Our Investment Philosophy

The recommended way to create Wealth from equity- 'Buy Right : Sit Tight'

At Motilal Oswal Asset Management Company (MOAMC), our investment philosophy and investing style is centered on 'Buy Right: Sit Tight' principle. 'Buy Right' means buying quality companies at a reasonable price and 'Sit Tight' means staying invested in them for a longer time to realise the full growth potential of the stocks.

Buy Right Stock Characteristics

QGLP

- **'Q'quality** denotes quality of the business and management
- **'G'rowth** denotes growth in earnings and sustained RoE
- **'L'ongevity** denotes longevity of the competitive advantage or economic moat of the business
- **'P'rice** denotes our approach of buying a good business for a fair price rather than buying a fair business for a good price

Sit Tight Approach

- **Buy and Hold:** We are strictly buy and hold investors and believe that picking the right business needs skill and holding onto these businesses to enable our investors to benefit from the entire growth cycle needs even more skill.
- **Focus:** Our portfolios are high conviction portfolios with 25 to 30 stocks being our ideal number. We believe in adequate diversification but over-diversification results in diluting returns for our investors and adding market risk

Benefits of our Equity Mutual Fund Schemes

Low Churn

- Higher portfolio churn can increase the fund expenses disproportionately affecting the returns of the fund directly
- Frequent churn may not let you reap the full growth potential of the stocks leading to poor returns
- Hence we research extensively before we buy any stock and hold onto them for years to reap the full growth potential

High Conviction

- Too many stocks become unmanageable for the fund managers
- Over-diversified portfolio takes away the potential of quality stocks
- Risk comes from not knowing the stocks hence diversification beyond ones control can increase the risk
- Hence we believe in adequate diversification with less number of stocks in our portfolio

Scheme details

	MOF25	MOF30	MOF35	MOFDYNAMIC	MOFLTE
Type of Scheme:	An open ended equity scheme investing in maximum 25 stocks intending to focus on Large Cap stocks	Mid cap fund an open ended equity scheme predominantly investing in mid cap stocks	Multicap fund an open ended equity scheme investing across large cap, mid cap, small cap stocks	An open ended dynamic asset allocation fund	An open ended equity linked saving scheme with a statutory lock in of 3 years and tax benefit
Investment Objective:	The investment objective of the Scheme is to achieve long term capital appreciation by investing in up to 25 companies with long term sustainable competitive advantage and growth potential.	The investment objective of the Scheme is to achieve long term capital appreciation by investing in a maximum of 30 quality mid-cap companies having long-term competitive advantages and potential for growth.	The investment objective of the Scheme is to achieve long term capital appreciation by primarily investing in a maximum of 35 equity & equity related instruments across sectors and market-capitalization levels.	The investment objective is to generate long term capital appreciation by investing in equity and equity related instruments including equity derivatives, debt, money market instruments and units issued by REITs and InvITs.	The investment objective of the Scheme is to generate long-term capital appreciation from a diversified portfolio of predominantly equity and equity related instruments.
	However, there can be no assurance or guarantee that the investment objective of the Scheme would be achieved.
