SECTION I

PART I: HIGHLIGHTS/SUMMARY OF THE SCHEME

Sr. No.	Title	Description
I.	Name of the scheme	Motilal Oswal Arbitrage Fund
II.	Category of the Scheme	Arbitrage Fund
III.	Scheme type	An open-ended equity scheme investing in arbitrage opportunities
IV.	Scheme code	MOTO/O/H/ARB/24/07/0064
V.	Investment objective	The primary investment objective of the scheme is to generate long term growth of capital by predominantly investing in arbitrage opportunities present between the cash and derivate markets, as well as within the derivative segment, complemented by investments in debt securities and money market instruments. However, there can be no assurance that the investment objective of the scheme will be realized.
VI.	Liquidity	The Scheme is open for Subscription and Redemption of Units on every Business Day on an ongoing basis. As per SEBI (MF) Regulations, the Mutual Fund shall dispatch redemption proceeds within 3 Business Days of receiving a valid Redemption request. A penal interest of 15% per annum or such other rate as may be prescribed by SEBI from time to time, will be paid in case the redemption proceeds are not made within 3 Working days from the date of receipt of a valid redemption request.
VII.	Benchmark (Total Return Index)	Nifty 50 Arbitrage Index Total Return Index. The performance of the Scheme will be benchmarked against Nifty 50 Arbitrage Index Total Return Index as the scheme will invests primarily following Arbitrage based investing theme. The above benchmark is in accordance with para 7.22.5 of SEBI Master Circular on Mutual Funds pertaining to 'Guiding Principles for bringing uniformity in Benchmarks of Mutual Fund Schemes' and the list published by AMFI in this regard on Tier 1 benchmark for equity scheme. Hence, the above mentioned benchmark will be able to give a true and accurate comparative analysis. Total Return variant of the index (TRI) will be used for performance comparison.
VIII.	NAV disclosure	The NAV will be calculated on all business days and shall be disclosed in the manner specified by SEBI. The AMC shall update the NAVs on its

		website www.motilaloswalmf.com and also on AMFI website www.amfiindia.com before 11.00 p.m. on every business day. If the NAVs are not available before 11.00 p.m. on any business day, the reason for delay in uploading NAV would be explained to AMFI in writing. If the NAVs are not available before commencement of Business Hours on the following day due to any reason, the Mutual Fund shall issue a press release giving reasons and explaining when the Mutual Fund would be able to publish the NAVs. Further, AMC will extend facility of sending latest available NAVs to unitholders through SMS, upon receiving a specific request in this regard. Further Details in Section II
IX.	Applicable timelines	Dispatch of redemption proceeds: The transfer of redemption or repurchase proceeds to the unitholders shall be made within three working days from the date of redemption or repurchase. However, in case of exceptional circumstances as provided by AMFI vide its letter no. AMFI/35P/MEMCOR/74/2022-23 dated January 16, 2023, the redemption or repurchase proceeds will be transferred / dispatched to unitholders within the time frame prescribed for such exceptional circumstances. Dispatch of IDCW: The payment of dividend/IDCW to the unitholders shall be made within seven working days from the record date.
X.	Plans and Options Plans/Options and sub options under the Scheme	The Scheme has two Plans: (i) Regular Plan and (ii) Direct Plan Regular Plan is for Investors who purchase/subscribe units in a Scheme through any Distributor (AMFI Registered Distributor/ARN Holder). Direct Plan is for investors who purchase/subscribe units in a Scheme directly with the Fund and is not routed through a Distributor (AMFI Registered Distributor/ARN Holder). IDCW* (IDCW Payout and IDCW Reinvestment) and Growth. IDCW Option: - Under this Option, the Trustee reserves the right to declare IDCW under the Scheme depending on the net distributable surplus available under the Option. It should, however, be noted that actual declaration of IDCWs and the frequency of distribution will depend, inter-alia, on the availability of distributable surplus and will be entirely at the discretion of the Trustees or any Committee authorised by them. If IDCW payable under the IDCW payout option is equal to or less than Rs. 500/-, then it would be compulsorily re-invested in the Option of the Scheme.

		Pursuant to chapter 12 of SEBI Master Circular on Mutual Funds, IDCW can be distributed out of investor’s capital (Equalization Reserve), which is part of sale price that represents realized gains. *Income Distribution cum capital withdrawal option. Growth Option: - All Income earned and realized profit in respect of a unit issued under that will continue to remain invested until repurchase and shall be deemed to have remained invested in the option itself which will be reflected in the NAV. The AMC reserves the right to introduce further Options as and when deemed fit. Investors subscribing Units under Direct Plan of a Scheme should indicate “Direct Plan” against the Scheme name in the application form. Investors should also mention “Direct” in the ARN column of the application form. The table showing various scenarios for treatment of application under “Direct/Regular” Plan is as follows: <table><tr><th>Scenario</th><th>Broker Code mentioned by the investor</th><th>Plan mentioned by the investor</th><th>Default Plan to be captured</th></tr><tr><td>1</td><td>Not mentioned</td><td>Not mentioned</td><td>Direct</td></tr><tr><td>2</td><td>Not mentioned</td><td>Direct</td><td>Direct</td></tr><tr><td>3</td><td>Not mentioned</td><td>Regular</td><td>Direct</td></tr><tr><td>4</td><td>Mentioned</td><td>Direct</td><td>Direct</td></tr><tr><td>5</td><td>Direct</td><td>Not Mentioned</td><td>Direct</td></tr><tr><td>6</td><td>Direct</td><td>Regular</td><td>Direct</td></tr><tr><td>7</td><td>Mentioned</td><td>Regular</td><td>Regular</td></tr><tr><td>8</td><td>Mentioned</td><td>Not Mentioned</td><td>Regular</td></tr></table> In cases of wrong/ invalid/ incomplete ARN code mentioned on the application form, the application will be processed under Direct Plan. PART II. INFORMATION ABOUT THE SCHEME

A. HOW WILL THE SCHEME ALLOCATE ITS ASSETS

The asset allocation would be as follows:

Instruments	Indicative Allocations	
	Minimum	Maximum
Equity & Equity related instruments including derivatives	65	100
Debt & Money Market instruments* including the margin money deployed in derivative transactions^	0	35

*Debt and Money Market Instruments includes Commercial papers, Commercial bills, Treasury bills, TREPS, Government securities having an unexpired maturity up to one year, call or notice money, certificate of deposit, Bills Rediscounting, usance bills, bonds, NCD's and any other like instruments as specified by the Reserve Bank of India(RBI)/ Securities and Exchange Board of India (SEBI) from time to time.

^The exposure to derivative shown in the above asset allocation table is the exposure taken against the underlying equity investments and should not be considered for calculating the total asset allocation. The idea is not to take additional asset allocation with the use of derivatives.

The notional value exposure in derivatives securities would be reckoned for the purposes of the specified limits, the margin money deployed on these positions would be included in the Money Market category.

The maximum derivative position will not exceed 100% of the net assets of the Scheme. Pursuant to para 13.18.1 of SEBI Master Circular on Mutual Funds, the cumulative gross exposure through equity, debt, derivative positions, other permitted securities/assets and such other securities/assets as may be permitted by SEBI from time to time, subject to regulatory approvals, if any, shall not exceed 100% of the net assets of the scheme, subject to approval if any.

The Scheme shall at all times endeavor to take advantage of the arbitrage opportunities available due to difference in pricing emerging between cash market and the derivatives market. However, as the Scheme wants to avail of the benefit granted under the Income-tax Act to equity-oriented funds as defined under Section 115T, the Scheme shall, in the absence of adequate income earning arbitrage opportunities, invest only in equity shares of domestic companies.

Cash and cash equivalents pursuant to para 13.18.6(a) of SEBI Master Circular on Mutual funds and as per SEBI letter no. SEBI/HO/IMD-II/DOF3/ OW/P/ 2021/ 31487 / 1 dated November 03, 2021 which includes T-bills, Government Securities and Repo on Government Securities having residual maturity of less than 91 Days, shall not be considered for the purpose of calculating gross exposure limit.

