6) **Risk Factors:**

The investments made in securities are subject to market risk and there is no assurance or guarantee that the objectives of investments will be achieved. Following are the risk factors as perceived by management:

- Investment in equities, derivatives and mutual funds and Exchange Traded Index Funds are subject to market risks and there is no assurance or guarantee that the objective of investments will be achieved.
- As with any investment in securities, the Net Asset Value of the portfolio can go up or down depending upon the factors and forces affecting the capital markets.
- The performance of the portfolio may be affected by changes in Government policies, general levels of interest rates and risks associated with trading volumes, liquidity and settlement systems in equity and debt markets.
- The past performance of the Portfolio Manager does not indicate its future performance. Investors are not being offered any guaranteed returns.
- The performance of the Assets of the Client may be adversely affected by the performance of individual securities, changes in the market place and industry specific and macro economic factors. The investment strategies are given different names for convenience purpose and the names of the Strategies do not in any manner indicate their prospects or returns.
- Investments in debt instruments and other fixed income securities are subject to default risk, liquidity risk and interest rate risk. Interest rate risk results from changes in demand and supply for money and other macroeconomic factors and creates price changes in the value of the debt instruments. Consequently, the Net Asset Value of the portfolio may be subject to fluctuation.
- Investments in debt instruments are subject to reinvestment risks as interest rates prevailing on interest amount or maturity due dates may differ from the original coupon of the bond, which might result in the proceeds being invested at a lower rate.
- The Portfolio Manager may invest in non-publicly offered debt securities and unlisted equities. This may expose the Client's portfolio to liquidity risks.
- Engaging in securities lending is subject to risks related to fluctuations in collateral value/settlement/liquidity/counter party.
- The Portfolio Manager may use derivatives instruments like index futures, stock futures and options contracts, warrants, convertible securities, swap agreements or any other derivative instruments for the purpose of hedging and portfolio balancing, as permitted under the

Regulations and guidelines. Usage of derivatives will expose the Portfolio to certain risks inherent to such derivatives. As and when the Portfolio Manager deals in the derivatives market on behalf of the Client, there are risk factors and issues concerning the use of derivatives that investors should understand.

- Derivative products are specialized instruments that require investment techniques and risk analyses different from those associated with stocks and bonds. The use of a derivative requires an understanding not only of the underlying instrument but of the derivative itself. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to forecast price or interest rate movements correctly. There is the possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the “counter party”) to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mispricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices. Thus, derivatives are highly leveraged instruments. Even a small price movement in the underlying security could have a large impact on their value.
- There are inherent risks arising out of investment objectives, investment strategy, asset allocation and non-diversification of portfolio.
- The Net Asset Value may be affected by changes in settlement periods and transfer procedures.

Annexure A

Following are the actions taken or initiated by the SEBI against Portfolio Manager in its capacity as Asset Management Company (MOAMC) to Motilal Oswal Mutual Fund:

- MOAMC had received a letter from SEBI dated July 26, 2013 with reference to one complaint filed with SEBI wherein the complainant has alleged that disclosure of historical data pertaining to Index in NFO advertisement of the Scheme, Motilal Oswal MOST Shares Midcap 100 ETF (MOST Shares Midcap 100) was misleading. On that basis SEBI had issued a letter directing the Management to avoid recurrence of such instance in future and to place its letter before the Trustee and AMC Board.

In this regard, the Company clarified to SEBI that the historical data used in the advertisement material of the MOST Shares Midcap 100 was provided by India Index Services Ltd. (IISL). As, you are aware it is general practice for index providers to launch an index on a particular date and make past data available in time series form at going back years. The purpose is purely analytical in nature for getting an understanding of how such index has behaved over time. The historical data pertaining to Midcap 100 Index was made available by IISL under a licensing arrangement and making available index data for various historical purposes is normal practice with all indices and index providers. Further, in the advertisement material had clearly mentioned the source of that data as IISL whereby informing the prospective investor that the Company had relied on the historical data published and maintained by a third party. Hence, the Company had not violated any provisions of the advertisement guidelines issued by SEBI.

Therefore SEBI was requested to take note of abovementioned clarification.

- MOAMC had reported to SEBI regarding non-compliance of clause 1B of seventh schedule to sub-regulation 1 of regulation 44 under the Scheme, Motilal Oswal MOST Ultra Short Term Bond Fund, in the Compliance Test Reports for the Bi-month period ended September 2013 and November 2013. The same was informed to the Board at its meeting held on December 26, 2013.

