TYPE AND CATEG	TYPE AND CATEGORY OF SCHEME						
Name of the Scheme	Motilal Oswal 5 Year G-Sec ETF						
Type of the Scheme         An open ended scheme replicating/tracking Nifty 5 yr Benchmark G-Sec Index							
Category of Scheme	Exchange Traded Fund						
INVESTMENT OBJECTIVE							

The Scheme seeks investment return that closely corresponds (before fees and expenses) total returns of the securities as represented by the Nifty 5 yr Benchmark G-Sec Index (Underlying Index), subject to tracking error. However, there can be no assurance or guarantee that the investment objective of the Scheme would be achieved.

# ASSET ALLOCATION

The asset allocation pattern of the Scheme would be as follows:				
Instruments		allocations al assets)	Risk Profile	
	Minimum	Maximum	High / Medium / Low	
Securities constituting Nifty 5 yr Benchmark G- Sec Index	95	100	Low to Medium	
Money Market instruments*, units of liquid scheme or Motilal Oswal Liquid Fund including TREPS	0	5	Low to Medium	

The scheme will not make any investment in ADR/GDR/Foreign Securities/Securitised Debt

The Scheme shall not invest in repo in corporate debt

The Scheme shall not engage in short selling The Scheme shall not engage in stock lending

The Scheme shall not invest in unrated debt instru-

The Scheme, in general, will hold all the securities that comprise of underline Index in the same proportion as the index. Expectation is that, over a period of time, the tracking error of the Scheme relative to the performance of the Underlying Index will be relatively low.

The Investment Manager would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent ossible. There can be no as of the Underlying Index. surance or guarantee that the Scheme will achieve any particular level of tracking error relative to performa

If the investments fall outside the asset allocation range given above, the portfolio of the scheme will be rebalanced within a period of 7 days. The funds raised under the scheme shall be invested only in securities as permitted by SEBI (Mutual Funds) Regulations, 1996. When the portfolio is not rebalanced within 7 calendar days, justification for the same shall be placed before the Investment Committee and reasons for the same shall be recorded in writing. The Investment Committee shall then decide on the course of action.

# INVESTMENT STRATEGY

The Scheme employs an investment approach designed to track the performance of Nifty 5 yr Benchmark G- Sec Index. The Scheme seeks to achieve this goal by investing in securities constituting the Nifty 5 yr Benchmark G- Sec Index in same proportion as in the Index. The Scheme will invest at least 95% of its total assets in the securities comprising the Underlying Index. The Scheme may also invest in money market instruments to meet the liquidity and expense requirements. The Scheme may also take exposure in other G- Sec instruments for short duration when securities of the Underlying Index are not readily available in needed quantities within the required time frame, or for rebalancing at the time of change in Underlying Index or in case of corporate actions

# Tracking Error Scheme

Tracking error is defined as the standard deviation of the difference between the daily returns of the Underlying Index and the NAV of the Scheme. Theoretically, the corpus of the Scheme has to be fully invested in the securities comprising the Underlying Index in the same proportion of weightage as the securities have in the Underlying Index. However, it is not possible to invest as per the objective due to reason that the Scheme has to incur expenses, corporate actions pertaining to the Basket including changes to the constituents, regulatory policies, ability of the Fund Manager to closely replicate the Underlying Index, etc. The Scheme's returns may therefore deviate from those of its Underlying Basket. Tracking Error may arise due to the following reasons:-

# Fees and expenses of the Scheme.

- Cash balance held by the Scheme due to subscriptions, redemption, etc.
- Corporate actions The Scheme has to invest in the securities in whole numbers and has to round off the quantity of securities shares
- Changes in the constituents of the underling Basket. Whenever there are any changes, the Scheme has to reallocate its investment as per the revised Basket but market conditions may not offer an opportunity to rebalance its portfolio to match the Basket and such delay may affect the NAV of the Scheme. Lack of Liquidity

# **RISK PROFILE OF THE SCHEME**

## Standard Risk Factors:

- Investment in Mutual Fund units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- As the price / value / interest rate of the securities in which the Scheme invests fluctuates, the value of your investment in the Scheme may go up or down depending on various factors and forces affecting the capital market.
- Past performance of the Sponsor/AMC/Mutual Fund does not guarantee future performance of the Scheme
- The name of the Scheme does not in any manner indicate either the guality of the Scheme or its future prospects and returns.
- The sponsor is not responsible or liable for any loss resulting from the operation of the Scheme beyond the initial contribution of Rs. 100,000 made by it towards setting up the Fund. The present Scheme is not a guaranteed or assured return Scheme.

