the investors in proportion to their holdings in the segregated portfolio/s.

I. Monitoring of segregated portfolio:

Trustees shall monitor the compliance of the SEBI Circular in respect of creation of segregated portfolio and disclosure in this respect shall be made in Half-Yearly Trustee reports to be filed with SEBI.

J. Evaluation of negative impact on the performance incentives:

In order to avoid mis-use of the segregated portfolio, Trustees will put in place a mechanism to evaluate the negative impact of such segregation, on the performance incentives of the Fund Managers, Chief Investment Officers (CIOs), etc. involved in the investment process of securities under the segregated portfolio, mirroring the existing mechanism for performance incentives of MOAMC., including claw back of such amount to the segregated portfolio of the scheme.

The amount forfeited shall be credited to the segregated portfolio of the concern scheme(s) in the ratio of value of the securities downgraded in the respective schemes before the credit event.

K. Action Taken Report:

AMC shall put sincere efforts to recover the bad investment. An Action Taken Report should be prepared and placed before the Board of Trustee meeting/s till the matter is finally resolved.

II. INFORMATION ABOUT THE SCHEME

A. TYPE OF THE SCHEME

An open ended scheme replicating/tracking NASDAQ-100 Total Return Index.

B. INVESTMENT OBJECTIVE

The Scheme seeks investment return that corresponds (before fees and expenses) generally to the performance of the NASDAQ-100 Total Return Index subject to tracking error.

However, there can be no assurance or guarantee that the investment objective of the Scheme would be achieved.

C. ASSET ALLOCATION

Under normal circumstances, the asset allocation pattern of the Scheme is as follows:

Instruments	Indicative allocations (% of total assets)		Risk Profile
	Minimum	Maximum	High/Medium/Low
Securities constituting NASDAQ-100 Total Return Index	95	100	Medium to High
Overseas Debt and Money market instruments and cash at call, mutual fund schemes or exchange traded funds based on NASDAQ-100 Total Return Index	0	5	Low to Medium

The Scheme may take an exposure to derivatives of the Underlying Index or constituents of the Underlying Index for short duration when the securities of the Underlying Index are unavailable, insufficient or for rebalancing at the time of change in Underlying Index or in case of corporate actions. The total exposure to derivatives would be restricted to 10% of the net assets of the Scheme. The aggregate asset allocation including exposure to derivatives will not exceed 100% of net assets of the Scheme. The margin paid for derivative instruments will form part of Debt and Money market Instruments. All overseas investments mentioned above would comply with the provisions of clause 12.19 of SEBI Master Circular No. SEBI /HO/IMD/ IMD-PoD-1 / P/ CIR / 2023/74 dated May 19, 2023.

The cumulative gross exposure through equity, debt, derivative positions, other permitted securities/assets and such other securities/assets as may be permitted by the Board from time to time will not exceed 100% of the net assets of the scheme, subject to approval if any.

Change in Asset Allocation

Subject to the Regulations, the asset allocation pattern indicated above for the Scheme may change from time to time, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. In the event that the asset allocation of the Scheme should deviate from the ranges as noted in the asset allocation table above, then the portfolio of the Scheme will be rebalanced by the Fund Manager to the position indicated in the asset allocation table above. Such changes in the asset allocation will be for short term and defensive considerations. In case of deviation, if any, from the asset allocation pattern, the AMC shall rebalance the portfolio within a period of 7 calendar days. Where the portfolio is not rebalanced within 7 calendar days, justification for the same shall be placed before the Investment Committee and reasons for the same shall be recorded in writing. The Investment Committee shall then decide on the course of action.

Portfolio rebalancing:

In case of change in constituents of the index due to periodic review, the portfolio of ETF shall be rebalanced within 7 calendar days. Any transactions undertaken in the scheme portfolio of ETF in order to meet the redemption and subscription obligations shall be done while ensuring that post such transactions replication of the portfolio with the index is maintained at all points of time.

D. INVESTMENT BY THE SCHEME

Investment in Equity and equity related Instruments

The Scheme will invest in the securities which are constituents of NASDAQ-100 Total Return Index. The securities are traded on The NASDAQ Stock Market. As per clause 12.19 of SEBI Master Circular No. SEBI /HO/IMD/ IMD-PoD-1 / P/ CIR / 2023/74 dated May 19, 2023, the limits for overseas investment is subject to a maximum of USD 1 billion per mutual fund. As and when this limit is revised or modified, the Fund shall adopt such new limits. The investment restrictions and the limits as per SEBI (Mutual Funds) Regulations, 1996 are mentioned under the section 'Investment Restrictions'. The investment in NASDAQ-100 constituents would be in USD equivalent to the amount received in INR by the Scheme.

Investment in Debt and Money market instruments

The Scheme may also invest in overseas debt and money market instruments. As per clause 12.19 of SEBI Master Circular No. SEBI /HO/IMD/ IMD-PoD-1 / P/ CIR / 2023/74 dated May 19, 2023, the limits for overseas investment is subject to a maximum of USD 1 billion per mutual fund. As and when this limit is revised or modified, the Fund shall adopt such new limits. The investment restrictions and the limits are specified in the Schedule VII of SEBI (Mutual Funds) Regulations, 1996 which are mentioned in the section 'Investment Restrictions'.

Investment in units of overseas mutual fund schemes

The Scheme may invest in units of mutual fund schemes including Exchange Traded Funds which are based on NASDAQ-100 Index and shall comply with the provisions of clause 12.19 of SEBI Master Circular No. SEBI /HO/IMD/ IMD-PoD-1 / P/ CIR / 2023/74 dated May 19, 2023 and as per the above clause the limits for overseas investment is subject to a maximum of USD 600 million per mutual fund and the limits for investments in overseas Exchange Traded Funds that invest in securities is subject to a maximum of USD 200 million per mutual fund, within the overall industry limit of US \$ 1 billion. As and when this limit is revised or modified, the Fund shall adopt such new limits.

As mentioned under SEBI Regulations, the restriction on the investments in mutual fund units upto 5% of net assets and prohibiting charging of fees on the same, shall not be applicable to investments in mutual funds units in foreign countries. However, the management fees and other expenses charged by the mutual fund in foreign countries along with the management fee and recurring expenses charged to the domestic mutual fund scheme shall not exceed the total limits on expenses as prescribed under Regulation 52(6). Where the scheme is investing only a part of the net assets in the foreign mutual funds, the same principle shall be applicable for that part of investment.

Investment in Derivatives Instrument

The Scheme may take an exposure to derivatives of the Underlying Index or constituents of the Underlying Index for short duration when the securities of the Underlying Index are unavailable, insufficient or for rebalancing at the time of change in Underlying Index or in case of corporate actions. The total exposure to derivatives would be restricted to 10% of the net assets of the Scheme. The

aggregate asset allocation including exposure to derivatives will not exceed 100% of net assets of the Scheme.

The Scheme may use derivative instruments such as index futures and options, stock futures and options contracts, warrants, convertible securities, swap agreements or any other derivative instruments that are permissible or may be permissible in future under applicable regulations and such investments shall be in accordance with the investment objective of the Scheme.

Index futures/options are meant to be an efficient way of buying/selling an index compared to buying/selling a portfolio of physical shares representing an index for ease of execution and settlement. Index futures/options can be an efficient way of achieving the scheme's investment objective. Notwithstanding the pricing, they can help in reducing the Tracking Error in the Scheme. Index futures/options may avoid the need for trading in individual components of the index, which may not be possible at times, keeping in mind the circuit filter system and the liquidity in some of the individual stocks. Index futures/options can also be helpful in reducing the transaction costs and the processing costs on account of ease of execution of one trade compared to several trades of shares comprising the Underlying Index and will be easy to settle compared to physical portfolio of shares representing the Underlying Index.

In case of investments in index futures/options, the risk/reward would be the same as investments in portfolio of shares representing an index. However, there may be a cost attached to buying an index future/option. Further there could be an element of settlement risk, which could be different from the risk in settling physical shares. This settlement risk is likely to be minimized if the exchange acts as the clearing corporation and the counter party, as is the practice in the developed markets. The Scheme will not maintain any leveraged or trading positions.