Rebalancing due to Passive Breaches:

Subject to the Regulations and para 3.11 of SEBI Master Circular on Mutual Fund; the asset allocation pattern

indicated above for the Scheme may change from time to time. In the event of deviation from the mandated asset allocation of the Scheme mentioned in the SID due to passive breaches (occurrence of instances not arising out of omission and commission of AMC), then the AMC shall rebalance the portfolio within a period of 30 business days. Where the portfolio is not rebalanced within 30 business days, justification writing, including details taken to rebalance the portfolio shall be placed before the Investment Committee. The Investment Committee, if so desires, can extend the timelines up to sixty (60) business days from the date of completion of mandated rebalancing period.

In case, the portfolio of scheme is not rebalanced within the aforementioned mandated plus extended timelines, AMCs shall: i) not be permitted to launch any new scheme till the time the portfolio is rebalanced. ii) not to levy exit load, if any, on the investors exiting such scheme(s).

Rebalancing due to Short Term Defensive Consideration:

Due to market conditions, the AMC may invest beyond the range set out in the asset allocation, subject to the Regulations, the asset allocation pattern indicated above may change from time to time, keeping in view market conditions, market opportunities, applicable regulations, legislative amendments and political and economic factors. It must be clearly understood that the percentages stated above are only indicative and not absolute.

These proportions can vary depending upon the perception of the fund manager; the intention being at all times to seek to protect the interests of the Unit holders. In accordance with para 1.9.1(b) of SEBI Master Circular on Mutual Funds, such changes in the investment pattern will be for short term on defensive considerations only and the fund manager will rebalance the portfolio within 30 calendar days from the date of deviation.

Indicative Table (Actual instrument/percentages may vary subject to applicable SEBI circulars)

The allocation will be subject to SID provisions related to asset allocation, investment by the scheme and investment strategy.

B. WHERE WILL THE SCHEME INVEST

The corpus of the Scheme will be invested primarily in Equity and Equity Related Securities. The Scheme may invest its corpus in Debt & Money Market instruments including the margin money deployed in derivative transactions, G-Sec, Bonds, Cash and cash equivalents etc.

Subject to the Regulations and other prevailing Laws as applicable, the corpus of the Scheme can be invested in any (but not exclusively) of the following Securities:

- Equity and Equity Related Securities
- Debt and Money Market instruments (including cash and cash equivalents)
- Derivatives as may be permitted by SEBI / RBI
- Units of Mutual Fund
- Pending deployment of funds as per the investment objective of the Scheme, the funds may be parked in short term deposits of scheduled commercial banks, subject to guidelines and limits specified by SEBI.
- Any other instruments as may be permitted by RBI / SEBI regulatory authorities under prevailing Laws from time to time.

The investment restrictions and the limits are specified in the Schedule VI of SEBI Regulations which are mentioned in the section 'Investment Restrictions'.

For detailed derivatives strategies, please refer SAI.

For detailed information kindly refer Section II.

C. WHAT ARE THE INVESTMENT STRATEGIES

The scheme aims to generate returns by strategically investing in arbitrage opportunities between spot and future prices of exchange traded equities and the arbitrage opportunities available within the derivative segment. If, in the opinion of the Fund Manager, suitable arbitrage opportunities are unavailable, the scheme may predominantly invest in short-term debt and money market securities.

Some of the arbitrage strategies that may be adopted by the fund manager from time to time include:

Cash-Future Arbitrage: Arbitrage captures the spread, between the price of a stock in the spot market and in the futures market on a market neutral basis. If the price of a stock in the futures market is higher than in the spot market, after adjusting for taxes and other costs the Scheme may buy the stock in the spot market and sell the same stock in equal quantity in the futures market simultaneously. This enables to the fund to earn the cost of carry between the stock and the futures of the stock.

If the futures are quoting at a discount to the price in the cash market before the expiry the trade may be reversed by buying the futures and selling the shares in the cash market which, will enhance the profit potential to the extent of discount between future as compared to cash market. Normally the price between cash and future segment tend to converge on the expiry day. The cash and future trade would be reversed on the expiry day to book the locked arbitrage profit.

Rolling over of the futures transaction:

Rolling over of the futures transaction means:

1) Unwinding the short position in the futures and simultaneously selling futures of a subsequent month; and

2) Holding onto the spot position.

There could also be instances of unwinding both the spot and the future position before the expiry of the current month future if it proves advantageous or to meet redemption

Dividend Arbitrage: Usually during the period prior to dividend declaration, the stock futures/options market can provide a profitable opportunity. Generally, the stock price declines by the dividend amount when the stock goes ex-dividend.

Buy-back arbitrage: When the company announces the buy-back of its own shares, there could be opportunities due to the price differential in buy-back price and traded price.

Nifty Spot - Nifty Futures: The pricing of Nifty Futures is derived from the Nifty. When the two go out of sync, there arises opportunities. The cost of carry binds the futures price to the price of the underlying asset.

For instance, the price of the Nifty futures at any given point in time should typically be more than the level of Nifty at that point of time. Cash and carry trades at times provide higher return than the prevailing interest rates. There is an opportunity to exploit by buying the index futures and selling the portfolio comprising of index stocks. The cash received upon the sale is reinvested at the risk-free rate of return till the expiration of the futures contract. The arbitrage profits come in at the expiration of the futures contract when the position is unwound by buying back the index stocks, or until expiry if the rates converge. The same strategy can be replicated with stock futures also

Buy Option: The options component would be actively managed in an attempt to take advantage of the volatility in the markets to enhance returns. The risk of investing in options is that the views of the portfolio manager may not materialize, and the entire option premium paid could be lost. The scheme would also look at investment in the equities market including subscribing to IPOs. The provision for trading in derivatives is an enabling provision and it is not binding on the Scheme to undertake trading on a day-to-day basis. There are various possible combinations of strategies which may be adopted in a specific situation. The Fund Manager may apply such other arbitrage strategies as may be available/permissible under regulations from time to time.

Concepts and Examples

Futures

Futures (Index & Stocks) are forward contracts traded on the exchanges & have been introduced both by BSE and NSE. Currently futures of 1 month (near month), 2 months (next month) and 3 months (far month) are traded on these exchanges. These futures expire on the last working Thursday of the respective months.

Illustration with Index Futures

In case the Nifty spot is trading at say, Rs. 11,700, and the fund manager has a view that it will depreciate going forward; the Scheme can initiate a sell transaction of Nifty futures at Rs. 11,736 without holding a portfolio of equity stocks or any other underlying long equity position. Once the price falls to Rs. 11,500 after say, 20 days, the Scheme can initiate a square-up transaction by buying the said futures and book a profit of Rs. 236.

Correspondingly, if the fund manager has a positive view he can initiate a long position in the index / stock futures without an underlying cash/ cash equivalent subject to the extant regulations.

There are futures based on stock indices as mentioned above as also futures based on individual stocks. The profitability of index /stock future as compared to an individual security will inter-alia depend upon:

- The carrying cost,
- The interest available on surplus funds, and
- The transaction cost.

Example of a typical future trade and the associated costs:

particular	Index Future	Actual Purchase of Stocks
Index at the beginning of the month	11,700	11,700
Price of 1 Month Future	11,736	
A. Execution Cost: Carry and other index future costs	36	14.04

B. Brokerage Costs:	5.868	
(0.05% of Index Future and 0.12% for spot stocks)		
C. Gains on Surplus Funds:	49.195	0
(Assumed 6.00% p.a. return on 85% of the money left after paying 15% margin)		
(6.00%*11700*85%*30days/365)		
Total Cost (A+B-C)	-7.33	14.04

Few strategies that employ stock /index futures and their objectives:

(a) Arbitrage

(1) Buying spot and selling future: Where the stock of a company “A” is trading in the spot market at Rs. 100 while it trades at Rs. 102 in the futures market, then the Scheme may buy the stock at spot and sell in the futures market thereby earning Rs. 2.

Buying the stock in cash market and selling the futures results into a hedge where the Scheme has locked in a spread and is not affected by the price movement of cash market and futures market. The arbitrage position can be continued till expiry of the future contracts when there is a convergence between the cash market and the futures market. This convergence enables the Scheme to generate the arbitrage return locked in earlier.

