BOP Strategy June 2020

Motilal Oswal Asset Management PORTFOLIO STRATEGY SIT TIGHT

Investment Objective

The PMS Strategy will invest in a high conviction concentrated portfolio of minimum 20 stocks. The portfolio will be constructed based on in-depth research leading to bottom-up stock picking with a view of Wealth Creation from 3 – 4 years perspective

Key Features

- 1. BOP is a multi-cap strategy with a balanced mix of Large Cap, Mid Cap and Small Cap allocation
- 2. Newly ideated portfolio in 2018 amidst difficult market cycle, yet the portfolio has delivered alpha over its benchmark in both the CYs
- 3. Concentrated portfolio of 18 stocks with high earnings growth

Portfolio Attributes

- 1. Index agnostic: ~73% away from benchmark Nifty 500
- 2. Given that the portfolio's themes (Consumer Discretionary, Affordable Housing and GST Beneficiaries) are in line with the government's vision, BOP seems well poised to deliver superior returns from a 3-4 years perspective
- 3. Multiple portfolio changes have been done in the past 3-4 months to enhance the overall quality of the portfolio. While the economy is still going through a downturn, the portfolio has been positioned in well-chosen themes: primarily select consumer and financial services businesses which are expected to perform relatively better in a tough economic environment.
- 4. BOP's FY20 outperformance over Nifty 500 stood at ~11%