Pursuant to above reporting, SEBI issued a letter having reference no. OW/4941/2014 dated February 13, 2014, advising MOAMC to improve compliance standards, strengthen the systems and have proper checks and balances in place to avoid such instances in future.

- The AMC had received a letter from SEBI dated October 5, 2015 wherein they have communicated concerns which it had observed while conducting on-site visit on IAP conducted by Motilal Oswal Mutual Fund wherein they observed that the AMC vide its e-mail dated June 23, 2015 had reported that the IAP was conducted at the scheduled time and venue but actually a Distributor training event was conducted, wherein training

was provided to the Distributors. In this regard SEBI warned and advised to take due care with regards to utilisation of 2 bps to the investor education and awareness purpose and ensure compliance with all statutory provisions.

In response to the above mentioned letter, AMC had sent a letter dated November 10, 2015 stating that in consultation with the Distributor, AMC had scheduled the IAP on May 20, 2015 @ 4.30 pm at NJ Ghatkopar - Office no 306, 3rd Floor, Zest Business Space, Ghatkopar East, Mumbai - 400077. However, on reaching the venue, the Distributor informed that they had communicated the time of IAP at 7:00 pm to their Investors at same venue. Thus, having reached there early, we decided to spend the time with the Distributor and IAP meeting was conducted at 7:00 pm instead of 4:30 pm. However, we regret that due to oversight, we inadvertently reported the wrong time while reporting the IAP event conducted. Further also clarified that expenses incurred in organizing the IAP at Ghatkopar has not been charged from 2 bps set aside from the Scheme but are borne by the AMC. The AMC requested SEBI to withdraw the warning.

- MOAMC, inter alia, acts as an Asset Management Company to Motilal Oswal Mutual Fund (MOMF) and is subject to periodical SEBI inspections of MOMF, its Registrar & Transfer Agent & Custodian. During the said inspection of Registrar & Transfer Agent, SEBI vide its letter dated November 16, 2015 has advised to take due care in compliance mechanism. Necessary steps have been taken to avoid recurrence of instances and systems have been strengthened. The following are the details:

➤ Requirement relating to Investors (20 – 25)

With respect to the aforesaid point, SEBI warned and advised the AMC to take due care in future and improve the compliance mechanism and standards to avoid reoccurrence of such instances.

In this regard, the AMC clarified that the reporting is done as on half year end and hence details of only those investors who were holding more than 25 percent as on the end of half year period are provided as a note to the Half Yearly Financials and also submitted that this practice is in line with the industry practice and hence also followed by us. AMC further requested to withdraw the warning and also to provide a guidance note across the industry so as to have clarity on the aforesaid regulation.

➤ Business with brokers. Non Availability of records relating to empanelment of brokers:

With respect to the above deficiency, SEBI advised to strengthen the process and systems so that such lapses do not occur in future.

In this regard, AMC took note of the above point and shall ensure the same.

- The AMC had received a warning letter from SEBI dated May 19, 2016 in accordance with Regulation 28(5) of SEBI (Mutual Funds) Regulations, 1996 which states that the Sponsor or asset management company of schemes existing as on date of notification of the SEBI (Mutual Funds) (Amendment) Regulations, 2014 shall invest not less than one percent of the assets under management of the scheme as on date of notification of these regulations or fifty lakh rupees, whichever is less, in the growth option of the scheme and such investment shall not be redeemed unless the scheme is wound up.

In response to the above mentioned letter, the AMC had sent a letter dated August 4, 2016 submitting that Motilal Oswal Group's investment in the MOST Focused 25 was approximately Rs. 48 crores under Growth and Dividend reinvestment options. Our Sponsor, Motilal Oswal Securities Limited (MOSL) and the Sponsor's holding company, Motilal Oswal Financial Services Limited (MOFSL) had redeemed its investments from the Growth Option of the Scheme retaining investment of appx Rs. 2.5 crs in the Direct Plan - Dividend Reinvestment Option of the Fund. Since both the options i.e. growth option and dividend reinvestment option have similar characteristics i.e. in case of investment in growth option, the number of units remains same and the NAV per unit increases. However, in case of investment in dividend reinvestment option the number of unit increases, but total NAV would remain more or less same under both the options. Further it was also submitted that the Fund had complied with the SEBI requirement in spirit and therefore SEBI taking serious view of the matter and issuing warning to us is not warranted and requested SEBI to review their decision.

Further, to comply with specific communication, the AMC has invested in the Growth Option of the Scheme, Motilal Oswal MOST Focused 25 Fund and we have frozen the relevant folios and are continuously monitoring the same.