Within 10 working days of the receipt of the redemption request at the authorised centre of the Motilal Oswal Mutual Fund.

extraordinary market volatility and pursuant to stock exchange and SEBI 'circuit filter' rules. There can be no assurance that the requirements of stock exchange necessary to maintain the listing of the units of the scheme will continue to be met or will remain unchanged.

- Units of the scheme may trade at prices other than NAV: The units of the scheme may trade above or below their NAV. The NAV of the scheme will fluctuate with Changes in the market value of scheme holdings. The trading prices of the units of the scheme will fluctuate in accordance with changes in their NAV as well as market supply and demand for the units of the scheme. However, given that units of the scheme can be created and redeemed in creation units directly with the fund, it is expected that large discounts or premiums to the NAV of units of the scheme will not sustain due to arbitrage opportunity available.
- Regulatory Risk: Any changes in trading regulations by stock exchange or SEBI may affect the ability of market maker to arbitrage resulting into wider premium/discount to NAV.
- Right to Limit Redemptions: The Trustee, in the general interest of the unit holders of the scheme and keeping in view of the unforeseen circumstances/unusual market conditions, may limit the total number of units which can be redeemed on any business day depending on the total "Saleable Underlying Stock" available market condit with the fund.
- Redemption Risk: Investors may note that even though the Scheme is open-ended Scheme, the Scheme would ordinarily repurchase units in creation unit size Thus unit holdings less than the creation unit size can only be sold through the secondary market on the exchange.
- Asset Class Risk: The returns from the types of securities in which the scheme invest may underperform returns of general securities markets or different asset g.
- classes. Different types of securities tend to go through cycles of out-performance and under-performance in comparison of securities markets. Passive Investments: As the scheme proposes to invest not less than 95% of the net assets in the securities of the benchmark Index, the Scheme will ne actively managed. The Scheme may be affected by a general decline in the Indian markets relating to its Underlying Index. The Scheme invests in the securi included in its underlying index regardless of their investment merit.
- The units will be issued only in demat form through depositories. The records of the depository are final with respect to the number of units available to the credit of unit holder. Settlement of trades, repurchase of units by the mutual fund depends up on the confirmations to be received from depository (ies) on which the mutual fund has no control.
- Intracking Error Risk: The Fund Manager would not be able to invest the entire corpus exactly in the same proportion as in the underlying index due to certain factors such as the fees and expenses of the respective scheme, corporate actions, cash balance, changes to the underlying index and regulatory policies which may affect AMC's ability to achieve close correlation with the underlying index of the scheme. The scheme's returns may therefore deviate from those of its underlying index. "Tracking Error" may arise due to the following reasons: -
  - Expenditure incurred by the fund.
- The holding of a cash position and accrued income prior to distribution of income and payment of accrued expenses. The fund may not be invested at all times as it may keep a portion of the funds in cash to meet redemptions or for corporate actions.
- Corporate actions such as debenture or warrant conversion, rights, merger, change in constituents etc.
- Rounding off of quantity of shares in underlying index.
- Disinvestments to meet redemptions, recurring expenses, dividend payouts etc.
- Execution of large buy / sell orders Transaction cost (including taxes and insurance premium) and recurring expenses
- Realisation of Unit holders' funds
- Index provide undertakes a periodical review of the scripts that comprise the underlying index and may either drop or include new securities. In such an event, the fund will try to reallocate its portfolio but the available investment/reinvestment opportunity may not permit absolute mirroring immediately.

It will be the endeavor of the fund manager to keep the tracking error as low as possible. Under normal circumstances, such tracking error is not expected to exceed 2% per annum. However, in case of certain corporate actions and market volatility during rebalancing of the portfolio following the rebalancing of the underlying index, sec. or in abnormal market circumstances, the tracking error may exceed the above limits. There can be no assurance or guarantee that the Scheme will achieve any particular level of tracking error relative to performance of the Index.

