

# Motilal Oswal Long Term Equity Fund

A fund of Long Term Compounders

January 2021

*“A penny saved is a penny earned.”*

**-Benjamin Franklin**

Dual Advantage – Save Tax + Build Wealth

# What are the different ways of saving taxes?

ELSS offers least lock-in period with market linked returns

	PFC	NSC	Bank Deposits	ELSS
Lock-in	15 years	5 or 10 years	5 years	3 years
Returns	8.0%	8.0%	6.5% to 7.25%	Market Linked
Tax on returns	Tax free	Taxable	Taxable	Tax Free

# What is a smart way to save taxes? – Benefits of ELSS

Equity Linked Saving Scheme, also known as **ELSS** is a type of mutual fund scheme investing in equity market. Investments under these schemes, give investors the benefit of **tax saving of up to 1.5 Lac** under section 80C of the Income Tax Act.

## Tax Saving Instrument

- Offers the benefit under 80C of Income Tax Act
- Save upto Rs. 46,800\* in taxes by investing in ELSS funds

## Helps in wealth creation through equity investing

- Investing through ELSS helps investor build wealth by systematic investing in equity markets
- QGLP framework aims at building a robust portfolio

## Efficient tax planning through small investing

- Investors can do efficient tax planning by allocating a small amount every month through systematic investment plan or SIP

\* Considering 4% educational cess on tax. Including cess, the tax saving per annum would amount to 31.2% of Rs. 1.5 Lakh or Rs. 46,800

# Why Motilal Oswal Long Term Equity Fund (MOF LTE)?

A fund with portfolio of long term compounders

# What happens after a crisis? - Leaders become Fitter & Stronger

November, 2016

July, 2017

September, 2018

September, 2019

March, 2020

Demonetization

GST Implementation

IL&FS Crisis

Corporate Tax Cuts

COVID

Significant economic events, positive or negative, favour market leaders and leads to consolidation

What does consolidation mean for an company?