Limit for investment in derivatives instruments

In accordance with clauses 7.5.1.5 and 12.25 of SEBI Master Circular No. SEBI /HO/IMD/ IMD-PoD-1 / P/ CIR / 2023/74 dated May 19, 2023, the following conditions shall apply to the Scheme's participation in the Derivatives market. The investment restrictions applicable to the Scheme's participation in the Derivatives market will be as prescribed or varied by SEBI from time to time.

i. Position limit for the Mutual Fund in index options contracts

- a. The Mutual Fund's position limit in all index options contracts on a particular Underlying Index shall be Rs. 500 crore or 15% of the total open interest of the market in index options, whichever is higher, per Stock Exchange.
- b. This limit would be applicable on open positions in all options contracts on a particular Underlying Index.

ii. Position limit for the Mutual Fund in index futures contracts

- a. The Mutual Fund's position limit in all index futures contracts on a particular Underlying Index shall be Rs. 500 crore or 15% of the total open interest of the market in index futures, whichever is higher, per Stock Exchange.
- b. This limit would be applicable on open positions in all futures contracts on a particular Underlying Index.

iii. Additional position limit for hedging for the Mutual Fund:

In addition to the position limits at point (i) and (ii) above, the Mutual Fund may take exposure in equity index derivatives subject to the following limits:

1. Short positions in index derivatives (short futures, short calls and long puts) shall not exceed (in notional value) the Mutual Fund's holding of stocks.
2. Long positions in index derivatives (long futures, long calls and short puts) shall not exceed (in notional value) the Mutual Fund's holding of cash, government securities, T-Bills and similar instruments.

iv. Position limit for the Mutual Fund for stock based derivative contracts:

- The Mutual Fund position limit in a derivative contract on a particular underlying stock, i.e. stock option contracts and stock futures contracts will be as follows :-
- The combined futures and options position limit shall be 20% of the applicable Market Wide Position Limit (MWPL).

v. Position limit for the Scheme:

1. For stock option and stock futures contracts, the gross open position across all derivative contracts on a particular underlying stock of the Scheme shall not exceed the higher of :
1% of the free float market capitalisation (in terms of number of shares) or 5% of the open interest in the derivative contracts on a particular underlying stock (in terms of number of contracts).
2. This position limits shall be applicable on the combined position in all derivative contracts on an underlying stock at a stock exchange.
3. For index based contracts, the Fund shall disclose the total open interest held by its scheme or all schemes put together in a particular underlying index, if such open interest equals to or exceeds 15% of the open interest of all derivative contracts on that underlying index.

As and when SEBI amends the limits in position limits for exchange traded derivative contracts in future, the aforesaid position limits, to the extent relevant, shall be read as if they were substituted with the SEBI amended limits.

Definition of Exposure in case of Derivative Positions

Each position taken in Derivatives shall have an associated exposure as defined under. Exposure is the maximum possible loss that may occur on a position. However, certain Derivative positions may theoretically have unlimited possible loss. Exposure in Derivative positions shall be computed as:

Position	Exposure
Long Future	Futures Price * Lot Size * Number of Contracts
Short Future	Futures Price * Lot Size * Number of Contracts
Option bought Contracts	Option Premium Paid * Lot Size * Number of

Concepts and Examples:

Futures

Futures (Index & Stocks) are forward contracts traded on the exchanges & have been introduced both by BSE and NSE. Currently futures of 1 month (near month), 2 months (next month) and 3 months (far month) are presently traded on these exchanges. These futures expire on the last working Thursday of the respective months.

Illustration with Index Futures

In case the Nifty near month future contract is trading at say, Rs. 9,600, and the fund manager has a view that it will depreciate going forward; the Scheme can initiate a sale transaction of Nifty futures at Rs. 9,610 without holding a portfolio of equity stocks or any other underlying long equity position. Once the price falls to Rs. 9,500 after say, 20 days, the Scheme can initiate a square-up transaction by buying the said futures and book a profit of Rs. 110.

Correspondingly, if the fund manager has a positive view he can initiate a long position in the index / stock futures without an underlying cash/ cash equivalent subject to the extant regulations.

There are futures based on stock indices as mentioned above as also futures based on individual stocks. The profitability of index /stock future as compared to an individual security will inter-alia depend upon:

- The Carrying cost,
- The interest available on surplus funds, and

- The transaction cost

Example of a typical future trade and the associated costs:

Particulars	Index Future	Actual Purchase of Stocks
Index at the beginning of the month	9,600	9,600
Price of 1 Month Future	9,620	-
A. Execution Cost: Carry and other index future costs	20	-
B. Brokerage Costs (0.05% of Index Future and 0.12% for spot stocks)	4.81	11.52
C. Gains on Surplus Funds: (Assumed 6.00% p.a. return on 85% of the money left after paying 15% margin)	40.325	0
(6.00%*9600*85%*30days/365)		
Total Cost (A+B-C)	-15.51	11.52

Few strategies that employ stock /index futures and their objectives:

Buying/ Selling Stock future:

When the Scheme wants to initiate a long position in a stock whose spot price is at say, Rs.100 and futures is at Rs. 98, then the Scheme may just buy the futures contract instead of the spot thereby benefiting from a lower cost.

In case the Scheme has a bearish view on a stock which is trading in the spot market at Rs.98 and the futures market at say Rs. 100, the Scheme may subject to regulations, initiate a short position in the futures contract. In case the prices align with the view and the price depreciates to say Rs. 90, the Scheme can square up the short position thereby earning a profit of Rs.10 vis-a- vis a fall in stock price of Rs. 8.

Risk associated with these strategies:

1. Lack of opportunities
2. Inability of derivatives to correlate perfectly with underlying security and
3. Execution Risk, whereby ultimate execution takes place at a different rates than those devised by the strategy.

Execution of these strategies depends upon the ability of the fund manager to identify and execute based on such opportunities. These involve significant uncertainties and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

Option Contracts (Stock and Index)

An Option gives the buyer the right, but not the obligation, to buy (call) or sell (put) a stock at an agreed upon price during a certain period of time or on a specific date.

Options are used to manage risk or as an investment to generate income. The price at which underlying security is contracted to be purchased or sold is called the Strike Price.

Options that can be exercised on or before the expiration date are called American Options while, Options that can be exercised only on the expiration date are called European Options

Options Risk / Return Pay – off Table

Stock / Index Options	Buy Call	Sell Call	Buy Put	Sell Put
-----------------------	----------	-----------	---------	----------

1.	View on Underlying	Positive	Negative	Negative	Positive
2.	Premium	Pay	Receive	Pay	Receive
3.	Risk Potential	Limited to premium paid	Receive	Limited to premium paid	Receive
4.	Return Potential	Unlimited	Premium Received	Unlimited	Premium Received

Note: The above table is for the purpose of explaining concept of options contract. As per the current Regulations, the Scheme(s) cannot write option or purchase instrument with embedded write option.

Option contracts are of two types - Call and Put

Call Option:

A call option gives the buyer, the right to buy specified quantity of the underlying asset at the set strike price on or before expiration date and the seller (writer) of call option however, has the obligation to sell the underlying asset if the buyer of the call option decides to exercise the option to buy.

Put Option:

A put option gives the buyer the right to sell specified quantity of the underlying asset at the set strike price on or before expiration date and the seller (writer) of put option however, has the obligation to buy the underlying asset if the buyer of the put option decides to exercise his option to sell.

Index Options / Stock Options

Index options / Stock options are termed to be an efficient way of buying / selling an index/stock compared to buying / selling a portfolio of physical shares representing an index for ease of execution and settlement. The participation can be done by buying / selling either Index futures or by buying a call/put option.

The risk is also different when index /stock futures are bought/sold vis-a-vis index/ stocks options as in case of an index future there is a mark to market variation and the risk is much higher as compared to buying an option, where the risk is limited to the extent of premium paid.