(2) Selling spot and buying future: In case the Scheme holds the stock of a company “A” at say Rs. 100 while in the futures market it trades at a discount to the spot price say at Rs. 98, then the Scheme may sell the stock and buy the future

On the date of expiry of the stock future, the Scheme may reverse the transactions (i.e. buying at spot & selling futures) and earn a risk-free Rs. 2 (2% absolute) on its holdings without any dilution of the view of the fund manager on the underlying stock. Further, the Scheme can still benefit from any movement of the price in the upward direction, i.e. if on the date of expiry of the futures, the stock trades at Rs. 110 which would be the price of the futures too, the Scheme will have a benefit of Rs. 10 whereby the Scheme gets the 10% upside movement together with the 2% benefit on the arbitrage and thus getting a total return of 12%. The corresponding return in case of holding the stock would have been 10%. Note: The same strategy can be replicated with a basket of Nifty-50 stocks (Synthetic NIFTY) and the Nifty future index

(b) Buying/ Selling Stock future: When the Scheme wants to initiate a long position in a stock whose spot price is at say, Rs.100 and futures is at 98, then the Scheme may just buy the futures contract instead of the spot thereby benefiting from a lower cost. In case the Scheme has a bearish view on a stock which is trading in the spot market at Rs.98 and the futures market at say Rs. 100, the Scheme may subject to regulations, initiate a short position in the futures contract. In case the prices align with the view and the price depreciates to say Rs. 90, the Scheme can square up the short position thereby earning a profit of Rs.10 vis-a-vis a fall in stock price of Rs. 8.

(c) Hedging: The Scheme may use exchange-traded derivatives to hedge the equity portfolio. Both index and stock futures and options may be used to hedge the stocks in the portfolio. (d) Alpha Strategy: The Scheme will seek to generate alpha by superior stock selection and removing market risks by selling appropriate index. For example, one can seek to generate positive alpha by buying a bank stock and selling Bank Nifty future

Risk associated with these strategies:

1. Lack of opportunities;

2. Inability of derivatives to correlate perfectly with the underlying security; and
3. Execution risk, whereby ultimate execution takes place at a different rates than those devised by the strategy.

Execution of these strategies depends upon the ability of the fund manager to identify and execute based on such opportunities. These involve significant uncertainties and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

Option Contracts (Stock and Index)

An Option gives the buyer the right, but not the obligation, to buy (call) or sell (put) a stock at an agreed-upon price during a certain period of time or on a specific date. Options are used to manage risk or as an investment to generate income. The price at which underlying security is contracted to be purchased or sold is called the Strike Price. Options that can be exercised on or before the expiration date are called American Options while, Options that can be exercised only on the expiration date are called European Options

Options Risk / Return Pay-off Table

Stock/ Index Options	Buy Call	Sell Call	Buy Put	Sell Put
View on Underlying	Positive	Negative	Negative	Positive
Premium	Pay	Receive	Pay	Receive
Risk Potential	Limited to premium paid	Unlimited	Limited to premium paid	Unlimited
Return Potential	Unlimited	Premium Received	Unlimited	Premium Received

Note: The above table is for the purpose of explaining concept of options contract. As per the current Regulations, the Scheme cannot write option or purchase instrument with embedded write option.

Option contracts are of two types - Call and Put Call Option:

A call option gives the buyer, the right to buy specified quantity of the underlying asset at the set strike price on or before expiration date and the seller (writer) of call option however, has the obligation to sell the underlying asset if the buyer of the call option decides to exercise the option to buy.

Put Option: A put option gives the buyer the right to sell specified quantity of the underlying asset at the set strike price on or before expiration date and the seller (writer) of put option however, has the obligation to buy the underlying asset if the buyer of the put option decides to exercise his option to sell.

Index Options / Stock Options

Index options / Stock options are termed to be an efficient way of buying / selling an index/stock compared to buying / selling a portfolio of physical shares representing an index for ease of execution and settlement. The participation can be done by buying / selling either Index futures or by buying a call/put option. The risks are also different when index /stock futures are bought/sold vis- a- vis index/ stocks options as in case of an index future there is a mark to market variation and the risk is much higher as compared to buying an option, where the risk is limited to the extent of premium paid. In terms of provision of SEBI circular dated August 18, 2010, the Scheme shall not write options or purchase instruments with embedded written options. The illustration

below explains how one can gain using Index call / put option. These same principals of profit / loss in an Index option apply in toto to that for a stock option.

Call Option

Suppose an investor buys a Call option on 1 lot of Nifty 50 (Lot Size: 75 units)

- Nifty index (European option).
- Nifty 1 Lot Size: 75 units
- Spot Price (S): 11700
- Strike Price (x): 11800 (Out-of-Money Call Option)
- Premium: 56

Total Amount paid by the investor as premium $[75 \times 56] = 4200$

There are two possibilities i.e. either the index moves up over the strike price or remains below the strike price.

Case 1- The index goes up

- An investor sells the Nifty Option described above before expiry:

Suppose the Nifty index moves up to 12000 in the spot market and the premium has moved to Rs 250 and there are 15 days more left for the expiry. The investor decides to reverse his position in the market by selling his 1 Nifty call option as the option now is In the Money.

His gains are as follows:

- Nifty Spot: 12000
- Current Premium: Rs.250
- Premium paid: Rs.56
- Net Gain: $\text{Rs.}250 - \text{Rs.}56 = \text{Rs.}194$ per unit
- Total gain on 1 lot of Nifty (75 units) = $\text{Rs.}14550$ (75×194)

In this case the premium of Rs.250 has an intrinsic value of Rs. 200 per unit and the remaining Rs. 50 is the time value of the option.

- An investor exercises the Nifty Option at expiry

Suppose the Nifty index moves up to 11900 in the spot market on the expiry day and the investor decides to reverse his position in the market by exercising the Nifty call option as the option now is in the money.

His gains are as follows:

- Nifty Spot: 11900
- Premium paid: Rs.56
- Exercise Price: 11800
- Receivable on exercise: $11900 - 11800 = 100$
- Total Gain: $\text{Rs.}3300 \{(100 - 56) \times 75\}$

In this case the realised gain is only the intrinsic value, which is Rs.100, and there is no time value.

Case 2 - The Nifty index moves to any level below 11800

Then the investor does not gain anything but on the other hand his loss is limited to the premium paid:

Net Loss is Rs.4200 (Loss is capped to the extent of Premium Paid) ($\text{Rs } 56 \text{ Premium paid} \times \text{Lot Size: } 75 \text{ units}$).

Put Option

Suppose an investor buys a Put option on 1 lot of Nifty 50.

- Nifty 1 Lot Size: 75 units

- Spot Price (S): 11700
- Strike Price (x): 11600 (Out-of-Money Put Option)
- Premium: 40
- Total Amount paid by the investor as premium $[75 \times 40] = 3000$

There are two possibilities i.e. either the index moves over the strike price or moves below the strike price.

Let us analyze these scenarios.

Case 1 - The index goes down

- An investor sells the Nifty Option before expiry:

Suppose the Nifty index moves down to 11500 in the spot market and the premium has moved to Rs. 140 and there are 15 days more left for the expiry. The investor decides to reverse his position in the market by selling his 1 Nifty Put Option as the option now is in the money. His gains are as follows:

- Nifty Spot: 11500
- Premium paid: Rs.40
- Net Gain: $\text{Rs.140} - \text{Rs.40} = \text{Rs.100}$ per unit
- Total gain on 1 lot of Nifty (75 units) = Rs.7500 (100×75)

In this case the premium of Rs.140 has an intrinsic value of Rs. 100 per unit and the remaining Rs.40 is the time value of the option.

An investor exercises the Nifty Option at expiry (It is an European Option)

Suppose the Nifty index moves down to 11500 in the spot market on the expiry day and the investor decides to reverse his position in the market by exercising the Nifty Put Option as the option now is in the money.

His gains are as follows:

- Nifty Spot: 11500
- Premium paid: Rs.40
- Exercise Price: 11600
- Gain on exercise: $11600 - 11500 = 100$
- Total Gain: Rs.4500 $\{(100 - 40) \times 75\}$

In this case the realised amount is only the intrinsic value, which is Rs. 100, and there is no time value in this case.

Case 2 - If the Nifty index stays over the strike price which is 11600, in the spot market then the investor does not gain anything but on the other hand his loss is limited to the premium paid.