Reduced competitive intensity

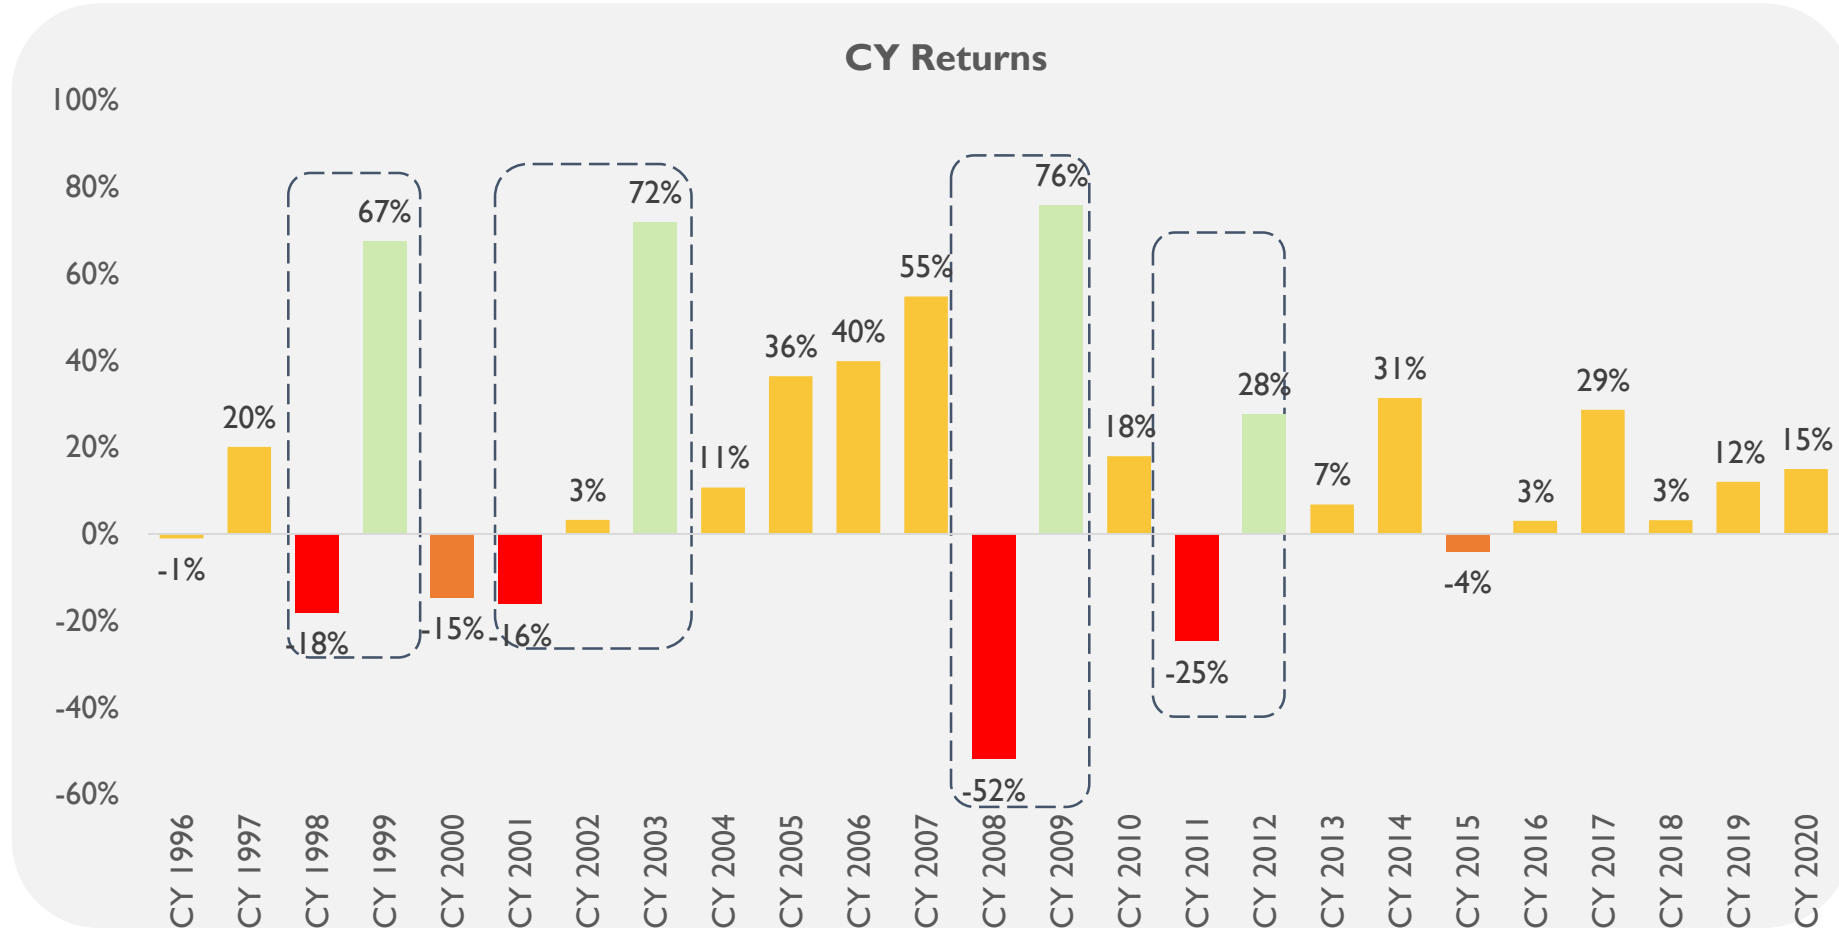

Higher market share

Increased revenue

Superior pricing power

Increased profitability

# What happens after a crisis? - Crisis is followed by sharp recovery

**Crisis is followed by sharp period of recovery as the long term fundamentals of the economy don't change much**

Data since November 30, 1995 till December 31, 2020. Total 25 observations

	Crompton Consumer	3%
	Maruti Suzuki	2%
	VIP Industries	2%
	ITC	1%

# While 39% of the portfolio remains invested in essentials

# Key Themes

# Theme I: Consolidation in the lending space

Top 5 banks command 46% market share in India, versus 80% as seen in countries globally

## Top 5 banks in India to consolidate market share

- The five bank concentration ratio in India stands at ~46% level; vs ~80% being the median for 30 large economies globally.
- We believe the top banks in India; especially the top 3-4 private banks are very well positioned today to consolidate market share.

## Strong liability franchises

- A very strong liability franchise; and good underwriting discipline are the key tenets of sustainable compounding in a lending business.
- The banks we own in the fund are the ones which clearly lead on these metrics.