In terms of provision of clause 12.25.1 of SEBI Master Circular No. SEBI /HO/IMD/ IMD-PoD-1 / P/ CIR / 2023/74 dated May 19, 2023, the Scheme shall not write options or purchase instruments with embedded written options.

The illustration below explains how one can gain using Index call / put option. These same principals of profit / loss in an Index option apply in Toto to that for a stock option.

Call Option

Suppose an investor buys a Call option on 1 lot of Nifty 50 (Lot Size: 75 units)

- Nifty index (European option)
- Nifty 1 Lot Size: 75 units
- Spot Price (S): 9600
- Strike Price (x): 9700 (Out-of-Money Call Option)
- Premium: 37

Total Amount paid by the investor as premium $[75*37] = 2775$

There are two possibilities i.e. either the index moves up over the strike price or remains below the strike price.

Case 1- The index goes up

- **An investor sells the Nifty Option described above before expiry:**

Suppose the Nifty index moves up to 9900 in the spot market and the premium has moved to Rs 250 and there are 15 days more left for the expiry. The investor decides to reverse his position in the market by selling his 1 Nifty call option as the option now is In the Money.

His gains are as follows:

- Nifty Spot: 9600
- Current Premium: Rs.250
- Premium paid: Rs.37
- Net Gain: $\text{Rs.}250 - \text{Rs.}37 = \text{Rs.}213$ per unit
- Total gain on 1 lot of Nifty (75 units) = $\text{Rs.}15,975$ (75×213)

In this case the premium of Rs.250 has an intrinsic value of Rs. 200 per unit and the remaining Rs. 50 is the time value of the option.

- **An investor exercises the Nifty Option at expiry**

Suppose the Nifty index moves up to 9800 in the spot market on the expiry day and the investor decides to reverse his position in the market by exercising the Nifty call option as the option now is in the money.

His gains are as follows:

- Nifty Spot: 9800
- Premium paid: Rs.37
- Exercise Price: 9700
- Receivable on exercise: $9800 - 9700 = 100$
- Total Gain: $\text{Rs.} 4725 \{ (100 - 37) \times 75 \}$

In this case the realised gain is only the intrinsic value, which is Rs.100, and there is no time value.

Case 2 - The Nifty index moves to any level below 9700

Then the investor does not gain anything but on the other hand his loss is limited to the premium paid: Net Loss is Rs.2775 (Loss is capped to the extent of Premium Paid) ($\text{Rs } 37 \text{ Premium paid} \times \text{Lot Size: } 75 \text{ units}$).

Put Option

Suppose an investor buys a Put option on 1 lot of Nifty 50.

- Nifty 1 Lot Size: 75 units
- Spot Price (S): 9600
- Strike Price (x): 9500 (Out-of-Money Put Option)
- Premium: 40
- Total Amount paid by the investor as premium $[75 \times 40] = 3000$

There are two possibilities i.e. either the index moves over the strike price or moves below the strike price.

Let us analyze these scenarios.

Case 1 - The index goes down

- **An investor sells the Nifty Option before expiry:**

Suppose the Nifty index moves down to 9400 in the spot market and the premium has moved to Rs. 140 and there are 15 days more left for the expiry. The investor decides to reverse his position in the market by selling his 1 Nifty Put Option as the option now is in the money. His gains are as follows:

- Nifty Spot: 9400
- Premium paid: Rs.40
- Net Gain: $\text{Rs.}140 - \text{Rs.}40 = \text{Rs.}100$ per unit
- Total gain on 1 lot of Nifty (75 units) = $\text{Rs.}7500$ (100×75)

In this case the premium of Rs.140 has an intrinsic value of Rs. 100 per unit and the remaining Rs.40 is the time value of the option.

• **An investor exercises the Nifty Option at expiry (It is an European Option)**

Suppose the Nifty index moves down to 9400 in the spot market on the expiry day and the investor decides to reverse his position in the market by exercising the Nifty Put Option as the option now is in the money.

His gains are as follows:

- Nifty Spot: 9400
- Premium paid: Rs.40
- Exercise Price: 9500
- Gain on exercise: $9500-9400 = 100$
- Total Gain: $Rs.4500 \{(100-40)*75\}$

In this case the realised amount is only the intrinsic value, which is Rs.100, and there is no time value in this case.

Case 2 - If the Nifty index stays over the strike price which is 9500, in the spot market then the investor does not gain anything but on the other hand his loss is limited to the premium paid.

- Nifty Spot: >9600
- Net Loss Rs.3000 (Loss is capped to the extent of Premium Paid) $(Rs. 40 \text{ Premium paid} * \text{Lot Size:} 75 \text{ units})$

Risk Associated with these Strategies

- The risk of mis-pricing or improper valuation and the inability of derivatives to correlate perfectly with underlying assets, rates and indices.
- Execution Risk: The prices which are seen on the screen need not be the same at which execution will take place.

Listing of Mutual Fund schemes that are in the process of winding up

The Scheme shall comply with the clause 7.2 of SEBI Master Circular No. SEBI /HO/IMD/ IMD-PoD-1 / P/ CIR / 2023/74 dated May 19, 2023 in the vent of Winding-up in terms of Regulation 39(2)(a) of MF Regulations.

The AMC, its sponsor, employees of AMC and Trustee shall not be permitted to transact (buy or sell) in the units of such schemes that are under the process of being wound up. The compliance of the same will be monitored both by the Board of AMC and Trustee.

E. INVESTMENT STRATEGY

The Scheme employs an investment approach designed to track the performance of NASDAQ-100 Total Return Index. The Scheme seeks to achieve this goal by investing in securities constituting NASDAQ-100 Total Return Index in same proportion as in the index. The Scheme will invest at least 95% of its total assets in the securities comprising the Underlying Index. The Scheme may also invest in overseas debt and money market instruments to meet the liquidity and expense requirements. The Scheme may also take exposure in derivative instruments in order to minimize the tracking error.

Risk Control

Risk is an inherent part of the investment function. Effective Risk management is critical to fund management for achieving financial soundness. Investment by the Scheme would be made as per the investment objective of the Scheme and in accordance with SEBI Regulations. AMC has adequate

safeguards to manage risk in the portfolio construction process. Risk control would involve managing risk in order to keep in line with the investment objective of the Scheme. The risk control process would include identifying the risk and taking proper measures for the same. Further, AMC has implemented Bloomberg Portfolio Order Management System as the Front Office System for managing risk. The system has incorporated all the investment restrictions as per the SEBI guidelines and enables identifying and measuring the risk through various risk management tools like various portfolio analytics, risk ratios, average duration and analyses the same and acts in a preventive manner. The AMC will appoint at least two Authorised Participants who would endeavour to provide liquidity of the units of the Scheme on the exchange at all times.

Portfolio Turnover

Portfolio Turnover is defined as the lower of sales or purchase divided by the average corpus during a specified period of time. Generally, Portfolio Turnover would depend upon the rebalancing of the portfolio due to change in composition of the Index or due to corporate actions of the securities constituting the Index.

Tracking Error

Tracking error is defined as the annualized standard deviation of the difference between the daily returns of the Underlying Index and the NAV of the Scheme based on past one year rolling data shall not exceed 2%. Theoretically, the corpus of the Scheme has to be fully invested in the securities comprising the Underlying Index in the same proportion of weightage as the securities have in the Underlying Index. However, it is not possible to invest as per the objective due to reason that the Scheme has to incur expenses, corporate actions pertaining to the Basket including changes to the constituents, regulatory policies, ability of the Fund Manager to closely replicate the Underlying Index, etc. The Scheme's returns may therefore deviate from those of its Underlying Basket. Tracking Error may arise due to the following reasons:-

1. Fees and expenses of the Scheme.
2. Cash balance held by the Scheme due to subscriptions, redemption, etc.
3. Corporate actions
4. The Scheme has to invest in the securities in whole numbers and has to round off the quantity of securities shares.
5. Changes in the constituents of the underlying Basket. Whenever there are any changes, the Scheme has to reallocate its investment as per the revised Basket but market conditions may not offer an opportunity to rebalance its portfolio to match the Basket and such delay may affect the NAV of the Scheme.
6. Lack of Liquidity

The AMC would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. Under normal market circumstances, such tracking error shall not exceed by 2%.