### Concentration Risk:

The scheme may have no diversification within its portfolio. This could have implications on the performance of the scheme. The scheme may be more sensitive to economic, business, political or other changes and this may lead to sizeable fluctuation in the Net Asset Value of the scheme. Motilal Oswal 5 Year G-Sec ETF Fund will restricts its investments only in the Security of the underlying index (Nifty 5 yr Benchmark G sec Index) which replicates a single security and will therefore be subject to the risks associated with such concentration. Right to Limit Redemptions

The Trustee, in the general interest of the unit holders of the Scheme offered under this SID and keeping in view of the unforeseen circumstances/unusual market conditions, may limit the total number of Units which can be redeemed on any Business Day subject to the guidelines/circulars issued by the Regulatory Authorities from time to th

# Asset Class Risk

The returns from the types of securities in which the Scheme invests may under perform from the various general securities markets or different asset classes Different types of securities tend to go through cycles of out-performance and under-performance in comparison with the general securities markets.

 $Trading\,through\,mutual\,fund\,trading\,platforms\,of\,BSE\,and/\,or\,NSE$ In respect of transaction in Units of the Scheme through BSE and/ or NSE, allotment and redemption of Units on any Business Day will depend upon the order processing/settlement by BSE and/ or NSE and their respective clearing corporations on which the Mutual Fund has no control.

#### **Risk associated with ETF** 1. Market risk:

ETFs are typically designed to track the performance of certain indices, market sectors, or groups of assets such as stocks, bonds, or commodities. ETF managers may use different strategies to achieve this goal, but in general they do not have the discretion to take defensive positions in declining markets. Investors must be prepared to bear the risk of loss and volatility associated with the underlying index/assets.

# 2. Tracking errors

- Tracking errors refer to the disparity in performance between an ETF and its underlying index/assets. Tracking errors can arise due to factors such as the impact of transaction fees and expenses incurred to the ETF, changes in composition of the underlying index/assets, and the ETF manager's replication strategy. 3. Trading at discount or premium:
- An ETF may be traded at a discount or premium to its Net Asset Value (NAV). This price discrepancy is caused by supply and demand factors, and may be particularly likely to emerge during periods of high market volatility and uncertainty.
- 4. Liquidity risk:
- Authorized participants (APs) are Exchange Participants that provide liquidity to facilitate trading in ETFs. Although most ETFs are supported by one or more APs, there is no assurance that active trading will be maintained.
- 5. As the units of the Scheme are listed on the Stock Exchange, trading in the units of the Scheme may be halted due to market conditions or for reasons that in the view of the Exchange Authorities or SEBI. There could also be trading halts caused by extraordinary market volatility and pursuant to NSE/BSE and SEBI circuit filter rules and the Scheme would not be able to buy/sell securities in case of subscriptions/redemptions, which may impact the Scheme the Scheme. Further, there can be no assurance that the requirements of the exchange necessary to maintain the listing of the Scheme will continue to be met or will remain unchanged.
- 6. Listing and trading of the units are undertaken on the Stock Exchanges within the rules, regulation and policy of the Stock Exchange and SEBI. Any change in trading rules, regulation and policy by the regulatory authority would have a bearing on the trading of the units of the Scheme and its prices.
- Though the Scheme is listed on the NSE and BSE, there is no assurance that an active secondary market will develop or be maintained. Hence, there would be times when trading in the units of the Scheme would be infrequent. 8. The NAV of the Scheme reflect the valuation of its investment and any changes in market value of its investments would have a bearing on its NAV. When the units
- are traded on the Stock Exchange, the units of the Scheme may trade at prices which can be different from the NAV due to various factors like demand and supply for the units of the Scheme, perceived trends in the market outlook, etc.
- In certain cases, settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases due to settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities ginificantly by unforeseen circumstances. Similarly, the inability to sell securities held in the Scheme portfolio may result, at times, in potential losses to the Scheme, and there can be a subsequent decline in the value of the securities held in the Scheme portfolio.
- 10. Investors should note that even though the Scheme is an open ended Scheme, subscription/redemptions directly with the Fund would be limited to such investors who have the ability to subscrib/redeem the units of the Scheme is apecific lot sizes. Generally, these lot sizes are larger as compared to normal funds. Even though this Scheme is open ended due to large lot size, very few investors can directly subscribe and redeem the units of the Scheme. However, investors wishing to subscribe/redeem thus is in other than specific lot sizes can do so by buying/selling the same on the Stock Exchange unless no quotes are available on the exchange for 3 trading days consecutively.
- 11. Tracking error may arise due to various reasons like fees and expenses charged to the Scheme, dividend received, corporate actions, change in the Underlying Index, etc. Tracking error has an impact on the performance of the Scheme. The Scheme's returns may therefore deviate from those of its Underlying Basket. However, the Fund would endeavor to keep the tracking error as low as possible.