Nifty Spot: > 11700

Net Loss Rs.3000 (Loss is capped to the extent of Premium Paid) (Rs. 40 Premium paid * Lot Size: 75 units).

Risk Control

Risk is an inherent part of the investment function. Effective Risk management is critical to fund management for achieving financial soundness. Investment by the Scheme would be made as per the investment objective of the Scheme and in accordance with SEBI Regulations. AMC has adequate safeguards to manage risk in the portfolio construction process. Risk control would involve managing risk in order to keep in line with the investment objective of the Scheme. The risk control process would include identifying the risk and taking proper measures for the same. The system has incorporated all the investment restrictions as per the SEBI guidelines and enables identifying and measuring the risk through various risk management tools like various portfolio analytics, risk ratios, average duration and analyses the same and acts in a preventive manner.

Risks associated with Segregated portfolio

The AMC / Trustee shall decide on creation of segregated portfolio of the Scheme in case of a credit event/actual default at issuer level. Accordingly, Investor holding units of segregated portfolio may not be able to liquidate their holding till the time recovery of money from the issuer. The Security comprised of segregated portfolio may not realise any value. Further, listing of units of segregated portfolio in recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.

Stock Lending

Stock Lending is lending of securities through an approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the securities borrowed.

The Scheme may lend securities from its portfolio in accordance with the Regulations and para 13.6 of SEBI Master Circular on Mutual Funds, , as may be amended from time to time, the Scheme intends to engage in Stock Lending. The Scheme shall adhere to the following limits should it engage in Stock Lending.

- Not more than 20% of the net assets of the Scheme can be deployed in Stock Lending.

Not more than 5% of the net assets of the Scheme can be deployed in Stock Lending to any single approved intermediary

Portfolio Turnover

Portfolio Turnover is defined as the lower of sales or purchase divided by the average corpus during a specified period of time. The Scheme, being an open ended Scheme, it is expected that there would be a number of subscriptions and redemptions on a daily basis. However, it is difficult to measure with reasonable accuracy the likely turnover in the portfolio of the Scheme.

D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

The performance of the Scheme will be benchmarked against Nifty 50 Arbitrage Index Total Return Index as the scheme will follow Arbitrage based investing theme. The Fund under the theme/investment strategy intends to capitalize on the arbitrage opportunities between the cash and derivatives segment of the equity market to deliver short to medium term returns that are better than the yield on short term money market instruments.

Performance of the Scheme will be benchmarked with that of Nifty 50 Arbitrage Index Total Return Index.

The allocation in the Fund would be minimum 65% in equity and equity related instruments selected on the basis arbitrage opportunities and maximum 35% in Debt & Money Market instruments including the margin money deployed in derivative transactions.

Hence, the above mentioned benchmark will be able to give a true and accurate comparative analysis.

The Trustee reserves the right to change the benchmark for evaluation of performance of the Scheme from time to time in conformity with investment objective of the Scheme and appropriateness of the benchmark subject to SEBI Regulations and other prevailing guidelines, if any.

Total Return variant of the index (TRI) will be used for performance comparison.

The above benchmark is in accordance with para 7.22.5 of SEBI Master Circular on Mutual Funds on 'Guiding

Principles for bringing uniformity in Benchmarks of Mutual Fund Schemes' and the list published by AMFI in this regard on Tier 1 benchmark for equity schemes.

“The composition of the aforesaid first tier benchmark is such that it is most suited for comparing the performance of the scheme”

PART III- OTHER DETAILS

A. COMPUTATION OF NAV

The Net Asset Value (NAV) per unit under the Scheme will be computed by dividing the net assets of the Scheme by the number of units outstanding on the valuation day. The Mutual Fund will value its investments according to the valuation norms, as specified in Schedule VII of the SEBI (MF) Regulations, or such norms as may be specified by SEBI from time to time.

The Net Asset Value (NAV) of the units under the Scheme shall be calculated as follows:

$$\frac{\text{NAV (Rs.)} = \frac{\text{Market or Fair Value of Scheme's investments} + \text{Current Assets} - \text{Current Liabilities}}{\text{and Provision}}}{\text{No. of Units outstanding under Scheme on the Valuation Day}}$$

The NAV will be calculated up to four decimals.

The NAV Calculation shall be in accordance with SEBI MF Regulations and is available on the mutual fund website www.motilaloswalmf.com. The NAV shall be calculated and disclosed on each business day on AMFI's website www.amfiindia.com, by 11.00 p.m. and also on www.motilaloswalmf.com. The computation of NAV shall be in conformity with SEBI Regulations and guidelines as prescribed from time to time.

The NAV shall be calculated and announced on each working day. The computation of NAV shall be in conformity with SEBI Regulations and guidelines as prescribed from time to time.

Hence, for the purposes of valuation and calculating NAV of the Scheme for a particular day, the last available prices of securities on principal stock exchange shall be considered (which would be the previous day's closing prices). This will enable the disclosure of the NAV of the Scheme before the deadline as provided by SEBI guidelines.

ILLUSTRATION OF NAV:

If the net assets of the Scheme, after considering applicable expenses, are Rs.10,45,34,345.34 and units outstanding are 10,00,000, then the NAV per unit will be computed as follows:

$$10,45,34,345.34 / 10,00,000 = \text{Rs. } 10.4534 \text{ per unit (rounded off to four decimals)}$$

Repurchase/ Resale is at Net Asset Value (NAV) related prices with repurchase/ resale loads as applicable (within limits) as specified under SEBI Regulations 2026, While determining the price of the units, the fund will ensure that the repurchase price is not lower than 97 per cent of the Net Asset Value.

B. NEW FUND OFFER (NFO) EXPENSES

These expenses are incurred for the purpose of various activities related to the NFO like sales and distribution fees paid, marketing and advertising, registrar expenses, printing and stationary, bank charges etc. The entire NFO expenses were borne by the AMC.

C. ANNUAL SCHEME RECURRING EXPENSES

These are the fees and expenses for operating the Scheme. These expenses include but are not limited to Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer agents' fees & expenses, marketing and selling costs etc.

The AMC has estimated that upto 2.10 % of the daily net assets of the scheme shall be charged to the scheme as expenses. For the actual current expenses being charged, the investor should refer to the website of MOMF.

Particulars	% p.a. of daily Net Assets
Investment Management and Advisory Fees	Upto 2.10%
Audit fees/fees and expenses of trustee	
Custodial fees	
Registrar & Transfer Agent Fees including cost of providing account statement/IDCW/redemption cheque/warrants	
Marketing & Selling expense including fees, commission and charges towards distribution of mutual fund scheme	
**Cost related to investor communications	
Cost of fund transfer from location to location	
Cost toward investor Education & Awareness and financial inclusion	
Brokerage cost pertaining to execution of trade exceeding limit mentioned under Reg 66(9) ###	
Costs of statutory Advertisements	
Other Expenses (to be specified as per Reg 66 of SEBI MF Regulations)	
Maximum Base expense ratio (TER) permissible under Regulation 66	Upto 2.10%
Statutory levies (including GST) on all expenses excluding brokerage and transaction cost	As per prevailing rate
Statutory levies (including GST) on brokerage and transaction cost	As per prevailing rate
Total Expense Ratio permissible under Regulation 67	Upto 2.10%

The BER shall include:

- Investment and Advisory fees (sub-regulation 4 of Regulation 66)
- Recurring expenses (sub-regulation 5 of Regulation 66)
- Charges/ commission/ fees related to distribution of mutual fund schemes (Sub regulation 6 of Regulation 66)

In addition to the limits as specified in Regulation 67 of SEBI (Mutual Funds) Regulations 2026 Total Recurring Expenses (Total Expense Limit) as specified above, the following costs or expenses may be charged to the scheme:

- ###Schemes may charge expense incurred towards brokerage, for the purpose of execution of trade, over and above the base expense ratio subject to a maximum of 0.06 per cent of trade value in case of cash market transactions and 0.02 per cent of trade value in case of derivatives transactions. Expense charged towards brokerage, over and above the specified limit, shall not be part of the base expense ratio limit specified in the table given above.

- Transaction cost means regulatory levies and any other expenses charged by the stock exchanges, clearing corporation, and clearing house, as applicable. Such transaction costs shall not form part of the base expense ratio.

- Statutory levy means levy imposed by state government and central government.