In case of unavoidable circumstances in the nature of force majeure, which are beyond the control of the AMC, the tracking error may exceed 2% and the same will be intimated to the Trustees with corrective actions taken by the AMC, if any.

Tracking Difference:

Tracking difference i.e. the annualized difference of daily returns between the index or goods and the NAV of the ETF will be disclosed on the website of the AMC and AMFI, on a monthly basis, for tenures 1 year, 3 year, 5 year, 10 year and since the date of allotment of units.

Investment by AMC/Sponsor in the Scheme

In accordance with Regulation 28(4) of SEBI (Mutual Funds) (Amendment) Regulations, 2014 the Sponsor or AMC has invested a portion of its assets into the Scheme as seed capital to the extent

mandated and such seed capital will not be redeemed or withdrawn by the AMC until the winding up of the Scheme.

In addition to investments as mandated under Regulation 28(4) of the Regulations as mentioned above, the AMC may invest in the Scheme during the continuous offer period subject to the SEBI (MF) Regulations. The AMC shall not charge investment management fees on investment by the AMC in the Scheme.

Securities Lending

Securities Lending is lending of securities through an approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the securities borrowed.

The Scheme may lend securities from its portfolio in accordance with the Regulations and the applicable SEBI guidelines. Securities' lending shall enable the Scheme to earn income that may partially offset its expenses and thereby reduce the effect these expenses have on the Scheme's ability to provide investment returns that correspond generally to the performance of its Index. The Scheme will pay reasonable administrative and custodial fees in connection with the lending of securities. The Scheme will be exposed to the risk of loss should a borrower default on its obligation to return the borrowed securities. The Scheme share of income from the lending collateral will be included in the Scheme's gross income. The Fund will comply with the conditions for securities lending specified by SEBI Regulations and circulars issued from time to time.

The maximum exposure of each Scheme to a single intermediary in the stock lending programme at any point of time would be limited to 50% of the market value of its equity portfolio or upto such limits as may be specified by SEBI. Each Scheme will not lend more than 75% of its corpus.

There can be no assurance or guarantee that the Scheme will achieve any particular level of tracking error relative to performance of the Underlying Index.

F. FUNDAMENTAL ATTRIBUTES

Following are the Fundamental Attributes of the Scheme, in terms of Regulation 18 (15A) of the SEBI (MF) Regulations:

(i) Type of a Scheme: An open ended scheme replicating/tracking NASDAQ-100 Index

(ii) Investment Objective:

- Investment Objective: Please refer to section 'Investment Objective'.
- Investment pattern: Please refer to section 'Asset Allocation'.

(iii) Terms of Issue: Provisions with respect to listing, repurchase, redemption, fees and expenses are mentioned in the SID.

In accordance with Regulation 18(15A) of the SEBI (MF) Regulations, the Trustees shall ensure that no change in the fundamental attributes of the Scheme(s) and the Plan(s) / Option(s) thereunder or the trust or fee and expenses payable or any other change which would modify the Scheme(s) and the Plan(s) / Option(s) thereunder and affect the interests of Unitholders is carried out unless:

- A written communication about the proposed change is sent to each Unitholder and an advertisement is given in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of the region where the Head Office of the Mutual Fund is situated; and
- The Unitholders are given an option for a period of 30 days to exit at the prevailing Net Asset Value without any exit load.
- In addition to the conditions specified above for bringing change in the fundamental attributes of any scheme, trustees shall take comments of the Board before bringing such change(s).

G. BENCHMARK INDEX

The performance of the Scheme will be benchmarked to NASDAQ-100 TRI. As the Scheme is an Index Scheme and would primarily invest in securities which are constituents of NASDAQ-100 Total Return Index, the said index is an appropriate benchmark for the Scheme.

Total Return variant of the index (TRI) will be used for performance comparison.

3. The Mutual Fund under all its schemes shall not own more than 10% of any company's paid up capital carrying voting rights.
4. Transfers of investments from one scheme to another scheme in the same Mutual Fund shall be allowed only if,
 - (a) such transfers are done at the prevailing market price for quoted instruments on spot basis.
[Explanation - "Spot basis" shall have same meaning as specified by stock exchange for spot transactions;]
 - (b) the securities so transferred shall be in conformity with investment objective of the scheme to which such transfer has been made and the Policy on Inter Scheme Transfer prepared in compliance with clause 12.30 of SEBI Master Circular No. SEBI /HO/IMD/ IMD-PoD-1 / P/ CIR / 2023/74 dated May 19, 2023 as amended from time to time.
5. The Scheme may invest in another scheme under the same asset management company or any other Mutual Fund without charging any fees, provided that aggregate inter-scheme investment made by all schemes under the same management or in schemes under the management of any other asset management company shall not exceed 5% of the net asset value of the Mutual Fund. Provided that this clause shall not apply to any fund of funds scheme.
6. Pending deployment of funds of a Scheme in terms of investment objectives of the Scheme, the Mutual Fund may invest the funds of the scheme in short-term deposits of scheduled commercial banks, subject to the following guidelines issued by SEBI and as may be amended from time to time.

Pursuant to the clause 12.16 of SEBI Master Circular No. SEBI /HO/IMD/ IMD-PoD-1 / P/ CIR / 2023/74 dated May 19, 2023, where the cash in the scheme is parked in short term deposits of Scheduled Commercial Banks pending deployment, the scheme shall abide by the following guidelines:

- (a) "Short Term" for such parking of funds by the Scheme shall be treated as a period not exceeding 91 days. Such short-term deposits shall be held in the name of the Scheme.
- (b) The Scheme shall not park more than 15% of net assets in short term deposit(s) of all the scheduled commercial banks put together. However, such limit may be raised to 20% with prior approval of the Trustees.
- (c) Parking of funds in short term deposits of associate and sponsor scheduled commercial banks together shall not exceed 20% of total deployment by the Mutual Fund in short term deposits.
- (d) The Scheme shall not park more than 10% of the net assets in short term deposit(s), with any one scheduled commercial bank including its subsidiaries.
- (e) The Scheme shall not park funds in short term deposit of a bank which has invested in that Scheme. Trustees/AMCs shall also ensure that the bank in which a scheme has STD do not invest in the said scheme until the scheme has STD with such bank.

- (f) The AMC will not charge any investment management and advisory fees for funds under a Plan parked in short term deposits of scheduled commercial banks.
 - (g) The above provisions will not apply to term deposits placed as margins for trading in cash and derivatives market.
7. A mutual fund scheme shall not invest in unlisted debt instruments including commercial papers, except Government Securities and other money market instruments.

Provided that Mutual Fund Schemes may invest in unlisted non-convertible debentures up to a maximum of 10% of the debt portfolio of the scheme subject to such conditions as may be specified by the Board from time to time:

Provided further that mutual fund schemes shall comply with the norms under this clause within the time and in the manner as may be specified by the Board.

Provided further that the norms for investments by mutual fund schemes in unrated debt instruments shall be specified by the Board from time to time.