# PLANS AND OPTIONS

The Scheme does not offer any Plans/Options for investment

## APPLICABLE NAV

The cut-off time for accepting subscription / redemption of units of the Scheme directly with the Fund would be 3.00 p.m. on any business day. However, as the Scheme is an Exchange Traded Fund, the subscriptions and redemptions of units would be based on the Portfolio Deposit and Cash Component as defined by the Fund for that respective business day.

The Fund creates/redeems units of the Scheme in creation unit size i.e. 20,000 units, by exchange of underlying securities i.e. Portfolio Deposit and Cash Component The Fund declares the Portfolio Deposit and Cash Component separately for the Scheme on its website www.mostshares.com daily and the same is applicable for creating and redeeming units for that working day.

# MINIMUM APPLICATION AND REDEMPTION AMOUNT

# Directly with the Fund

The Fund creates and redee s units in creation unit size. The minimum number of units for subscription and redemption is creation unit size

### On the Exchange The units of the Scheme are listed on the Capital Market Segment of the National Stock Exchange of India Limited and Bombay Stock Exchange. Investors can

purchase/sell the units of the Scheme in minimum lot size of 1 unit and in multiples thereof.

# DESPATCH OF REPURCHASE (REDEMPTION) REQUEST

The NAV of the Scheme may be affected by change in the general market conditions, factors and forces affecting capital markets in particular, level of interest rates, various market related factors and trading volumes.

## Scheme Specific Risk Factors

The Scheme is subject to the principal risks described below. Some or all of these risks may adversely affect Scheme's NAV, trading price, yield, return and/or its ability

### Market Risk

The Scheme's NAV will react to stock market movements. The Investor may lose money over short or long period due to fluctuation in Scheme's NAV in response to factors such as performance of companies whose stock comprises the underlying portfolio, economic and political developments, changes in interest rates, inflation and other monetary factors and movement in prices of underlining investments.

# Risk associated with investing in Money Market Instruments

- a Credit risk: Credit risk or default risk refers to the risk which may arise due to default on the part of the issuer of the fixed income security (i.e. will be unable to Creating Creating of the instruction of the rest which may arise due to the latter of the issue of the instead above those offered on Treasury security. Which are sovereign obligations and generally considered to be free of credit risk. Normally, the value of a fixed income security will fluctuate depending upor the actual changes in the perceived level of credit risk as well as the actual event of default.
- Counterparty risk: Counterparty refers to the counterparty's inability to honor its commitments (payment, delivery, repayment, etc.) and to risk of default. This risk relates to the quality of the counterparty to which the scheme has exposures. Losses can occur in particular for the settlement/delivery of financial b.
- Interest Rate risk: This risk is associated with movements in interest rate depends on various factors such as government borrowing, inflation, economic c. performance etc. The value of investments will appreciate/depreciate if the interest rates fall/rise. However, if the investments are held on till maturity of the investments, the value of the investments will not be subjected to this risk.
- Reinvestment risk: This risk arises from uncertainty in the rate at which cash flows from the securities may be reinvested. This is because the bond will pay coupons, which will have to be reinvested. The rate at which the coupons will be reinvested will depend upon prevailing market rates at the time the coupons are received. d.
- Liquidity or Marketability Risk: This refers to the ease at which a security can be sold at or near its true value. The primary mea e. sure of liquidity risk is the spread
- Liquidity or Marketability Kisk: This refers to the case at which a security can be sold at or near its true value. The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is characteristic of the Indian fixed income market. Different types of fixed income securities in which the Scheme would invest carry different levels and types of risk. Accordingly, the Scheme risk may increase or decrease depending upon its investment pattern. e.g. corporate bonds carry a higher level of risk than Government securities. Further even among corporate bonds, bonds, which are AAA rated, are comparatively less risk y han bonds, which are AAA rated. The Net Asset Value (NAV) of the Scheme, to the extent invested in Debt and Money Market securities, will be affected by changes in the general level of interest rates. The NAV of the Scheme is expected to increase from a fall in interest rates while it would be adversely affected by an increase in the level of interest rates. f.