## PSU to PVT value migration to continue

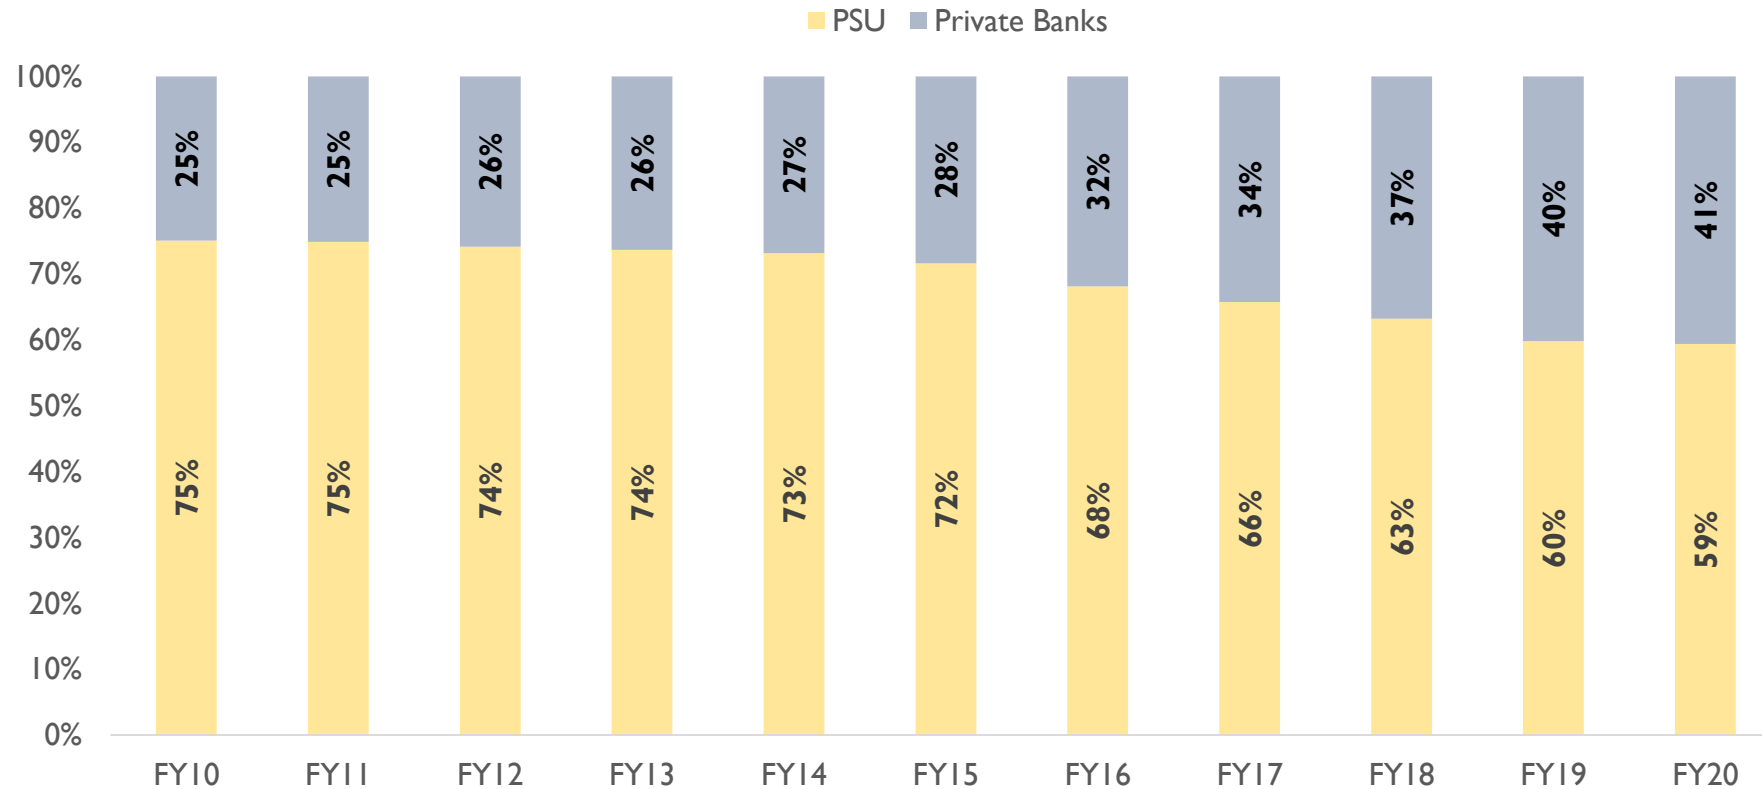

- PSU banks have structural shortcomings of a promoter whose interests are not aligned with minority shareholders, weak underwriting capabilities, being capital starved, etc.
- Hence, expect value migration from PSU to PVT to continue.

## Attractive valuations

- Financial stocks were badly hit during the sell-off caused by COVID
- Unlike other sectors, stock prices for banks are yet to see a bounce-back
- Believe this is a temporary mispricing for larger, well run private banks with good liability franchises and underwriting capabilities.

# Market Share in the Indian Banking System

- **Share of Private Banks has increased from 25% to 41% in the last decade**
- **FY30 private banks market share = 55% ???**

## Theme 2: Supply side Consolidation: Survivors in a tough cycle = eventual winners

Distinctive and durable market leaders likely to benefit despite short term headwinds

### India's growth potential remains intact

- India despite facing multiple challenges over the years; has a track record of ~14% nominal GDP growth over the last 4 decades.
- We believe the basic building blocks to this long term growth remain intact; the pandemic should be a passing event.