8. The Scheme shall not make any investment in :
- (a) any unlisted security of an associate or group company of the sponsor; or
 - (b) any security issued by way of private placement by an associate or group company of the sponsor; or

	The above instances shall be tracked by the AMC on a continuous basis and in case if any of the above mentioned scenario arises, the same shall be disclosed on the website of AMC.																		
Methodology and illustration of sale and repurchase price of Units	<p>a) Methodology of calculating sale price</p> <p>The price or NAV, an investor is charged while investing in an open-ended scheme is called sale or subscription price. Pursuant to clause 10.4 of SEBI Master Circular No. SEBI /HO/IMD/ IMD-PoD-1 / P/ CIR / 2023/74 dated May 19, 2023, no entry load will be charged by the scheme to the investors. Therefore, Sale or Subscription price = Applicable NAV (for respective plan and option of the scheme)</p> <p>Gazette notification dated March 30, 2020 for extending the effective date for applicability of new stamp duty rules and as per Notification No. S.O. 4419(E) dated December 10, 2019 issued by Department of Revenue, Ministry of Finance, Government of India, read with Part I of Chapter IV of Notification dated February 21, 2019 issued by Legislative Department, Ministry of Law and Justice, Government of India on the Finance Act, 2019, a stamp duty @ 0.005% of the transaction value would be levied on all mutual fund inflow transactions i.e. purchases (including Switch-ins), SIP / STP installments (including IDCW reinvestment) with effect from July 01, 2020. Accordingly, pursuant to levy of stamp duty, the number of units allotted to the unit holders would be lower to that extent. Kindly refer the example below for better understanding.</p> <p>Example: An investor invests Rs.10,000/- and the current NAV is Rs. 10/- then the purchase price will be Rs.10/-. After deduction of stamp duty investor will receive 999.95 units</p> <table border="1" data-bbox="544 1218 1241 1800"> <tr> <td>Investment amount</td> <td>Rs.10,000/-</td> <td>A</td> </tr> <tr> <td>Less: Transaction charges (deducted and paid to distributor, if applicable)</td> <td>NIL</td> <td>B</td> </tr> <tr> <td>Stamp duty applicable (@0.005%)</td> <td>0.50</td> <td>$C = (A - B) * 0.005 / 100.005$</td> </tr> <tr> <td>Net Investment amount</td> <td>9,999.50/-</td> <td>$D = (A - B - C)$</td> </tr> <tr> <td>NAV</td> <td>Rs.10/-</td> <td>E</td> </tr> <tr> <td>Units allotted</td> <td>999.95</td> <td>$F = D / E$</td> </tr> </table> <p>b) Methodology of calculating repurchase price of Units</p> <p>Repurchase or redemption price is the price or NAV at which an open-ended scheme purchases or redeems its units from the investors. Units allotted	999.95	$F = D / E$																	

	<p>percentage of Net Assets Value (NAV) i.e. applicable load as a percentage of NAV will be deducted from the “Applicable NAV” to calculate the repurchase price. Therefore, Repurchase or Redemption Price = Applicable NAV *(1- Exit Load, if any)</p> <p>Example: If the Applicable NAV is Rs. 10 and a 2% Exit Load is charged, the Redemption Price per Unit will be calculated as follows: = Rs. 10 * (1-0.02) = Rs. 10 * (0.98) = Rs. 9.80</p>
<p>Procedure for subscribing / redeeming units directly with the fund</p>	<p>The Authorised Participant can subscribe/ redeem units of the Scheme directly with the Mutual Fund only in creation unit size as per the procedure given below.</p> <p>The Creation Unit is fixed number of units of the Scheme, which is exchanged for a basket of shares underlying the Index called the Portfolio Deposit and a Cash Component. Thus, each Creation Unit would comprise of two components viz. Portfolio and Cash. The Portfolio Deposit is the basket of securities, in the same proportion as in the Index. The Cash Component is the difference between the applicable net asset value of creation unit and the market value of the securities. This difference will represent accrued IDCWs, accrued annual charges including management fees and residual cash in the Scheme. In addition, the cash component will include transaction charges to the extent charged by the third parties such as Custodian/DP, equalization of IDCW and other incidental expenses for creating units. The value of both the components changes from time to time and will be announced on our website on daily basis.</p> <p>The number of units of the Scheme that investors can create in exchange of the Portfolio Deposit and Cash Component is 2,50,000 units and in multiples thereof.</p> <p>The facility of creating units in creation unit size is available to the Authorised Participants (whose name will be available on our website https://www.motilaloswalmf.com/) and large investors.</p> <p>For creating units of the Scheme in creation unit size: The Authorised Participant would transfer the requisite basket of securities comprising the constituents of NASDAQ-100 Index constituting the Portfolio Deposit to the Mutual Fund’s designated DP account while the Cash Component has to be paid to the AMC by way of cheques/pay order/demand draft. On confirmation of the same, the AMC will have the respective number of units of the Scheme credited to the depository account of Authorised Participant.</p> <p>For redeeming units of the Scheme in creation unit size: The Authorised Participant would transfer the requisite number of units of the Scheme equaling the creation unit to the Fund’s designated DP account. On confirmation of the same, the AMC will pay the redemption proceeds in kind by transferring the Portfolio Deposit to the depository account of Authorised Participant and pay the Cash Component, if any.</p> <p>For Eligible investors*: Direct transaction with AMC pertaining to subscription / redemption by any investor other than Authorized Participants / Market Makers shall be</p>

Bank Account Details	<p>As per SEBI requirements, it is mandatory for an investor to provide his/her bank account number in the Application Form. The Bank Account details as mentioned with the Depository should be mentioned. If depository account details furnished in the application form are invalid or not confirmed in the depository system, the application may be rejected. The Application Form without the Bank account details would be treated as incomplete and rejected.</p> <p>Notwithstanding any of the above conditions, any application may be accepted or rejected at the sole and absolute discretion of the Trustee.</p>
Role of Authorised Participant	<p>The role of Authorised Participants is to proffer liquidity of the units of the Scheme on the Stock Exchange where the Units are listed. Authorised Participants may offer to buy and sell quotes (bid and ask quotes) on the Exchanges such that buy and sell orders get executed in the market subject to price compatibility. Authorised Participants may for the purpose of creating liquidity subscribe or redeem the units of the Scheme directly with the Mutual Fund.</p>
Purchase / Sale of the units of Scheme on the Exchange	<p>Buying / Selling of units of the Scheme on the Exchange is just like buying / selling any other normal listed security. If an investor has bought units, an investor has to pay the purchase amount to the broker / sub-broker such that the amount paid is realised before the funds pay-in day of the settlement cycle on the exchange. If an investor has sold units, an investor has to deliver the units to the broker / sub-broker before the securities pay-in day of the settlement cycle on the exchange. The units (in the case of units bought) and the funds (in the case of units sold) are paid out to the broker on the payout day of the settlement cycle on the exchange. The trading member would pay the money or units to the investor in accordance with the time prescribed by the stock exchange regulation.</p> <p>If an investor has bought units, he/she should give standing instructions for 'Delivery-In' to his/her DP for accepting units in his/her beneficiary account. An investor should give the details of his/her beneficiary account and the DP-ID of his/her DP to his/her trading member. The trading member will transfer the units directly to his/her beneficiary account on receipt of the same from exchange clearing corporation.</p> <p>An investor who has sold units should instruct his/her Depository Participant (DP) to give 'Delivery Out' instructions to transfer the units from his/her beneficiary account to the Pool Account of his/her trading member through whom he/she have sold the units. The details of the pool a/c of his/her trading member to which the units are to be transferred, unit quantity etc. should be mentioned in the Delivery Out instructions given by him/her to the DP. The instructions should be given well before the prescribed securities pay-in day. SEBI has advised that the Delivery Out instructions should be given at least 24 hours prior to the cut-off time for the prescribed securities pay-in to avoid any rejection of instructions due to data entry errors, network problems, etc.</p>
Transaction handling charges	<p>Transaction handling charges include brokerage, depository participant charges, uploading charges and such other charges that the Mutual Fund may have to incur in the course of accepting the portfolio deposit or for giving a portfolio of securities as consideration for a redemption request. Such transaction handling charges shall be recoverable from the transacting authorized participant/large investor.</p>