# Risks associated with investing in Government of India Securities

- Market Liquidity risk with fixed rate Government of India Securities even though the Government of India Securities market is more liquid compared to other ents, on certain occasions, there could be difficulties in transacting in the market due to extreme volatility leading to constriction in market volumes Also, the liquidity of the Scheme may suffer in case the relevant guidelines issued by Reserve Bank of India undergo any adverse changes
- Interest Rate risk associated with Government of India Securities while Government of India Securities generally carry relatively minimal credit risk since they b. are issued by the Government of India, they do carry price risk depending upon the general level of interest rates prevailing from time to time. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates decline, the prices of fixed income securities increase. The extent of fall or rise in the prices is a function of the coupon rate, days to maturity and the increase or decrease in the level of interest rates. The price-risk is not unique to Government of India Securities. It exists for all fixed income securities. Therefore, their prices tend to be influenced more by movement in interest rates in the financial system than by changes in the government's credit rating. By contrast, in the case of corporate or institutional fixed income Securities, such as bonds or debentures, prices are influenced by their respective credit standing as well as the general level of interest rates.

# Market Trading Risks

- Absence of Prior Active Market: Although the scheme will be listed on stock exchange, there can be no assurance that an active secondary market will develop or be maintained.
- b. Lack of Market Liquidity: Trading in the units of the scheme on stock exchange may be halted because of market conditions or for reasons that in view of stock exchange or SEBI, trading in the units of the scheme are not advisable. In addition, trading of the units of the scheme are subject to trading halts caused by

Any other expenses which are directly attributable to the Scheme, may be charged with approval of the Trustee within the overall limits as a	specified in the Regulat				

except those expenses which are specifically prohibited

#Additional TER will be charged based on inflows only from retail investors\$ (other than Corporates and Institutions) from B 30 cities.

\$ As per SEBI Circular dated March 25, 2019, it has been decided that inflows of amount upto Rs. 2,00,000/- per transaction, by the individual investors shall be ered as inflows from retail investors

All scheme related expenses including commission paid to distributors, by whatever name it may be called and in whatever manner it may be paid, shall necessarily be paid from the scheme only within the regulatory limits and not from the books of the Asset Management Companies (AMC), its associate, sponsor, trustee or any other entity through any route. Provided that the expenses that are very small in value but high in volume may be paid out of AMC's books. Such expenses can be paid out of AMC's books. Such expenses can be paid out of AMC's books. AMC's books at actuals or not exceeding 2 bps of respective scheme AUM, whichever is lower

However, the upfront trail commission shall be paid from AMC's books for inflows through SIPs from new investors as per the applicable regulations. The said commission shall be amortized on daily basis to the scheme over the period for which the payment has been made. A complete audit trail of upfronting of trail commissions from the AMC's books and amortization of the same to scheme(s) thereafter shall be made available for inspection. The said commission should be charged to the scheme as 'commissions' and should also account for computing the TER differential between regular and direct plans in each scheme.

The expenses towards Investment Management and Advisory Fees under Regulation 52 (2) and the various sub-heads of recurring expenses mentioned under Regulation 52 (4) of SEBI (MF) Regulations are fungible in nature. Thus, there shall be no internal sub-limits within the expense ratio for expense heads mentioned under Regulation 52 (2) and (4) respectively. Further, the additional expenses under Regulation 52(6A)(c) shall also be incurred towards any of these expense heads.