### Economic environment to accelerate consolidation

- Every downturn tests the survival of the fittest.
- Weak players in an industry suffer the most (especially the unorganized; and players with weak balance sheets).
- Consequently, in the recovery that ensues; the strong get stronger.

### Focus on market leaders

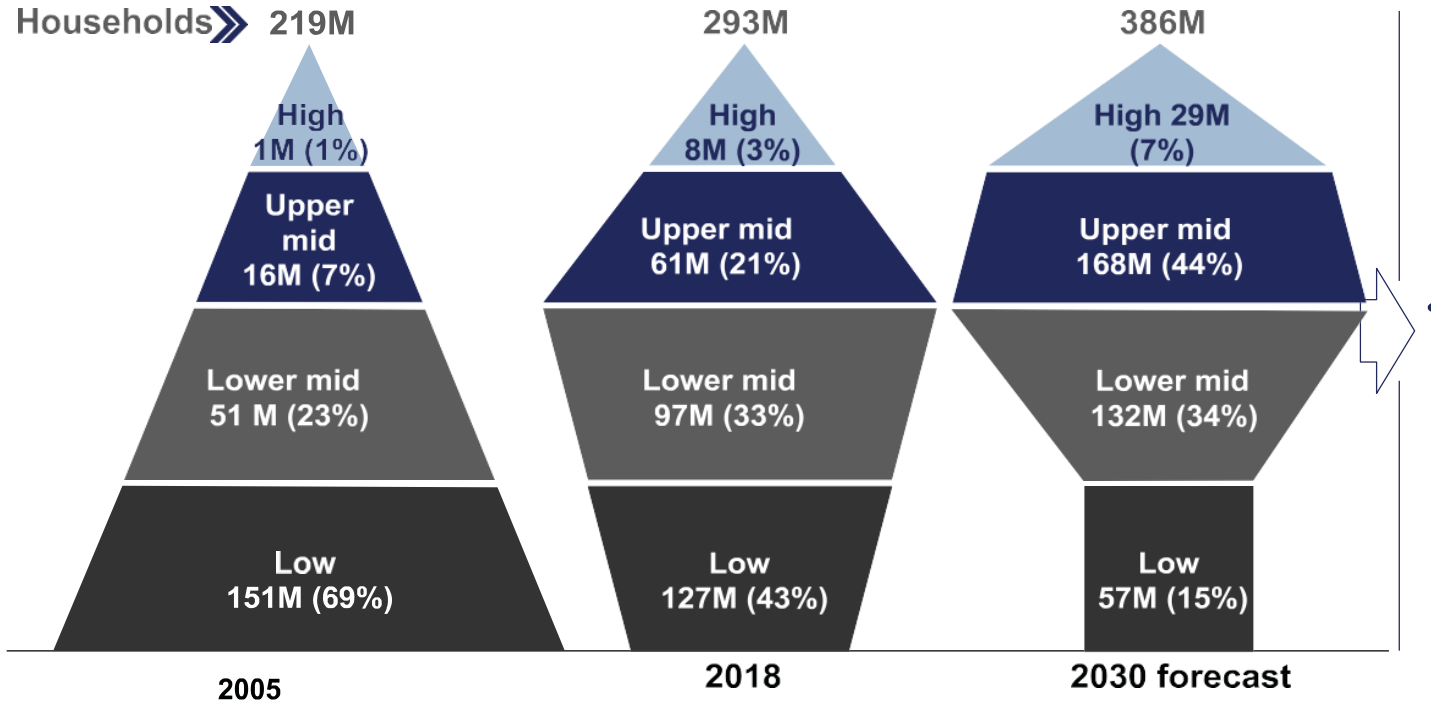

- Accelerated formalization of the economy to benefit market leaders
- High stress economic environments necessitate that the strongest will be able to not just survive, but thrive.

### Look beyond the short term

- Template for multi-baggers; vision to see, courage to buy and patience to hold
- Patience is the rarest of the three attributes. We believe; today as we're still in the middle of the pandemic; our patience is being tested.
- However, as the dust settles; we believe we will be well rewarded for our patience.

## Theme 3: Consumer Discretionary – Long Runway for Growth

### Evolution of the household-income profile in India

### High Income & Upper Middle Segment

- 1 in 4 households today
- 1 in 2 households by 2030

Note: Low income: <\$4,000, Lower-mid: \$4,000-8,500, Upper-mid: \$8,500-40,000, High income: >\$40,000 basis income per household in real terms;