**Additional incentives to distributors for on boarding new individual investors from B-30 cities and women investors shall be paid from the amount set apart annually by AMCs for investor education, awareness.

1. New investments / inflows eligible for the additional commission:

- a. New individual investors (new PAN) from B-30 cities, at the mutual fund industry level;
- b. New women individual investors (new PAN) from both Top 30 and B-30 cities.
- c. The top 30 cities shall mean top 30 cities based on AMFI data on 'AUM by Geography – Consolidated Data for Mutual Fund Industry' as at the end of the previous financial year.

- **As per para 11.9.1 of SEBI Master Circular on Mutual Funds, the charges applicable for investor education and awareness initiatives shall be 0.02% of daily net assets of the scheme. Further, as per para 11.6, the additional distribution commission shall be paid from the 2 basis points on daily net assets, mandatorily set aside annually by the AMC towards investor education, awareness, and financial inclusion initiatives, subject to applicable clawback provisions.

- Any expense other than those specified in sub-regulation (4), sub-regulation (5), sub regulation (6), sub-regulation (9) and sub-regulation (10), as mentioned above, shall not be charged to the scheme and shall be borne by the AMC or trustee or sponsors.

- No charges other than the base expense ratio, brokerage cost, transaction cost, statutory levy and exit load including levies as may be specified by the SEBI, shall be charged to the investors.

- Any expenditure in excess of the base limits specified in these regulations shall be borne by the asset management company or the trustees or sponsors. If any expense of the scheme is borne by asset management company or by the trustee or sponsors, the same shall be done only after the investment and advisory fees charged to the scheme, if any, is fully reversed

- Any other expenses which are directly attributable to the Scheme, may be charged with approval of the Trustee within the overall limits as specified in the Regulations except those expenses which are specifically prohibited.

All fees and expenses charged in a direct plan (in percentage terms) under various heads including the investment and advisory fee shall not exceed the fees and expenses charged under such heads in a regular plan. The BER (Base Expense Ratio) of the Direct Plan will be lower to the extent of the distribution expenses/commission which is charged in the Regular Plan and no commission for distribution of Units will be paid / charged under the Direct Plan.

The Mutual Fund would update the current expense ratios on the website (www.motilaloswalmf.com) atleast three working days prior to the effective date of the change. Investors can refer to “Base Expense Ratio” section on <https://www.motilaloswalmf.com/downloads/mutual-fund/totalexpensratio> for Total Expense Ratio (BER) details

The recurring expenses of the Scheme (including the Investment Management and Advisory Fees) shall be as per the limits prescribed under the SEBI (MF) Regulations. These are as follows:

First Rs.500 crore	Next Rs.250 crore	Next Rs.1,250 crore	Next Rs.3,000 crore	Next Rs.5,000 crore	Next Rs.40,000 crore	on the balance of the assets
2.10%	1.90%	1.60%	1.50%	1.40%	Expense ratio reduction of 0.05% for every increase of Rs.5,000 crores of daily net assets or part thereof	0.95%

Illustration of impact of expense ratio on returns of the Scheme

	Regular Plan	Direct Plan
Net asset before expenses	11,500	11,500
Expenses other than Distribution Expenses _2%	230	230
Distribution Expenses 0.10%	11.5	0.00
Returns after Expenses at the end of the Year	11258.5	11270

Please Note:

- The purpose of the above illustration is purely to explain the impact of expense ratio charged to the Scheme and should not be construed as providing any kind of investment advice or guarantee of returns on investments.
- It is assumed that the expenses charged are evenly distributed throughout the year. The expenses of the Direct Plan under the Scheme may vary with that of the Regular Plan under the Scheme.
- Calculations are based on assumed NAVs, and actual returns on your investment may be more, or less.

Any tax impact has not been considered in the above example, in view of the individual nature of the tax implications. Each investor is advised to consult his or her own financial advisor.

D. LOAD STRUCTURE

Exit Load is an amount which is paid by the investor to redeem the units from the Scheme. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of the AMC www.motilaloswalmf.com or may call at toll free no. +91 8108622222 and +91 22 40548002 or your distributor.

Type of Load	Load chargeable (as %age of NAV)
Exit	Exit Load: 0.25% - If redeemed within 15 days from the day of allotment. Nil - If redeemed after 15 days from the day of allotment Exit Load will be applicable on switch amongst the Schemes of MOMF. No Load shall be imposed for switching between Options within the Scheme. Further, it is clarified that there will be no exit load charged on a switch-out amongst the plans within the same scheme

The investor is requested to check the prevailing load structure of the Scheme before investing.

Repurchase/ Resale is at Net Asset Value (NAV) related prices with repurchase/ resale loads as applicable (within limits) as specified under SEBI Regulations 2026, While determining the price of the units, the fund will ensure that the repurchase price is not lower than 97 per cent of the Net Asset Value.

Any imposition or enhancement in the load structure shall apply on a prospective basis and in no case the same would affect the existing investors adversely. Bonus units and units issued on reinvestment of IDCWs shall not be subject to entry and exit load.

Under the Scheme, the AMC reserves the right to modify/alter the load structure if it so deems fit in the interest of smooth and efficient functioning of the scheme, subject to maximum limits as prescribed under the SEBI Regulations. The load may also be changed from time to time and in case of exit/redemption, load may be linked to the period of holding.

For any change in the load structure, the AMC would undertake the following steps:

1. The addendum detailing the changes will be attached to SID and Key Information Memorandum (KIM). The addendum will be circulated to all the distributors so that the same can be attached to all SID and KIM already in stock.
2. Arrangements shall be made to display the changes/modifications in the SID in the form of a notice in all Investor Service Centres and distributors/brokers offices.
3. The introduction of the exit load along with the details shall be stamped in the acknowledgement slip issued to the investors on submission of the application form and may also be disclosed in the statement of accounts issued after the introduction of such load.
4. The Fund shall display an Addendum in respect of such changes on its website (www.motilaloswalmf.com).
5. The Fund shall display the addendum any other measure that the Mutual Fund shall consider necessary.

SECTION II

I. INTRODUCTION

A. DEFINITIONS/INTERPRETATION

All references to “Master Circular” refer to Master Circular for Mutual Funds no. HO/24/13/11(1)2026-IMD-POD-1/I/7602/2026 issued by SEBI dated March 20, 2026 as amended from time to time

For detailed description please refer <https://www.motilaloswalmf.com/downloads/regulatory-updates>

B. RISK FACTORS

Scheme Specific Risk Factors: The Scheme is subject to the principal risks described below. Some or all of these risks may adversely affect Scheme’s NAV, yield, return and/or its ability to meet its objectives.

- **Risks related to Arbitrage Strategy**

In case of a large redemption, the scheme may need to reverse the spot-futures transaction before the date of futures’ settlement. This eventuality may lead to the basis risk. While reversing the spot-futures transaction on the Futures & Options settlement day on the Exchange, there could be a risk of volume-weighted-average-price of the market being different from the price at which the actual reversal is processed. This may result in basis risk.

On the date of expiry, when the arbitrage is to be unwound, it is not necessary for the stock price and its future contract to coincide. There could be a discrepancy in their prices even a minute before the market closes. Thus, there is a possibility that the arbitrage strategy gets unwound at different prices.

- **Market Risk**

The Scheme’s NAV will react to stock market movements. The Investor may lose money over short or long period due to fluctuation in Scheme’s NAV in response to factors such as performance of companies whose stock comprises the underlying portfolio, economic and political developments, changes in interest rates, inflation and other monetary factors and movement in prices of underlining investments.

- **Risks associated with investing in Equities**

Equity and Equity related instruments on account of its volatile nature are subject to price fluctuations on daily basis. The volatility in the value of the equity and equity related instruments is due to various micro and macro-economic factors affecting the securities markets. This may have adverse impact on individual securities /sector and consequently on the NAV of Scheme. The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities as in certain cases, settlement periods may be extended significantly by unforeseen circumstances. Similarly, the inability to sell securities held in the schemes portfolio may result, at times, in potential losses to the scheme, should there be a subsequently decline in the value of the securities held in the schemes portfolio. Trading volumes, settlement periods and transfer procedures may restrict the liquidity of the investments. This may impact the ability of the unit holders to redeem their units. In view of this, the Trustee has the right, in its sole discretion to limit redemptions (including suspending redemptions) under certain circumstances. The Scheme may find itself invested in unlisted securities due to external events or corporate actions. This may increase the risk of the portfolio as these unlisted securities are inherently illiquid in nature and carry larger liquidity risk as compared to the listed securities or those that offer other exit options to the investors. Investments in equity

and equity related securities involve high degree of risks and investors should not invest in the Scheme unless they can afford to take the risk of losing their investment.