The purpose of the above table is to assist the investor in understanding the various costs & expenses that the investor in the Scheme will bear directly or indirectly. These estimates have been made in good faith as per the information available to the AMC and the above expenses (including investment management and advisory fees) are subject to inter-se change and may increase/decrease as per actual and/or any change in the Regulations, as amended from time to time.

All fees and expenses charged in a direct plan (in percentage terms) under various heads including the investment and advisory fee shall not exceed the fees and expenses charged under such heads in a regular plan. The TER of the Direct Plan will be lower to the extent of the distribution expenses/commission which is charged in the Regular Plan and no commission for distribution of Units will be paid / charged under the Direct Plan. Accordingly, the NAV of the Direct Plan would be different from NAV of the Direct Plan would be different NAV of Regular Plan.

In addition to expenses under Regulation 52(6) and (6A), AMC may charge GST on investment and advisory fees, expenses other than investment and advisory fees and brokerage and transaction cost as below

1. GST on investment and advisory fees charged to the scheme will be in addition to the maximum limit of TER as prescribed in regulation 52 (6) of the SEBI Regulations.

2. GST on expenses other than investment and advisory fees, if any, shall be borne by the scheme within the maximum limit of TER as per regulation 52 of the SEBI

3. GST on brokerage and transaction cost paid for execution of trade, if any, shall be within the limit prescribed under regulation 52 of the SEBI Regulations.

In accordance with Regulation 52(6A), the following expenses can be charged in addition to the existing total recurring expenses charged under Regulation 52(6):

# INSTRUCTIONS FOR COMPLETING THE APPLICATION FORM

# 1 General Information

- Please read the terms of the Key Information Memorandum (KIM) and the Scheme Information Document (SID) and Statement of Additional Information carefully before filling the Application Form. Investors are deemed to have accepted the terms subject to which this offer is being made and bind themselves to the terms upon signing the Application Form and tendering payment.
- The Application Form should be completed in ENGLISH and in BLOCK LETTERS only. Please tick in the b. appropriate box for relevant options wherever applicable. Please do not overwrite. For any correction / changes (if any) made on the Application Form, the sole/all applicants are requested to authenticate the same by canceling and re-writing the correct details and counter-signing the same. Applications completed in all respects, must be submitted at the Investor Service Centres (ISCs) / Official Points of Acceptance. Investors can also subscribe to the Units of all scheme of Motilal Oswal Mutual Fund through the mutual fund

trading platforms viz. BSE StAR MF of Bombay Stock Exchange Limited and Mutual Fund Service System (MFSS) of National Stock Exchange of India Limited. For further details, investors are advised to contact ISCs of Karvy or visit our website www.mostshares.com and www.motilaloswalmf.com. Please write the Serial Number of the Application Form / Folio Number on the reverse of the cheque / demand draft. Applications incomplete in any respect are liable to be rejected. The AMC / Trustee retains the sole and absolute discretion to reject any application. An additional facility of transacting in the Units of all eligible Schemes of MOMF through the platform as may be provided by Indian Commodity Exchange Ltd (ICEX) to the investors. Further, Investors desirous of transacting through ICEX shall submit applications to registered stock brokers or distributors registered with ICEX.

Investments through distributors As per directions of Securities and Exchange Board of India (SEBI), the distributors, agents or any persons employed or engaged or to be employed or engaged in the sale and/or distribution of mutual fund products are required to have a valid certification from the National Institute of Securities Markets (NISM) by passing the C. certification examination.

Further, no agents / distributors are entitled to sell units of mutual funds unless the intermediary is registered with Association of Mutual Funds in India (AMFI).

Applications on behalf of minors should be made by natural guardian (i.e. father or mother) or legal guardian (court appointed) and signed by them. The name of the Guardian should be filled in the relevant space provided in the Application Form. No joint applicant/joint holder is permitted with the minor beneficiary d.

### e.

Employee Unique Identification Number (EUIN) Further, SEBI has made it compulsory for every employee/ relationship manager/ sales person of the distributor of mutual fund products to quote in the Application Form the EUIN obtained by him/her from AMFI. EUIN would assist in addressing any instance of mis-selling even if the employee/ relationship manager/sales person later leaves the employment of the distributor.
