BUY RIGHT : SIT TIGHT

Buying quality companies and riding their growth cycle

At Motilal Oswal Asset Management Company (MOAMC), our investment philosophy and investing style is centered on 'Buy Right: Sit Tight' principle. 'Buy Right' means buying quality companies at a reasonable price and 'Sit Tight' means staying invested in them for a longer time to realise the full growth potential of the stocks.

It is a known fact that good quality companies are in business for decades but views about these companies change every year, every quarter, every month and sometimes every day! While many of you get the first part of identifying good quality stocks, most don't stay invested for a long enough time. The temptation to book profits at 25% or 50% or even 100% returns in a 1 to 3 year period is so natural that you miss out on the chance of generating substantial wealth that typically happens over the long term; say a 10 year period.

'Buy Right' Stocks Characteristics

QGLP

- **'Q'uality** denotes quality of the business and management
- **'G'rowth** denotes growth in earnings and sustained RoE
- **'L'ongevity** denotes longevity of the competitive advantage or economic moat of the business
- **'P'rice** denotes our approach of buying a good business for a fair price rather than buying a fair business for a good price

Sit Tight Approach

- **Buy and Hold:** We are strictly buy and hold investors and believe that picking the right business needs skill and holding onto these businesses to enable our investors to benefit from the entire growth cycle needs even more skill.
- **Focus:** Our portfolios are high conviction portfolios with 25 to 30 stocks being our ideal number. We believe in adequate diversification but over-diversification results in diluting returns for our investors and adding market risk

This Buy Right : Sit Tight philosophy manifests itself in all the products in our Portfolio Management and Equity Mutual Fund schemes