- **Right to Limit Redemptions**

The Trustee, in the general interest of the unit holders of the Scheme offered under this SID and keeping in view of the unforeseen circumstances/unusual market conditions, may limit the total number of Units which can be redeemed on any Business Day subject to the guidelines/circulars issued by the Regulatory Authorities from time to time.

- **Asset Class Risk**

The returns from the types of securities in which the Scheme invests may underperform from the various general securities markets or different asset classes. Different types of securities tend to go through cycles of out-performance and under-performance in comparison with the general securities markets.

- **Interest Rate Risk**

Changes in interest rates will affect the Scheme's Net Asset Value. The prices of securities usually increase as interest rates decline and usually decrease as interest rates rise. The extent of fall or rise in the prices is guided by duration, which is a function of the existing coupon, days to maturity and increase or decrease in the level of interest rate. The new level of interest rate is determined by the rate at which the government raises new money and/or the price levels at which the market is already dealing in existing securities. Prices of long-term securities generally fluctuate more in response to interest rate changes than short-term securities. The price risk is low in the case of the floating rate or inflation-linked bonds. The price risk does not exist if the investment is made under a repo agreement. Debt markets, especially in developing markets like India, can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby to possible movements in the NAV.

- **Credit Risk**

Credit Risk means that the issuer of a security may default on interest payments or even paying back the principal amount on maturity. (i.e. the issuer may be unable to make timely principal and interest payments on the security). Even where no default occurs, the prices of security may go down because the credit rating of an issuer goes down. It must be, however, noted that where the Scheme has invested in Government securities, there is no risk to that extent.

- **Liquidity or Marketability Risk**

This refers to the ease at which a security can be sold at or near its true value. The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is characteristic of the Indian fixed income market. Trading Volumes, settlement periods and transfer procedures may restrict the liquidity of the investments made by the Scheme. Different segments of the Indian financial markets have different settlement periods and such period may be extended significantly by unforeseen circumstances leading to delays in receipt of proceeds from sale of securities. As liquidity of the investments made by the Scheme could, at times, be restricted by trading volumes and settlement periods, the time taken by the Fund for redemption of units may be significant in the event of an inordinately large number of redemption requests or restructuring of the Scheme.

- **Risks associated with Investing in Derivatives**

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund

manager involve uncertainty and decision of the fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

Derivative products are specialized instruments that require investment techniques and risk analysis different from those associated with stocks. The use of a derivative requires an understanding not only of the underlying instrument but of the derivative itself. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to forecast price or interest rate movements correctly. There is a possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the "counterparty") to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mis-pricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices, illiquidity risk whereby the Scheme may not be able to sell or purchase derivative quickly enough at a fair price.

The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

The derivatives market in India is nascent and does not have the volumes that may be seen in other developed markets, which may result in volatility to the values.

The Scheme(s) may face execution risk, whereby the rates seen on the screen may not be the rate at which the ultimate execution of the derivative transaction takes place.

The Scheme(s) may find it difficult or impossible to execute derivative transactions in certain circumstances. For example, when there are insufficient bids or suspension of trading due to price limit or circuit breakers, the Scheme(s) may face a liquidity issue.

Investments in index futures face the same risk as the investments in a portfolio of shares representing an index. The extent of loss is the same as in the underlying stocks.

The Scheme(s) bears a risk that it may not be able to correctly forecast future market trends or the value of assets, indices or other financial or economic factors in establishing derivative positions for the Scheme.

There is the possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the "counter party") to comply with the terms of the derivatives contract. The counter party may default on a transaction before settlement and therefore, the Scheme(s) are compelled to negotiate with another counterparty at the then prevailing (possibly unfavourable) market price.

The risk of loss in trading futures contracts can be substantial, because of the low margin deposits required, the extremely high degree of leverage involved in futures pricing and the potential high volatility of the futures markets.

Where derivatives are used for hedging, such use may involve a basis risk where the instrument used as a hedge does not match the movement in the instrument/underlying asset being hedged. The risk may be inter-related also e.g. interest rate movements can affect equity prices, which could influence specific issuer/industry assets.

• **Risks associated with Segregated portfolio**

The AMC / Trustee shall decide on creation of segregated portfolio of the Scheme in case of a credit event/actual default at issuer level. Accordingly, Investor holding units of segregated portfolio may not be able

to liquidate their holding till the time recovery of money from the issuer. The Security comprised of segregated portfolio may not realise any value. Further, Listing of units of segregated portfolio in recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.

- **Trading through mutual fund trading platforms of BSE and/ or NSE**

In respect of transaction in Units of the Scheme through BSE and/ or NSE, allotment and redemption of Units on any Business Day will depend upon the order processing/settlement by BSE and/ or NSE and their respective clearing corporations on which the Mutual Fund has no control.

- **Risks associated with Stock Lending**

Stock Lending is a lending of securities through an SEBI approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the securities borrowed.

In case the Scheme undertakes stock lending as prescribed in the Regulations, it may, at times be exposed to counter party risk and other risks associated with the securities lending. Unitholders of the Scheme should note that there are risks inherent to securities lending, including the risk of failure of the other party, in this case the approved intermediary, to comply with the terms of the agreement entered into between the lender of securities i.e. the Scheme and the approved intermediary. Such failure can result in the possible loss of rights to the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities lent. The Fund may not be able to sell such lent securities and this can lead to temporary illiquidity.

- **Risk associated with investing in fixed income securities and Money Market Instruments**

a. Credit risk: Credit risk or default risk refers to the risk which may arise due to default on the part of the issuer of the fixed income security (i.e. will be unable to make timely principal and interest payments on the security). Because of this risk debenture are sold at a yield spread above those offered on Treasury securities, which are sovereign obligations and generally considered to be free of credit risk. Normally, the value of a fixed income security will fluctuate depending upon the actual changes in the perceived level of credit risk as well as the actual event of default.

b. Counterparty risk: Counterparty refers to the counterparty's inability to honor its commitments (payment, delivery, repayment, etc.) and to risk of default. This risk relates to the quality of the counterparty to which the scheme has exposures. Losses can occur in particular for the settlement/delivery of financial instruments.

c. Interest Rate risk: This risk is associated with movements in interest rate depends on various factors such as government borrowing, inflation, economic performance etc. The value of investments will appreciate/depreciate if the interest rates fall/rise. However, if the investments are held on till maturity of the investments, the value of the investments will not be subjected to this risk. **d. Reinvestment risk:** This risk arises from uncertainty in the rate at which cash flows from the securities may be reinvested. This is because the bond will pay coupons, which will have to be reinvested. The rate at which the coupons will be reinvested will depend upon prevailing market rates at the time the coupons are received.

d. Liquidity or Marketability Risk: This refers to the ease at which a security can be sold at or near its true value. The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is characteristic of the Indian fixed income market.

e. Different types of fixed income securities in which the Scheme would invest carry different levels and types of risk. Accordingly, the Scheme risk may increase or decrease depending upon its investment pattern. e.g. corporate bonds carry a higher level of risk than Government securities. Further even among corporate bonds, bonds, which are AAA rated, are comparatively less risky than bonds, which are AA rated.

f. The Net Asset Value (NAV) of the Scheme, to the extent invested in Debt and Money Market securities, will be affected by changes in the general level of interest rates. The NAV of the Scheme is expected to increase from a fall in interest rates while it would be adversely affected by an increase in the level of interest rates.

g. Settlement Risk: Different segments of Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances. Delays or other problems in settlement of transactions could result in temporary periods when the assets of the Scheme are uninvested and no return is earned thereon. The inability of the Scheme to make intended securities purchases, due to settlement problems, could cause the Scheme to miss certain investment opportunities. Similarly, the inability to sell securities held in the Scheme's portfolio, due to the absence of a well-developed and liquid secondary market for debt securities, may result at times in potential losses.

h. Reinvestment risk: Interest rates may vary from time to time. The rate at which intermediate cash flows are reinvested may differ from the original interest rates on the security, which can affect the total earnings from the security.