Cost of trading on the Stock Exchange	Investor will have to bear the cost of brokerage and other applicable statutory levies e.g. Securities Transaction Tax, etc. when the units are bought or sold on the stock exchange.
Right to limit Redemptions	<p>The Trustee may, in the general interest of the Unitholders of the Scheme and when considered appropriate to do so based on unforeseen circumstances/unusual market conditions, impose restriction on redemption of Units of the Schemes. The following requirements will be observed before imposing restriction on redemptions:</p> <ol style="list-style-type: none"> a. Restriction may be imposed when there are circumstances leading to a systemic crisis or event that severely constricts market liquidity or the efficient functioning of markets such as: <ol style="list-style-type: none"> i. Liquidity issues - when market at large becomes illiquid affecting almost all securities rather than any issuer specific security. AMC's should have in place sound internal liquidity management tools for schemes. Restriction on redemption cannot be used as an ordinary tool in order to manage the liquidity of a scheme. Further, restriction on redemption due to illiquidity of a specific security in the portfolio of a scheme due to a poor investment decision shall not be allowed. ii. Market failures, exchange closures - when markets are affected by unexpected events which impact the functioning of exchanges or the regular course of transactions. Such unexpected events could also be related to political, economic, military, monetary or other emergencies. iii. Operational issues - when exceptional circumstances are caused by force majeure, unpredictable operational problems and technical failures (e.g. a black out). Such cases can only be considered if they are reasonably unpredictable and occur in spite of appropriate diligence of third parties, adequate and effective disaster recovery procedures and systems b. Restriction on redemption may be imposed for a specific period of time not exceeding 10 working days in any 90 day period. c. Any such imposition requires specific approval of Board of AMC's and Trustees and the same shall be immediately informed to SEBI. d. When restriction on redemption is applied the following procedure shall be followed: <ol style="list-style-type: none"> a) Redemption requests upto Rs. 2 lakh will not be subject to such restriction. b) In case of redemption requests above Rs. 2 lakhs, the AMC shall redeem the first Rs. 2 lakhs without restriction and remaining part over above be subject to such restriction.
The policy regarding reissue of repurchased units, including the maximum extent, the manner of reissue, the entity (the scheme or the AMC) involved in the same.	Units once redeemed/repurchased will not be re-issued.
Suspension of Sale of Units	In case of breach of limits of overseas investments as per applicable regulations, the Fund would suspend sale of units until such time the assets under management in the Scheme decreases from the threshold limit as mentioned in the Regulations.

<p>Restrictions, if any, on the right to freely retain or dispose of units being offered.</p>	<p>As the units of the Scheme will be issued in demat form, the units will be transferred and transmitted in accordance with the provisions of SEBI (Depositories and Participants) Regulations, as may be amended from time to time.</p> <p>The delivery instructions for transfer of Units will have to be lodged with the Depository Participant (DP) in the requisite form as may be required from time to time and transfer will be effected in accordance with the rules/regulations as may be in force governing transfer of securities in demat form.</p>

The cash component is arrived in the following manner:

The above is just an example to illustrate the calculation of cash component. Cash Component will vary depending upon the actual charges incurred like Custodial Charges and other incidental charges for creating units.

Creation/redemption of unit directly with the Fund in creation unit size is explained as follows:

Number of units comprising one Creation Unit	250000
NAV per unit	927.3457
Value of 1 Creation Unit	2,31,83,642.50
Value of Portfolio Deposit (pre-defined basket of securities of the Underlying Index)	2,32,81,673.19
Cash Component	-98,030.69

Example of Creation and Redemption of Units

Each Creation Unit consists of 2, 50,000 units of Motilal Oswal Nasdaq 100 ETF. As explained earlier, the Creation Unit is made up of 2 components i.e. Portfolio Deposit and Cash Component. The Portfolio Deposit will be determined by the Fund as per the weights of each security in the Index. The value of this Portfolio Deposit will change due to change in prices during the day. The number of shares of each security that constitute the Portfolio Deposit will remain constant unless there is any corporate action in the Index or there is a rebalance in the Index.

The example of Creation Unit as on September 30, 2023 for Motilal Oswal Nasdaq 100 ETF is as follows:

D. COMPUTATION OF NAV

The Net Asset Value (NAV) per unit under the Scheme will be computed by dividing the net assets of the Scheme by the number of units outstanding on the valuation day. The Mutual Fund will value its investments according to the valuation norms, as specified in Schedule VIII of the SEBI (MF) Regulations, or such norms as may be specified by SEBI from time to time.

The Net Asset Value (NAV) of the units under the Scheme shall be calculated as follows:

$$\text{NAV (Rs.)} = \frac{\text{Market or Fair Value of Scheme's investments} + \text{Receivables} + \text{Accrued Income} + \text{Other Assets} - \text{Accrued Expenses} - \text{Payables} - \text{Other Liabilities}}{\text{No. of Units outstanding under Scheme on the Valuation Day}}$$

No. of Units outstanding under Scheme on the Valuation Day

The NAV will be calculated up to four decimals.

The NAV Calculation shall as be as per the Valuation Policy of MOMF made in accordance with SEBI MF Regulations and is available on the mutual fund website www.motilaloswalmf.com. The NAV shall be calculated and disclosed on each business day on AMFI's website www.amfiindia.com, by 11.00 p.m. and also on www.motilaloswalmf.com. The computation of NAV shall be in conformity with SEBI Regulations and guidelines as prescribed from time to time.

The NAV shall be calculated and announced on each working day.

Due to difference in time zones of different markets, in case the closing prices of securities are not available within a given time frame to enable the AMC to upload the NAV for a Valuation Day, the AMC may use the last available traded price for the purpose of valuation. The use of the closing price / last available traded price for the purpose of valuation will also be based on the practice followed in a

particular market. In case any particular security is not traded on the Valuation Day, the same shall be valued on a fair value basis by the valuation committee of the AMC.

Hence, for the purposes of valuation and calculating NAV of the Scheme for a particular day, the last available prices of securities on NASDAQ shall be considered (which would be the previous day's closing prices). This will enable the disclosure of the NAV of the Scheme before the deadline as provided by SEBI guidelines.

Illustration of NAV:

If the net assets of the Scheme, after considering applicable expenses, are Rs.10,45,34,345.34 and units outstanding are 10,00,0000, then the NAV per unit will be computed as follows:

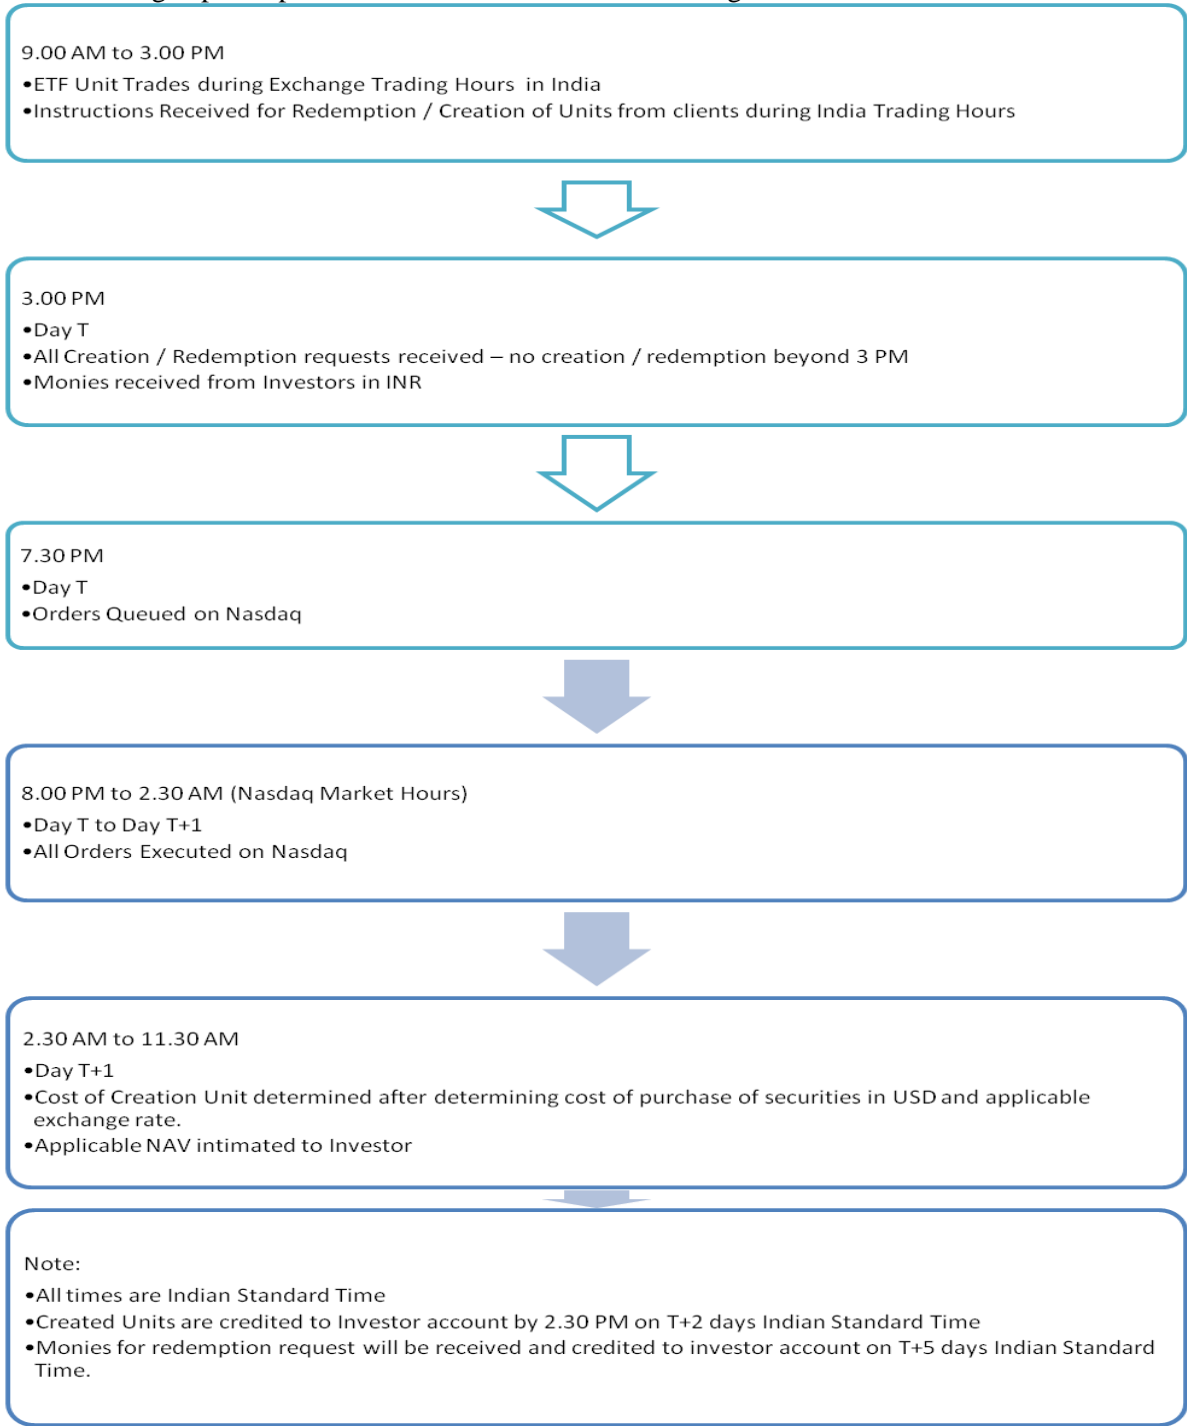

$$10,45,34,345.34 / 10,00,000 = \text{Rs. } 10.4534 \text{ per unit (rounded off to four decimals)}$$

The example for consideration of prices of securities for calculating NAV of the Scheme is as follows:

For calculation and disclosure of NAV as on February 28, 2011, prices of securities at the close of trading on NASDAQ Stock Market on February 27, 2011 have been considered.

On the Valuation Day, all assets and liabilities denominated in foreign currency will be valued in Indian Rupees exchange rate made available by Reuters Rate (11:30:00 GMT) failing which exchange rates made available by Bloomberg / RBI or any other standard reference rate at the close of banking hours in India. The Trustees reserve the right to change the source for determining the exchange rate.

The following explains process flow and time frames including NAV calculation

IV. FEES AND EXPENSES

This section outlines the expenses that will be charged to the Scheme.

A. NEW FUND OFFER (NFO) EXPENSES

These expenses are incurred for the purpose of various activities related to the NFO like sales and distribution fees paid, marketing and advertising, registrar expenses, printing and stationary, bank charges etc.

The entire NFO expenses were borne by the AMC.

B. ANNUAL SCHEME RECURRING EXPENSES

These are the fees and expenses for operating the Scheme. These expenses include but are not limited to Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer agents' fees & expenses, marketing and selling costs etc.

The AMC has estimated that the following expenses will be charged to the Scheme, as permitted under Regulation 52 of SEBI (MF) Regulations. For the actual current expenses being charged, the investor should refer to the website of the Fund. For more details, please refer the notes below the table.

Particulars	(% per annum to daily Net Assets)
Investment Management & Advisory Fee	Upto 1.00%
Custodial Fees	
Registrar & Transfer Agent Fees including cost related to providing accounts statement, IDCW/redemption cheques/warrants etc.	
License fees / listing fees and other such expenses	
Audit Fees / Fees and expenses of trustees	
Cost towards investor education & awareness (1 bps)**	
Brokerage & transaction cost over and above 12 bps and 5 bps for cash and derivative market trades respectively	
Audit Fees / Fees and expenses of trustees	
Marketing & Selling Expenses	
Incentives paid to Market Makers, if any^	
Goods and Service Tax (GST) on expenses other than investment management and advisory fees	
GST on brokerage and transaction cost	
Other expenses*	
Maximum total expense ratio (TER) permissible under Regulation 52 (6)	Upto 1.00%
Additional expenses for gross new inflows from specified cities under Regulation 52 (6A)(b)#	---

*Any other expenses which are directly attributable to the Scheme, may be charged with approval of the Trustee within the overall limits as specified in the Regulations except those expenses which are specifically prohibited.

\$ As per clause 10.1.3 of SEBI Master Circular No. SEBI /HO/IMD/ IMD-PoD-1 / P/ CIR / 2023/74 dated May 19, 2023, it has been decided that inflows of amount upto Rs. 2,00,000/- per transaction, by the individual investors shall be considered as inflows from retail investors.

All scheme related expenses including commission paid to distributors, by whatever name it may be called and in whatever manner it may be paid, shall necessarily be paid from the scheme only within the regulatory limits and not from the books of the Asset Management Companies (AMC), its associate,

sponsor, trustee or any other entity through any route. Provided that the expenses that are very small in value but high in volume may be paid out of AMC's books. Such expenses can be paid out of AMC's books at actuals or not exceeding 2 bps of respective scheme AUM, whichever is lower.

^ As per clause 10.1.16 of SEBI Master Circular No. SEBI /HO/IMD/ IMD-PoD-1 / P/ CIR / 2023/74 dated May 19, 2023, it is hereby clarified that with effect from July 1, 2022, incentive to be paid to Market Makers, if any shall be charged to the ETF scheme but within the maximum permissible limit of TER.

Following are the principles of incentive structure:

- MOAMC may decide to pay compensation or remuneration to MMs depending upon various criteria such as volumes, bid-ask spread, inventory maintain by MMs / APs.
- Maintenance by MM of minimum unit creation size of ETF available on both bid and ask side of trades, as may be decided by AMC and MM from time to time.

** As per clause 10.1.16 of SEBI Master Circular No. SEBI /HO/IMD/ IMD-PoD-1 / P/ CIR / 2023/74 dated May 19, 2023, it has been decided that with effect from July 1, 2022, the charges applicable for investor education and awareness initiatives from ETFs shall be 1bps of daily net assets of the scheme.

The expenses towards Investment Management and Advisory Fees under Regulation 52 (2) and the various sub-heads of recurring expenses mentioned under Regulation 52 (4) of SEBI (MF) Regulations are fungible in nature. Thus, there shall be no internal sub-limits within the expense ratio for expense heads mentioned under Regulation 52 (2) and (4) respectively. Further, the additional expenses under Regulation 52(6A)(c) shall also be incurred towards any of these expense heads.