• **Risks associated with investing in Government of India Securities**

a. Market Liquidity risk with fixed rate Government of India Securities even though the Government of India Securities market is more liquid compared to other debt instruments, on certain occasions, there could be difficulties in transacting in the market due to extreme volatility leading to constriction in market volumes. Also, the liquidity of the Scheme may suffer in case the relevant guidelines issued by Reserve Bank of India undergo any adverse changes.

b. Interest Rate risk associated with Government of India Securities - while Government of India Securities generally carry relatively minimal credit risk since they are issued by the Government of India, they do carry price risk depending upon the general level of interest rates prevailing from time to time. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates decline, the prices of fixed income securities increase. The extent of fall or rise in the prices is a function of the coupon rate, days to maturity and the increase or decrease in the level of interest rates. The price-risk is not unique to Government of India Securities. It exists for all fixed income securities. Therefore, their prices tend to be influenced more by movement in interest rates in the financial system than by changes in the government's credit rating. By contrast, in the case of corporate or institutional fixed income Securities, such as bonds or debentures, prices are influenced by their respective credit standing as well as the general level of interest rates.

• **Risks associated with investing in TREPS Segments**

The mutual fund is a member of securities and TREPS segments of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in TREPS segments are settled centrally through the infrastructure and settlement systems provided by CCIL; thus reducing the settlement and counterparty risks considerably for transactions in the said segments. The members are required to contribute an amount as communicated by CCIL from time to time to the default fund maintained by CCIL as a part of the default waterfall (a loss mitigating measure of CCIL in case of default by any member in settling transactions routed through CCIL). The mutual fund is exposed to the extent of its contribution to the default fund of CCIL at any given point in time. In the event that the default waterfall is triggered and the contribution of the mutual fund is called upon to absorb settlement/default losses of another member by CCIL, the scheme may lose an amount equivalent to its contribution to the default fund allocated to the scheme on a pro-rata

basis.

• **Risk associated with potential change in Tax structure**

This summary of tax implications given in the taxation section (Units and Offer Section III) is based on the current provisions of the applicable tax laws. This information is provided for general purpose only. The current taxation laws may change due to change in the 'Income Tax Act 1961' or any subsequent changes/amendments in Finance Act/Rules/Regulations. Any change may entail a higher outgo to the scheme or to the investors by way of securities transaction taxes, fees, taxes etc. thus adversely impacting the scheme and its returns.

Risk Control

Risk is an inherent part of the investment function. Effective Risk management is critical to fund management for achieving financial soundness. Investment by the Scheme would be made as per the investment objective of the Scheme and in accordance with SEBI Regulations. AMC has adequate safeguards to manage risk in the portfolio construction process. Risk control would involve managing risk in order to keep in line with the investment objective of the Scheme. The risk control process would include identifying the risk and taking proper measures for the same. The system has incorporated all the investment restrictions as per the SEBI guidelines and enables identifying and measuring the risk through various risk management tools like various portfolio analytics, risk ratios, average duration and analyses the same and acts in a preventive manner.

Risk mitigation strategies

<u>Liquidity risk</u> The liquidity of the Scheme's investments is inherently restricted by trading volumes in the securities in which they invests.	The Scheme will try to maintain a proper asset-liability match to ensure redemption payments are made on time and not affected by illiquidity of the underlying stocks.
<u>Derivatives Risk</u> As and when the Scheme trades in the derivatives market there are risk factors and issues concerning the use of derivatives since derivative products are specialized instruments that require investment techniques and risk analyses different from those associated with stocks and bonds.	Derivatives will be used in the form of Index Options, Index Futures, Stock Options and Stock Futures and other instruments as may be permitted by SEBI. All derivatives trade will be done only on the exchange with guaranteed settlement. The AMC monitors the portfolio and regulatory limits for derivatives through its front office monitoring system. Exposure to derivatives of stocks or underlying index will be done based on requisite research. Exposure with respect to derivatives shall be in line with regulatory limits and the limits specified in the SID. No OTC contracts will be entered into.
Risks associated with money market investment	

<u>Market Risk/ Interest Rate Risk</u> As with all fixed income securities, changes in interest rates may affect the Scheme's Net Asset Value as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise. Prices of long-term securities generally fluctuate more in response to interest rate changes than do short-term securities. Indian debt markets can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby to possible movements in the NAV.	The Scheme may invest in money market instruments having relatively shorter maturity thereby mitigating the price volatility due to interest rate changes generally associated with long-term securities.
<u>Liquidity or Marketability Risk</u> This refers to the ease with which a security can be sold at or near to its valuation yield- to maturity (YTM).	The Scheme may invest in money market instruments having relatively shorter maturity. While the liquidity risk for short maturity securities may be low, it may be high in case of medium to long maturity securities.
<u>Credit Risk</u> Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security).	Management analysis may be used for identifying company specific risks. Management's past track record may also be studied.

C. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME

The Scheme/Plan shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme/Plan(s). In case the Scheme / Plan(s) does not have a minimum of 20 investors in the stipulated period, the provisions of para 7.19. of SEBI Master Circular on Mutual Funds would become applicable automatically without any reference from SEBI and accordingly the Scheme / Plan(s) shall be wound up and the units would be redeemed at applicable NAV. The two conditions mentioned above shall also be complied within each subsequent calendar quarter thereafter, on an average basis, as specified by SEBI. If there is a breach of the 25% limit by any investor over the quarter, a rebalancing period of one month would be allowed and thereafter the investor who is in breach of the rule shall be given 15 calendar days' notice to redeem his exposure over the 25 % limit. Failure on the part of the said investor to redeem his exposure over the 25 % limit within the aforesaid 15 calendar days would lead to automatic redemption by the Mutual Fund on the applicable Net Asset Value on the 15th calendar day of the notice period. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

D. SPECIAL CONSIDERATIONS

- Prospective investors should study this SID and SAI carefully in its entirety and should not construe the contents hereof as advice relating to legal, taxation, financial, investment or any other matters and are advised to consult their legal, tax, financial and other professional advisors to determine possible legal, tax,

financial or other considerations of subscribing to or redeeming units before making a decision to invest/redeem/hold units.

- Neither this SID and SAI nor the units have been registered in any jurisdiction. The distribution of this SID or SAI in certain jurisdictions may be restricted or totally prohibited to registration requirements and accordingly, any person who comes into possession of this SID or SAI is required to inform themselves about and to observe any such restrictions and/ or legal compliance requirements of applicable laws and Regulations of such relevant jurisdiction. Any changes in SEBI/Stock Exchange/RBI regulations and other applicable laws/regulations could have an effect on such investments and valuation thereof.
- The AMC, Trustee or the Mutual Fund have not authorized any person to issue any advertisement or to give any information or to make any representations, either oral or written, other than that contained in this SID or SAI or as provided by the AMC in connection with this offering. Prospective Investors are advised not to rely upon any information or representation not incorporated in the SID or SAI or as provided by the AMC as having been authorized by the Mutual Fund, the AMC or the Trustee.
- The tax benefits described in this SID and SAI are as available under the present taxation laws and are available subject to relevant conditions. The information given is included only for general purpose and is based on advise received by the AMC regarding the law and practice currently in force in India as on the date of this SID and the Unitholders should be aware that the relevant fiscal rules or their interpretation may change. As is the case with any investment, there can be no guarantee that the tax position or the proposed tax position prevailing at the time of an investment in the Scheme will endure indefinitely. In view of the individual nature of tax consequences, each Unitholder is advised to consult his / her own professional tax advisor.
- Redemptions due to change in the fundamental attributes of the Scheme or due to any other reasons may entail tax consequences. The Trustee, AMC, Mutual Fund, their directors or their employees shall not be liable for any of the tax consequences that may arise.
- The Trustee, AMC, Mutual Fund, their directors or their employees shall not be liable for any of the tax consequences that may arise, in the event that the Scheme is wound up for the reasons and in the manner provided in SAI.
- The Mutual Fund may disclose details of the investor's account and transactions there under to those intermediaries whose stamp appears on the application form or who have been designated as such by the investor. Maximum amount to be raised (if any)	Not Applicable
Dividend Policy (IDCW)	The Trustees may declare IDCW subject to the availability of distributable surplus calculated in accordance with SEBI (Mutual Funds) Regulations, 2026. The actual declaration of IDCW and the frequency of distribution will be entirely at the discretion of the Trustees. There is no assurance or guarantee to Unit holders as to the rate of IDCW distribution nor that the IDCWs will be declared regularly, though it is the intention of the Mutual Fund to make regular IDCW distribution under the IDCW Plan. The IDCW would be paid to the Unitholders whose names appear in the Register of Unitholders as on the record date. IDCW Distribution Procedure In accordance with SEBI Regulations, the procedure for IDCW distribution would be as under: When units are sold, and sale price (NAV) is higher than face value of the unit, a portion of sale price that represents realized gains is credited to an Equalization Reserve Account and which can be used to pay IDCW. IDCW can be distributed out of investor's capital (Equalization Reserve), which is part of sale price that represents realized gains. The Trustee reserves the right to change/modify the aforesaid requirements at a later date in line with SEBI directives from time to time. Quantum of IDCW and the record date will be fixed by the Trustee in their meeting. IDCW so decided shall be paid, subject to availability of distributable surplus. Within one calendar day of decision by the Trustee, the AMC shall display the decision including the record date on the website of AMC. The record date shall be two working days from the date of publication in at least one English newspaper or in a newspaper published in the language of the region where the Head Office of the mutual fund

	is situated, whichever is issued earlier. Record date shall be the date, which will be considered for the purpose of determining the eligibility of investors whose names appear on the register of Unitholders for receiving IDCWs. The Record Date will be two working days from the date of issue of notice. The notice will, in font size 10, bold, categorically state that pursuant to payment of IDCW, the NAV of the Scheme would fall to the extent of payout and statutory levy (if applicable). The NAV will be adjusted to the extent of IDCW distribution and statutory levy, if any, at the close of business hours on record date. Before the issue of such notice, no communication indicating the probable date of IDCW declaration in any manner whatsoever will be issued by Mutual Fund.
Allotment (Detailed procedure)	The Fund will allot units and dispatch statement of accounts within 5 working days from the receipt of the funds. The units of the Scheme would be allotted at the applicable NAV. Investors under the Scheme will have an option to hold the Units either in dematerialized (electronic) form or in physical form. In case of investors opting to hold Units in dematerialized mode, the Units will be credited to the investors' depository account (as per the details provided by the investor). Further, a holding statement could be obtained from the Depository Participants by the Investor. In case of investors opting to hold the Units in physical mode, on allotment, the AMC/Fund will send to the Unitholders, an account statement specifying the number of units allotted by way of physical form (where email address is not registered) and/or email and/or SMS within 5 Business Days from the receipt of the Fund to the registered address/e-mail address and/or mobile number. Normally, no certificates will be issued. However, on request from the Unitholder, Unit certificates will be issued for the same. The AMC will issue a Unit certificate to the applicant within 5 Business Days of the receipt of request for the certificate. Unit certificate, if issued, must be duly discharged by the Unit holder(s) and surrendered along with the request for redemption/switch or any other transaction of Units covered therein. The AMC shall, on production of instrument of transfer together with relevant unit certificates, register the transfer and return the unit certificate to the transferee within thirty days from the date of such production. As per regulation 35, The units shall be freely transferrable. The allotment of units is subject to realization of the payment instrument. Any application for subscription of units may be rejected if found incomplete by the AMC/Trustee.

Refund	Not Applicable
Mode of Payment of IDCWs	The IDCW proceeds will be paid by way of cheque, IDCW Warrants / Direct Credit / National Electronic Fund Transfer (NEFT) / Real Time Gross Settlement (RTGS) / National Electronic Clearing System (NECS) or any other manner to the unitholder's bank account as recorded in the Registrar & Transfer Agent's records. The AMC, at its discretion at a later date, may choose to alter or add other modes of payment. Further, AMCs may also use modes of dispatch such as speed post, courier etc. for payments including refunds to unitholders in addition to the registered post with acknowledgement due. In case of Units under the IDCW Option held in dematerialised mode, the IDCW Payout will be credited to the bank account of the investor, as per the bank account details recorded with the DP. All the IDCW payments shall be in accordance and compliance with SEBI regulations, as amended from time to time.

The policy regarding reissue of repurchased units, including the maximum extent, the manner of reissue, the entity (the scheme or the AMC) involved in the same.	Units once redeemed/repurchased will not be re-issued.
Restrictions, if any, on the right to freely retain or dispose of units being offered.	Units of the Scheme which are issued in demat (electronic) form will be transferred and transmitted in accordance with the provisions of SEBI (Depositories and Participants) Regulations, as may be amended from time to time. Restriction to subscription The Trustees reserves the right at its sole discretion to withdraw / suspend the allotment / Subscription of Units in the Scheme temporarily or indefinitely or otherwise, if it is viewed that increasing the size of such Scheme may prove detrimental to the Unit holders of such Scheme. An order to Purchase the Units is not binding on and may be rejected by the Trustees or the AMC unless it has been confirmed in writing by the AMC and/or payment has been received. Physical Units which are held in the form of account statement:

	Additions/deletion of names in case of Units held in other than demat mode in the form of account statement will not be allowed under any folio of the Scheme. However, on request from the Unitholder, Unit certificates will be issued in lieu of account statement for the same. The AMC will issue a Unit certificate to the applicant within 5 Business Days of the receipt of request for the certificate. Unit certificate, if issued, must be duly discharged by the Unit holder(s) and surrendered along with the request for redemption/switch or any other transaction of Units covered therein. The AMC shall, on production of instrument of transfer together with relevant unit certificates, register the transfer and return the unit certificate to the transferee within thirty days from the date of such production. The above provisions in respect of deletion of names will not be applicable in case of death of Unit holder (in respect of joint holdings) as this is treated as transmission of Units and not transfer.
Right to Limit Redemptions	The Trustee may, in the general interest of the Unitholders of the Scheme and when considered appropriate to do so based on unforeseen circumstances/unusual market conditions, impose restriction on redemption of Units of the Schemes. The following requirements will be observed before imposing restriction on redemptions: a. Restriction may be imposed when there are circumstances leading to a systemic crisis or event that severely constricts market liquidity or the efficient functioning of markets such as: i. Liquidity issues - when market at large becomes illiquid affecting almost all securities rather than any issuer specific security. AMCs should have in place sound internal liquidity management tools for schemes. Restriction on redemption cannot be used as an ordinary tool in order to manage the liquidity of a scheme. Further, restriction on redemption due to illiquidity of a specific security in the portfolio of a scheme due to a poor investment decision shall not be allowed. ii. Market failures, exchange closures - when markets are affected by unexpected events which impact the functioning of exchanges or the regular course of transactions. Such unexpected events could also be related to political, economic, military, monetary or other emergencies. iii. Operational issues - when exceptional circumstances are caused by force majeure, unpredictable operational

	problems and technical failures (e.g. a black out). Such cases can only be considered if they are reasonably unpredictable and occur in spite of appropriate diligence of third parties, adequate and effective disaster recovery procedures and systems. b. Restriction on redemption may be imposed for a specific period of time not exceeding 10 working days in any 90 days' period. c. Any such imposition requires specific approval of Board of AMCs and Trustees and the same shall be immediately informed to SEBI. d. When restriction on redemption is applied the following procedure shall be followed: a) Redemption requests upto Rs. 2lakh will not be subject to such restriction. b) In case of redemption requests above Rs. 2 lakhs, the AMC shall redeem the first Rs. 2 lakhs without restriction and remaining part over above be subject to such restriction. Right to Limit Fresh Subscription The Trustees reserves the right at its sole discretion to withdraw / suspend the allotment / Subscription of Units in the Scheme temporarily or indefinitely, at the time of NFO or otherwise, if it is viewed that increasing the size of such Scheme may prove detrimental to the Unit holders of such Scheme. An order to Purchase the Units is not binding on and may be rejected by the Trustees or the AMC unless it has been confirmed in writing by the AMC and/or payment has been received, subject to SEBI Regulations and other prevailing guidelines if any.