However, the upfront trail commission shall be paid from AMC's books for inflows through SIPs from new investors as per the applicable regulations. The said commission shall be amortized on daily basis to the scheme over the period for which the payment has been made. A complete audit trail of upfront of trail commissions from the AMC's books and amortization of the same to scheme(s) thereafter shall be made available for inspection. The said commission should be charged to the scheme as 'commissions' and should also account for computing the TER differential between regular and direct plans in each scheme.

The expenses towards Investment Management and Advisory Fees under Regulation 52 (2) and the various sub-heads of recurring expenses mentioned under Regulation 52 (4) of SEBI (MF) Regulations are fungible in nature. Thus, there shall be no internal sub-limits within the expense ratio for expense heads mentioned under Regulation 52 (2) and (4) respectively. Further, the additional expenses under Regulation 52(6A)(c) shall also be incurred towards any of these expense heads.

The purpose of the above table is to assist the investor in understanding the various costs & expenses that the investor in the Scheme will bear directly or indirectly. These estimates have been made in good faith as per the information available to the AMC and the above expenses (including investment management and advisory fees) are subject to inter-se change and may increase/decrease as per actual and/or any change in the Regulations, as amended from time to time.

In addition to expenses under Regulation 52(6) and (6A), AMC may charge GST on investment and advisory fees, expenses other than investment and advisory fees and brokerage and transaction cost as below:

1. GST on investment and advisory fees charged to the scheme will be in addition to the maximum limit of TER as prescribed in regulation 52 (6) of the SEBI Regulations.
2. GST on expenses other than investment and advisory fees, if any, shall be borne by the scheme within the maximum limit of TER as per regulation 52 of the SEBI Regulations.
3. GST on brokerage and transaction cost paid for execution of trade, if any, shall be within the limit prescribed under regulation 52 of the SEBI Regulations.

As per AMFI letter no. 35P/ MEM-COR/ 85-a/ 2022-23 dated March 02, 2023 on B-30 Incentive Mechanism, AMC has been advised to keep the B-30 incentive structure in abeyance with effect from March 01, 2023 till any further guidelines regarding necessary safeguards are issued by SEBI. However, AMC will continue to accrue expenses in the mutual fund schemes under Regulation 52 (6A) (b) and make the payment of B-30 incentive in respect of new inflows received from B-30 locations prior to March 01, 2023.

The Mutual Fund would update the current expense ratios on the website (www.motilaloswalmf.com) at least three working days prior to the effective date of the change. Investors can refer to “Total Expense Ratio” section on <https://www.motilaloswalmf.com/downloads/mutual-fund/totalexpensratio> for Total Expense Ratio (TER) details.

Illustration of Impact of expense ratio on the returns of the Scheme

Particulars	Regular Plan	Direct Plan
Net asset before expenses	-	11,500
Expenses other than Distribution Expenses _0.40%	-	46.00
Distribution Expenses Nil	-	0.00
Returns after Expenses at the end of the Year	-	11,454.00

Please Note:

- The purpose of the above illustration is purely to explain the impact of expense ratio charged to the Scheme and should not be construed as providing any kind of investment advice or guarantee of returns on investments.
- It is assumed that the expenses charged are evenly distributed throughout the year. The expenses of the Direct Plan under the Scheme may vary with that of the Regular Plan under the Scheme.
- Calculations are based on assumed NAVs, and actual returns on your investment may be more, or less.
- Any tax impact has not been considered in the above example, in view of the individual nature of the tax implications. Each investor is advised to consult his or her own financial advisor.

C. LOAD STRUCTURE

Load is an amount which is paid by the investor to subscribe to the units or to redeem the units from the Scheme. This amount is used by the AMC to pay commissions to the distributor and to take care of other marketing and selling expenses. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of the AMC <https://www.motilaloswalmf.com/> or may call at toll free no. +91 8108622222 and +91 22 40548002 or your distributor.

Type of Load	Load chargeable (as % of NAV)
Entry	Nil In terms of clause 10.4 of SEBI Master Circular No. SEBI /HO/IMD/ IMD-PoD-1 / P/ CIR / 2023/74 dated May 19, 2023, no entry load will be charged on purchase / additional purchase / switch-in. The upfront commission, if any, on investment made by the investor shall be paid by the investor directly to the Distributor, based on his assessment of various factors including the service rendered by the Distributor.
Exit Load*	Nil

There is no entry/exit load on units of the Scheme bought or sold through the secondary market on the Stock Exchange. However, an investor would be paying cost in the form of a bid and ask spread and brokerage, as charged by his broker for buying/selling units of the Scheme.

* Liquidity window for Investors of ETFs with AMCs

The redemption of units of the Scheme upto INR 25 Crores, directly with AMC, without any exit load, in case of the following scenarios:

- Traded price (closing price) of the ETF units is at discount of more than 1% to the day end NAV for 7 continuous trading days, or
- No quotes for such ETFs are available on stock exchange(s) for 3 consecutive trading days, or
- Total bid size on the exchange is less than half of creation units size daily, averaged over a period of 7 consecutive trading days.

In case of the above scenarios, applications received from investors for redemption upto 3.00 p.m. on any trading day, shall be processed by the AMC at the closing NAV of the day.

The above instances shall be tracked by the AMC on a continuous basis and in case if any of the above mentioned scenario arises, the same shall be disclosed on the website of AMC.

The investor is requested to check the prevailing load structure of the Scheme before investing. For any change in load structure, AMC will issue an addendum and display it on the website/Investor Service Centres.

Any imposition or enhancement in the load structure shall apply on a prospective basis and in no case the same would affect the existing investors adversely.

Under the Scheme, the AMC reserves the right to modify/alter the load structure if it so deems fit in the interest of smooth and efficient functioning of the scheme, subject to maximum limits as prescribed under the SEBI Regulations. The load may also be changed from time to time and in case of exit/redemption, load may be linked to the period of holding.

For any change in the load structure, the AMC would undertake the following steps:

1. The addendum detailing the changes will be attached to SID and Key Information Memorandum (KIM). The addendum will be circulated to all the distributors so that the same can be attached to all SID and KIM already in stock.
2. Arrangements shall be made to display the changes/modifications in the SID in the form of a notice in all Investor Service Centres and distributors/brokers offices.
3. The introduction of the exit load/CDSC along with the details shall be stamped in the acknowledgement slip issued to the investors on submission of the application form and may also be disclosed in the statement of accounts issued after the introduction of such load/CDSC.
4. The Fund shall display an Addendum in respect of such changes on its website (www.motilaloswalmf.com).
5. Any other measure that the Mutual Fund shall consider necessary.

D. WAIVER OF LOAD

As per SEBI Regulations, no entry load shall be charged for existing/prospective investors of the Scheme.

E. TRANSACTION CHARGES

The AMC/Mutual Fund shall deduct the Transaction Charges on purchase / subscription received from first time mutual fund investors and investors other than first time mutual fund investors through the distributor or through the stock exchange platforms viz. BSE Star MF/ NSE NMF II platforms (who have specifically opted-in to receive the transaction charges) as under :

- i. For existing investor in a Mutual Fund: Rs.100/- per subscription of Rs.10,000/- and above;
- ii. For first time investor in Mutual Funds: Rs.150/- per subscription of Rs.10,000/- and above.

However, there will be no transaction charge on:

- i. Subscription of less than Rs. 10,000/-; or
- ii. Transactions other than purchases/subscriptions relating to new inflows such as Switch/STP/SWP/DTP, etc.; or
- iii. Direct subscription (subscription not routed through distributor); or
- iv. Subscription routed through distributor who has chosen to 'Opt-out' of charging of transaction charge.

The transaction charge as mentioned above will be deducted by AMC from subscription amount of the Unitholder and paid to distributor and the balance shall be invested in the Scheme.

The distributors shall also have the option to either opt in or opt out of levying transaction charge based on type of the product.

V. RIGHTS OF UNITHOLDERS

Please refer to SAI for details.
